Empowering individuals to become Resourceful,
Respectful, and Responsible Lifelong Learners.

Adopted January 15, 2024

Revisions Updated December 13, 2024

Introduction

This policy manual contains the policies of the Board of Education of the Hemingford Public Schools. Policy development is a dynamic, ongoing process. New problems, issues, and needs give rise to the continuing need to develop new policies or to revise existing ones.

How To Use This Policy Manual

The school district operates according to policies established by its school board. The board develops policies after careful deliberation, and the school administration implements them through specific regulations and procedures. The board reviews and evaluates its policies and makes revisions as necessary.

The manual is organized according to a numeric codification system. There are ten major classifications bearing a numeric Section Code.

- 100 DISTRICT ORGANIZATION AND BASIC COMMITMENTS
- 200 SCHOOL BOARD
- 300 ADMINISTRATION
- 400 PERSONNEL
- 500 STUDENTS
- 600 INSTRUCTION
- 700 BUSINESS OPERATION
- 800 SUPPORT SERVICES
- 900 BUILDINGS AND SITES
- 1000 COMMUNITY AND EDUCATION AGENCY RELATIONS

Subclassifications under each numeric Section are based on a logical sequence and coded by the subclassification numeric code.

How To Find A Policy

There are two ways to find a policy. The first is to review the ten sections and determine which section the policy may be in. You can review the table of contents to determine whether the policy is included. If the policy is included, you can navigate to the policy by finding the correct code number in the upper right hand corner of the policy or by clicking the linked policy name in the table of contents.

The second way to use the search command on your computer to search for a specific term. For example, by searching the file for “graduation” you can find and navigate to any policies that include the term “graduation” to review any policies that include information related to graduation.

How To Read The Signs And Symbols

A variety of signs and symbols are used in concert with the numeric codification system. These are explained below:

No symbol indicates this is an actual policy adopted directly by the board for the governance of the district. Policies appear on blue paper.

R This symbol following a policy code number indicates the statement is an administrative regulation rather than a board policy.

E This symbol following a policy code number indicates the statement is an exhibit rather than a board policy. These statements appear on white paper.

Legal This sign indicates the legal references. They tell the user where to find the statutes, case law, attorney general opinions, or administrative rules that give authority to a policy.

Cross Many policies in the manual relate to other policies in the Reference manual. Cross references are provided to assist the user in finding all of the related policies.

Inquires about the policies included in this manual may be directed to the board members or the superintendent by telephone at (308)487-3328, by electronic communication, by contacting the school business office to arrange an in-person meeting, or by writing the school district at Hemingford Public Schools, 913 Niobrara Avenue, Hemingford, NE 69348.

103.00 - EQUAL EDUCATIONAL OPPORTUNITY

The board requires all persons, agencies, vendors, contractors and other persons and organizations doing business with or performing services for the school district to subscribe to all applicable federal and state laws, executive orders, rules, and regulations pertaining to contract compliance and equal opportunity.

The district does not discriminate based on race (including skin color, hair texture, and protective hairstyles), color, religion, national origin, age, sex, disability, or marital status, sexual orientation or gender identity in its programs and activities and provides equal access to the Boy Scouts and other designated youth groups. The following person has been designated as Compliance Coordinator to handle inquiries regarding the nondiscrimination policies:

Name and/or Title: Dr. Travis Miller, Superintendent
Address: 911 Niobrara, Hemingford, NE 69348
Telephone No.: 308-487-3328

The board affirms the right of all students and staff to be treated with respect and to be protected from intimidation, discrimination, physical harm, and harassment. Harassment or discriminatory behavior that denies civil rights or access to equal educational opportunities includes comments, name-calling, physical conduct, or other expressive behavior directed at an individual or group that intentionally demeans the race, color, national origin, sex, disability, age, or marital status of the individual or individuals or creates an intimidating, hostile or demeaning environment for education.

104.00 - EDUCATIONAL AND OPERATIONAL PLANNING

At least every 5 years the board shall conduct an in-depth needs assessment, soliciting information from business and community members, regarding their expectations for adequate student preparation. One purpose of this assessment is to assist the board in developing and evaluating a statement of philosophy for the school district. The second purpose of this assessment is to determine the areas of student performance, knowledge, and attitudes and the areas of school district operations that are judged to be most crucial in meeting school or school district goals. As part of its assessment, the board shall develop a process for communicating with business and the community regarding their expectations for adequate student preparation. The statement of philosophy shall describe the board's beliefs about topics which shall include the nature of learning, the purpose of the school district, the scope of educational experiences that the school district should provide, the nature of its learners and a description of a desirable learning atmosphere.

In conjunction with the in-depth needs assessment of the school district, the board shall authorize the appointment of a committee representing administrators, employees, parents, students and community members, to make recommendations and assist the board in determining the priorities of the school district in addition to the basic skills areas of the education program.

It shall be the responsibility of the superintendent to ensure the school district community is informed of the board's policies, programs and goals and has an opportunity to express their thoughts and suggestions for the operation of the school district. The superintendent shall report annually to the board about the means used to keep the community informed. All references to "superintendent" in this policy manual shall mean the "superintendent or the superintendent's designee" unless otherwise stated in the board policy.

As a result of the board and committee's work, the board shall determine major educational needs and rank them in priority order; develop long-range goals and plans to meet the needs; establish and implement short-range and intermediate-range plans to meet the goals and to attain the desired levels of student performance; evaluate progress toward meeting the goals and maintain a record of progress under the plan that includes reports of student performance and results of school improvement projects; and annually report the school district's progress made under the plan to the committee, community and Nebraska Department of Education.

Section 200 - School Board

201 - Legal Status of the School Board

201.01 - POWERS AND RESPONSIBILITIES OF THE BOARD

The board of the Hemingford School District, acting on behalf of the school district, shall have jurisdiction over school matters within the territory of the school district.

The board is empowered to make policy for its own governance, for employees, for students and for school district facilities. The board is also empowered to enforce its policies. The board may, through its quasi-judicial power, conduct hearings and rule on issues and disputes confronting the school district.

The board has these powers and all other powers expressly granted to it in federal and state law as well as the powers that can be reasonably implied from the express powers.

The board is authorized to govern the school district which it oversees. As the governing board of the school district, the board has three duties to perform: legislative duty, executive duty, and evaluative duty.

As a representative of the citizens of the school district, the board is responsible for legislating policy for the school district. As a policy making body, the board has jurisdiction to enact policy with the force and effect of law for the management and operation of the school district.

It is the responsibility of the board, under the board's executive duty, to select its chief executive officer, the superintendent, to operate the school district on the board's behalf. All references to "superintendent" in this policy manual shall mean the "superintendent or the superintendent's designee" unless otherwise stated in the board policy. The board delegates to the superintendent its authority to carry out board policy, to formulate and carry out rules and regulations and to handle the administrative details in a manner which supports and is consistent with board policy. The board may enter into certain contracts as permitted by law for periods not to exceed four years.

The board has a responsibility to review the education program's performance under its evaluative duty. The board regularly reviews the education program and associated support services. The review includes a careful study and examination of the facts, conditions and circumstances surrounding the amount of funds received or expended and the education program's ability to achieve the board's educational philosophy for the school district.

201.01R1 - GUIDELINES FOR BOARD AND SUPERINTENDENT OPERATIONS

Limits of Authority of the Board

AUTHORITY LIMITS:

All actions of the board shall be taken only in official board meetings called, scheduled and conducted according to the bylaws of the Board of Education and the laws of the State of Nebraska.

Individual members of the board should avoid making decisions as an individual or group outside legal board meetings that will commit the board or district to a particular course of action. Requests for board action presented to board members outside of regular board meetings should be accepted without comment or commitment by the board member. A board member may direct the complainant to take up the issue with the proper school official if they have not already done so. Those making the requests should be directed to address the Board of Education as a whole at a regular board meeting. Only after an issue or problem has been presented to the entire Board of Education, and all sides to such issue or problem have been presented, and the logic involved has been considered by all members, will board members make individual commitments.

It shall be the policy of all board members to inform employees to consult with their immediate supervisor for instructions. No board member will give instructions or indicate what he or she thinks the superintendent's instructions should be on any specific issue or problem. Employees who approach board members with grievances will be instructed to consult with their immediate supervisor, and, if necessary, arrangements will be made for employees to meet with the entire board to air their grievances. Employees must make those arrangements with the superintendent of schools through the district's grievance policy.

An exception to this policy is in order whenever the board in an official meeting has expressly appointed a particular board member, or committee of board members, with specific authority to act on behalf of the board. The primary responsibility of the Board of Education is a legislative one under which it provides a framework for the operation and maintenance of the school system and delegates the administrative authority to carry out these policies to the superintendent and staff.

Superintendent's Memo of Understanding

1. Board Meetings
 - 1.1. In the materials submitted to board members prior to a board meeting, the Superintendent shall present all relevant information (including both the information that supports his recommendations and that which does not.)
 - 1.2. With regard to any action items on the agenda, the Superintendent shall inform the Board of the viable options or alternatives, if any, which may exist.

- 1.3. Neither the Superintendent nor any of the board members shall engage in any of the following tactics at board meetings:
 - 1.4. Disclosing “surprise” information that could have been shared with others prior to the meeting
 - 1.5. Asking “surprise” questions designed to “catch someone off-guard” or embarrass them rather than to seek clarification or additional information
 - 1.6. Bringing up “surprise” items (other than emergency items) for discussion when such items are not on the agenda
 - 1.7. A list of all bills will be available to board members prior to the meeting. The board members may review those bills and call or conference with the Superintendent with any questions they may have prior to arriving for the board meeting.
2. Complaints
 - 2.1. The complaints are brought to board members, the board members will listen to the complaint, but will direct the complainant to the appropriate level in the chain of authority in the school system. The board member will not offer or agree to become an advocate for the complainant or commit to taking any action on the complaint.
 - 2.2. If the complainant has exhausted his/her administrative remedies (including having presented his/her complaint to the Superintendent), the board member shall direct the complainant to reduce his/her complaint to writing and submit it to the president of the Board. The president of the board shall provide a copy of the written complaint to the Superintendent and review it with him/her. After conferencing with Superintendent, the president shall decide whether or not the complaint is a matter that warrants board consideration. If so, he/she shall place the matter on an upcoming board agenda. If not, he/she shall so notify the complainant.
 - 2.3. Notwithstanding any provisions above to the contrary, any complaints involving allegations of personal or professional misconduct on the part of the Superintendent shall be directed to the president of the Board.
3. Hiring Practices
 - 3.1. The Superintendent shall be responsible for the recruiting, screening, and interviewing processes for all employment vacancies in the district. He/she shall recommend candidates for employment in the District. The board of education shall decide whether or not to accept the recommendation.
 - 3.2. If the board of education does not accept the recommendation of the Superintendent, the Superintendent shall submit a different recommendation at a subsequent meeting of the board.
 - 3.3. No member of the board shall lobby the superintendent to recommend a relative, friend, acquaintance, or any other candidate for any position of employment with the District. It shall not be considered a violation of this Paragraph if a candidate lists a board member as a reference in his/her application for employment.

4. Employee Job Performance Reviews (Evaluations)
 - 4.1. The Superintendent and his/her designee(s) shall be responsible for conducting job performance review (evaluations) for all employees in the District (except the Superintendent). The board of education shall be responsible for the job performance review of the Superintendent.
 - 4.2. No individual board member shall request to examine any employee's job performance reviews or request an administrator to discuss an employee's evaluation with them. The board as a whole, however, may, in closed session and with a majority of the members voting in favor of such, examine the job performance reviews of employees.
 - 4.3. Notwithstanding the provisions of the preceding paragraph, if the Superintendent and/or his/her designee(s) are considering non-renewal, dismissal, or disciplinary action against an employee and the employee has a statutory or contractual right to have the Superintendent's decision or recommendation reviewed by the board, members of the board shall not request to examine such employees job performance reviews until such matters have been concluded and the time for an appeal to the board has expired.
 - 4.4. The board shall have a legitimate educational purpose for examining job performance reviews. In no event will the board examine job performance reviews simply out of curiosity or for personal reasons.
 - 4.5. No board member shall disclose, discuss, or in any way communicate the contents of any job performance review with anyone other than another board member or the Superintendent.

5. Purchases
 - 5.1. The Superintendent shall have the responsibility of operating the school system within the overall limits of the approved budget.
 - 5.2. Once the budget is approved, the Superintendent shall have the authority and discretion to approve all purchases of goods, materials, and services which he/she believes are necessary or desirable for the operation of the school district.
 - 5.3. Notwithstanding the provisions of the preceding paragraph, the Superintendent shall present the following purchases for prior board approval:
 - 5.4. The purchase of a new textbook series in any curriculum area. Prior approval shall not be required for the routine replacement of damaged or lost textbooks nor the purchase of necessary additional copies of a current textbook series.
 - 5.5. The purchase or lease of new vehicles.
 - 5.6. The purchase of any item or expenditure that exceeds \$5,000 unless that expenditure was contemplated and discussed during the budget development process. If time is of the essence, the purchase may be made but reported at the next meeting. This exemption would only apply to replacement of existing equipment. Purchases of new or additional equipment are not exempt from this requirement.

6. School "Visits"
 - 6.1. In order to avoid creating channels of communication around the Superintendent and, thus, reducing his/her effectiveness as the leader of the school system, board members will visit schools and seek direct communication with employees only under a systematic plan mutually agreed to by and between the Board and the Superintendent.
 - 6.2. The preceding provision shall not apply to activities open to the public or visits where the board member is acting solely in his/her role as a parent of a student.

7. Micro-Management
 - 7.1. No member of the Board (nor the Board as a whole) shall become involved in micromanagement of District operations.
 - 7.2. "Micro-management" shall mean becoming actively involved in matters that are not policy-related in nature or that are not specifically required of the board by law.
 - 7.3. The primary responsibility of the Board shall be to formulate and adopt policies. The primary responsibility of the Superintendent shall be to implement and enforce such policies and to administer the day-to-day operations of the District.
 - 7.4. No individual board member will give directions or orders to the Superintendent or any other employees of the District.
 - 7.5. Board members shall not call (or have someone else call) the Superintendent out of conferences or meetings except for emergency situations (unless requested to do so by the Superintendent.)

8. Board Policies
 - 8.1. The Superintendent shall assist the Board with reviewing and revising its policies on a regular basis.
 - 8.2. When situations arise which are not covered by Board policy, the Superintendent shall have the authority to take whatever action he/she believes to be best under the circumstances.

The terms shall be staggered so that three board members are elected at each general election. The newly elected members shall be seated on the board in January following the election in November. School District #10 is divided into three wards for the selection of candidates for the election. If more than two candidates file for election in one ward, the number of candidates will be reduced to two through the primary election. The election in November will be at large with all voters within District #10 voting for one member from each ward. All elections will follow the election statutes of the State of Nebraska.

The Wards are as follows:

Ward A: All of the district west of a north-south line along the section lines running north and south of a point one mile west of the center of the Village of Hemingford, AKA, Box Butte Avenue, Hemingford, NE.

Ward B: All of the district outside the Village of Hemingford corporate limits not included in Ward A.

Ward C: All of the district within the corporate limits of the Village of Hemingford. Incumbents must file for election at the office of the County Clerk, Box Butte County, by February 15 prior to the date of the primary election. All other candidates must file for election by March 1 prior to the date of the primary election.

If a vacancy occurs on the board it may be filled within 45 days by appointment of a qualified registered voter by the remaining members of the board for the remainder of the unexpired term. If the board does not fill the vacancy by appointment, the vacancy may be filled by election at a special election or school district meeting called for that purpose. If a majority of the offices of the school board members are vacant, the Secretary of State will call a special school district election to fill the vacancies. Every candidate for a special district election shall file a candidate filing form according to state statutes.

It is prohibited to meet in closed session for discussion of the appointment or election of a new board member.

201.03 - QUALIFICATIONS

Serving on the school board is an honor and privilege. Its rewards are respect from the community, students, and employees and the satisfaction from knowing each board member contributed to the success of the children in the school district community. Only those who are willing to put forth the effort to care and to make a difference should consider running for a position on the board.

Individuals who are willing to serve on the board should believe public education is important, support the democratic process, willingly devote time and energy to board work, respect educators and have the ability to examine the facts and make a decision. The board believes an individual considering a position on the school board should possess these characteristics.

Persons wanting to run for a position on the board must be a resident of the school district, an eligible elector of the district and free from a financial conflict of interest with the position. No member of a school board may be engaged in a contract to teach by the school district on which board he or she serves.

201.08 - STUDENT BOARD REPRESENTATIVE

I. PURPOSE

This policy aims to define the selection and term of office and the rights and responsibilities of the student board representative on the Board of Education.

II. SELECTION AND TERM OF OFFICE

Student representation to the Board of Education is open to all academically eligible students in grades 9-12.

The term of office will be one semester. The first semester will start in September and end in December. The second semester will start in January and end in April.

For the program's initial year, applications will be due by August 26th. The Committee on American Civics will then review applications. Based on a review of applicants, the Committee may select students for interview. The committee will then make a nomination to the Board of Education for appointment by the full board at the September meeting of the Board. If no student applications are received by the deadline, then the Board of Education will work with the High School Principal to appoint a student representative for each semester.

In subsequent years, students must complete the application in full by April 15th to be considered for the next school year. The Committee on American Civics will then review applications. Based on a review of applicants, the Committee may select students for interview. The committee will then make a nomination to the Board of Education of one student board representative for the first semester to be sworn in at the September Board of Education meeting and one student representative for the second semester to be sworn in at the January Board of Education meeting. If no student applications are received by the deadline, then the Board of Education will work with the High School Principal to appoint a student representative for each semester.

The student board representative serves at the discretion of the Board of Education. The Board of Education may remove a student board representative for failure to fulfill his or her duties, for failure to maintain academic standards, or for behaviors that the Board determines unacceptable as a student board representative.

III. RIGHTS AND RESPONSIBILITIES

The student board representative will work to represent the opinions of all students and not solely their own personal interests.

The student board representative will dress and act appropriately while serving on the Board of Education in a manner consistent with the Board Member Code of Ethics, and follow all the rules, policies, and regulations that the Board of Education follows.

The student board representative will attend and sit on all regular meetings of the Board of Education during their semester term and can be appointed to Board committees at the discretion of the Board of Education President.

Following the student board representative's selection, they will attend an orientation session with the Superintendent and the Board of Education President. This session will be held before the student board representative's first Board of Education meeting.

The student board representative will not have the right to make or second motions or vote on agenda items before the Board. The input of the student board representative during discussions will be the primary way the student's perspectives will contribute to the work of the Board.

The student board representative will not be permitted to participate in Board of Education meetings from which the general public is excluded to include: executive/closed sessions, negotiations sessions, or personnel portions of the regular meetings of the Board of Education.

The student board representative will receive all regular meeting agendas, minutes, and other pertinent information, excluding any confidential materials.

The student board representative will communicate with fellow students to obtain input and keep students informed on pertinent issues before the Board of Education in a manner approved by the High School Principal.

The student board representative will submit a monthly report to the Board of Education regarding student activities and other pertinent student information.

The student board representative will be required to develop an initiative for the betterment of the school district to be approved by the High School Principal before being presented to the Board of Education for consideration.

The student board representative will submit a written summary of their experience on the Board of Education after their semester term.

202 - School Board Member Conduct

202.01 - BOARD MEMBER CODE OF ETHICS

Board members' actions, verbal and nonverbal, reflect the attitude and the beliefs of the school district. Therefore, board members must conduct themselves professionally and in a manner fitting to their position.

Each board member shall follow the code of ethics stated in this policy.

AS A SCHOOL BOARD MEMBER:

1. I will listen.
2. I will respect the opinion of others.
3. I will recognize the integrity of my predecessors and associates and the merit of their work.
4. I will be motivated only by an earnest desire to serve my school district and the children of my school district community in the best possible way.
5. I will not use the school district or any part of the school district program for my own personal advantage or for the advantage of my friends or supporters.
6. I will vote for a closed session of the board if the situation requires it, but I will consider "secret" sessions of board members unethical.
7. I will recognize that to promise in advance of a meeting how I will vote on any proposition which is to be considered is to close my mind and agree not to think through other facts and points of view which may be presented in the meeting.
8. I will expect, in board meetings, to spend more time on education programs and procedures than on business details.
9. I will recognize that authority rests with the board in legal session and not with individual members of the board, except as authorized by law.
10. I will make no disparaging remarks, in or out of the board meeting, about other members of the board or their opinions.
11. I will express my honest and most thoughtful opinions frankly in board meetings in an effort to have decisions made for the best interests of the children and the education program.
12. I will insist that the members of the board participate fully in board action and recommend that when special committees are appointed, they serve only in an investigative and advisory capacity.
13. I will abide by majority decisions of the board.
14. I will carefully consider petitions, resolutions and complaints and will act in the best interests of the school district.
15. I will not discuss the confidential business of the board in my home, on the street or in my office; the place for such discussion is the board meeting.

16. I will endeavor to keep informed on local, state and national educational developments of significance so I may become a better board member.

IN MEETING MY RESPONSIBILITY TO MY SCHOOL DISTRICT COMMUNITY:

1. I will consider myself a trustee of public education and will do my best to protect it, conserve it, and advance it, giving to the children of my school district community the educational facilities that are as complete and adequate as it is possible to provide.
2. I will consider it an important responsibility of the board to interpret the aims, methods and attitudes of the school district to the community.
3. I will earnestly try to interpret the needs and attitudes of the school district community and do my best to translate them into the education program of the school district.
4. I will attempt to procure adequate financial support for the school district.
5. I will represent the entire school district rather than individual electors, patrons or groups.
6. I will not regard the school district facilities as my own private property but as the property of the people.

IN MY RELATIONSHIP WITH THE SUPERINTENDENT AND EMPLOYEES:

1. I will function, in meeting the legal responsibility that is mine, as part of a legislative, policy-forming body, not as an administrative officer.
2. I will recognize that it is my responsibility, together with that of my fellow board members, to see the school district is properly run and not to run them myself.
3. I will expect the school district to be administered by the best-trained technical and professional people it is possible to procure within the financial resources of the school district.
4. I will recognize the superintendent as executive officer of the board.
5. I will work through the administrative employees of the board, not over or around them.
6. I will expect the superintendent to keep the board adequately informed through oral and written reports.
7. I will vote to hire employees only after the recommendation of the superintendent has been received.
8. I will insist that contracts be equally binding on teachers and board.
9. I will give the superintendent power commensurate with the superintendent's responsibility and will not in any way interfere with, or seek to undermine, the superintendent's authority.
10. I will give the superintendent friendly counsel and advice.
11. I will present any personal criticism of employees to the superintendent.
12. I will refer complaints to the proper administrative officer.

TO COOPERATE WITH OTHER SCHOOL BOARDS:

1. I will not employ a superintendent, principal or teacher who is already under contract with another school district without first securing assurance from the proper authority that the person can be released from contract.
2. I will consider it unethical to pursue any procedure calculated to embarrass a neighboring board or its representatives.
3. I will not recommend an employee for a position in another school district unless I would employ the individual under similar circumstances.
4. I will answer all inquiries about the standing and ability of an employee to the best of my knowledge and judgment, with complete frankness.
5. I will associate myself with board members of other school districts for the purpose of discussing school district issues and cooperating in the improvement of the education program.

202.02 - BOARD MEMBER CONFLICT OF INTEREST

It shall be the responsibility of each board member to be aware of an actual or potential conflict of interest. It shall also be the responsibility of each board member to take the action necessary to eliminate such a conflict of interest. Should a conflict of interest arise, a board member should not participate in any action relating to the issue from which the conflict arose.

No voting board member may have an interest in any contract to which the district, or anyone for its benefit, is party. The prohibition applies when the board member or the board member's immediate family is a partner, director, officer, or is a stockholder of closed corporation stock worth one thousand dollars or more at fair market value or which represents more than a five per cent equity interest, or is a stockholder of publicly traded stock worth ten thousand dollars or more at fair market value or which represents more than ten percent equity interest. An individual who occupies a confidential professional relationship protected by law is exempt from this policy. This policy does not apply to publicly traded stock under a trading account.

The above prohibition does not apply if the voting board member:

1. Supplies a written statement describing the matter up for decision and the nature of the conflict to the Nebraska Accountability and Disclosure Commission, the Superintendent and to the board secretary. The secretary shall enter the statement onto the public records of the district.
2. The board member must take such action as the Commission advises to remove himself or herself from influence over the decision.
3. Does not vote on the matter of granting the contract, except if the number of members of the board declaring an interest in the contract would prevent the board, with all members present, from securing a quorum on the issue, then all members may vote on the matter and this action will be reported to the commission; and
4. Does not act for the district to inspect, supervise or determine the performance of contracts under which he or she has an interest.

A board member who is an employee of a business involved in a contract with the district and who has no ownership interest or will receive no direct fee or commission shall not be deemed to have an interest within the meaning of this policy. The receiving of deposits, cashing of checks and buying and selling of warrants and bonds of indebtedness of any school district by a financial institution will not be considered an interest in the contract under this policy.

If a board member's immediate family member is an employee of the school district, the member may vote on all issues of the contract which are generally applicable to all employees

or all employees within a classification and do not single out his or her family member for special action.

Any contract entered into with an interested board member shall be subject to applicable competitive bidding requirements and shall be fair and reasonable to the school district.

A voting board member or district employee may employ, recommend the employment of, or supervise the employment of an immediate family member if he or she does not abuse his or her official position and makes a full disclosure of the relationship to the board and a written disclosure of the relationship to the board secretary. No board member or administrator shall employ an immediate family member without first having made a reasonable solicitation and consideration of applications for such employment. The family member must be qualified for, able to perform, and required to perform the duties of the position. The family member must not be paid an unreasonably high salary. No existing employee may be terminated for the purpose of making a position available to such a family member.

Any newly elected or appointed board member or administrator shall make a full disclosure of any immediate family member employed in a position subject to this policy as soon as reasonably possible after the date of taking office.

No board member or district employee shall use their position or any confidential information received through their position to obtain financial gain, other than compensation provided by law, for himself or herself, an immediate family member, or a business with which the individual is associated. No board member shall use or authorize the use of personnel, property, resources or funds under his or her official care for the purpose of campaigning for or against the nomination or election of a candidate or the qualification, passage or defeat of a ballot question.

The superintendent shall keep a record for the district for every contract entered into by the district in which a board member has an interest. This information shall be kept for five years from the date of the board member's last day in office and will include the following:

1. Names of contracting parties;
2. The nature of the interest of the board member in question;
3. The date that the contract was approved by the district;
4. The amount of the contract; and
5. Basic terms of the contract.

The record kept by the superintendent shall be available for public inspection during the normal working hours of the superintendent's office.

All board members and district employees are responsible for obeying all final rulings or appeals of the Accountability and Disclosure Commission. If a case is contested before the Commission by the district, the superintendent shall ensure that the district is represented at the hearing. If a case is contested by a board member, that member shall be responsible for his/her own representation and shall be responsible for any Commission fines or penalties.

An open account established by the district with a business in which a board member has an interest, shall be deemed a contract subject to the provisions of this policy. The superintendent shall maintain a running account of all amounts purchased in open accounts.

Contracts involving one hundred dollars or less in which a board member may have an interest are excluded from the provisions of this policy.

Section 300 - Administration

300.01 - ROLE OF ADMINISTRATION

In this series of the board policy manual, the board defines the role and the employment of school district administrators. Policies in the 400 Series, "Employees," also apply to administrators unless a more specific policy exists in the 300 Series, "Administration."

School district administrators have been given a great opportunity and responsibility to manage the school district, to provide educational leadership, and to implement the educational philosophy of the school district. They are responsible for the day-to-day operations of the school district. In carrying out these operations, the administrators are guided by board policies, the law, the needs of the students, and the wishes of the citizens in the school district community.

It shall be the responsibility of the administrators to implement and enforce the policies of the board, to oversee employees, to monitor educational issues confronting the school district, and to inform the board about school district operations.

While the board holds the superintendent ultimately responsible for these duties, the principals are more directly responsible for educational results, for the administration of the school facilities and for the employees.

The board and the administration shall work together to share information and decisions under the management team concept.

Those board members or administrators with special expertise or knowledge of an issue may be called upon to provide information. Each board member and administrator shall support the decisions reached on the issues confronting the school district.

The board shall be responsible for making the final decision in matters pertaining to the school district.

The board considers all those who have a role in the recruitment or release of employees to be part of the management team. The management team shall be headed by the superintendent. The superintendent shall convene meetings to discuss school district policies, administrative procedures and other business brought to the superintendent's attention.

The management team shall meet with the board upon the board's request or superintendent's recommendation to review overall operations of the school district and conditions affecting the management team. The management team shall have no relationship to the formal negotiating unit. In the event a member or members of the management team are unable to resolve a problem, a committee of one board member, one management team member, and the superintendent shall investigate the circumstances and make a recommendation. If the recommendation does not settle the matter, the board and the management team shall meet to resolve the matter. The successor shall assume the duties when the successor learns of the superintendent's absence or when assigned by the superintendent or the board.

School employees shall be responsible for conferring with their immediate supervisor on questions and concerns. Students and other members of the school district community shall confer with a certificated employee and then with the principal on questions and concerns. 302.05 - SUPERINTENDENT EVALUATION

The board will conduct an ongoing evaluation of the superintendent's skills, abilities, and competence. At a minimum, the board will formally evaluate the superintendent twice in the first year and annually thereafter. The goal of the superintendent's formal evaluation is to ensure the education program for the students is carried out, promote growth in effective administrative leadership, clarify the superintendent's role, clarify the immediate priorities of the board, and develop a working relationship between the board and the superintendent.

The formal evaluation will be based upon the following principles:

The evaluation criteria shall be in writing, clearly stated and mutually agreed upon by the board and the superintendent. The criteria will be related to the job description and the school district's goals;

At a minimum, the evaluation process will be conducted annually at a time agreed upon;

Each board member shall have an opportunity to individually evaluate the superintendent, and these individual evaluations will be compiled into an overall evaluation by the entire board;

The board as a whole may discuss its evaluation with the superintendent in open or closed session as appropriate if there will be criticism of the superintendent but if going into closed session shall follow the requirements of policy 204.06 Closed Sessions;

The individual evaluation by each board member, if individual board members so desire, will not be reviewed by the superintendent. Board members are encouraged to communicate their criticisms and concerns to the superintendent in the closed session; and

The board will complete the evaluation process by reaching consensus on goals or priorities for the superintendent for the next period of evaluation.

Any thorough evaluation of the Superintendent will likely have both positive and negative comments interspersed throughout the discussion. If the board enters into closed session it must clearly be to prevent needless harm to the reputation of an individual or for the protection of the public interest. Policy 204.06 Closed Sessions should be followed in all respects when going into or coming out of closed session.

The board president will develop a written summary of the individual evaluations, including both the strengths and the weaknesses of the superintendent, and place it in the superintendent's personnel file to be incorporated into the next cycle of evaluations.

This policy supports and does not preclude the ongoing, informal evaluation of the superintendent's skills, abilities and competence. The written evaluation should be completed between the December and February board meetings each year.

402.03 - EMPLOYEE CONFLICT OF INTEREST

Employees' use of their position with the school district for financial gain shall be considered a conflict of interest with their position as employees and may subject employees to disciplinary action.

No employee earning more than one hundred fifty thousand dollars annually in salary and benefits may enter into any contract, agreement, or understanding on the district's behalf that may cause financial benefit to the employee, a member of the employee's immediate family, or a business with which the employee is associated, without prior full disclosure of the conflict to the board, and without prior approval by the board.

Employees have access to information and a captive audience that could award the employee personal or financial gain. No employee may solicit other employees or students for personal or financial gain to the employee or employee's spouse without the approval of the superintendent. If the approval of the superintendent is given, the employee must conduct the solicitations within the conditions set by the superintendent. Further, the superintendent may require the employee to immediately cease such solicitations as a condition of continued employment.

Employees shall not act as an agent or dealer for the sale of textbooks or other school supplies. Employees shall not participate for personal financial remuneration in outside activities wherein their position on the staff is used to sell goods or services to students or to parents. Employees shall not engage in outside work or activities where the source of information concerning the customer, client or employer originates from information obtained because of the employee's position in the school district.

It shall also be a conflict of interest for an employee to engage in any outside employment or activity which is in conflict with the employee's official duties and responsibilities. In determining whether outside employment or activity of an employee creates a conflict of interest, situations in which an unacceptable conflict of interest shall be deemed to exist shall include, but not be limited to, any of the following:

1. The outside employment or activity involves the use of the school district's time, facilities, equipment and supplies or the use of the school district's badge, uniform, business card or other evidences of office to give the employee or the employee's immediate family an advantage or monetary benefit that is not available to other similarly situated members or classes of members of the general public. For purposes of this section, a person is not "similarly situated" merely by being related to an employee who is employed by the school district.
2. The outside employment or activity involves the receipt of, promise of, or acceptance of more or other consideration by the employee or a member of the employee's immediate family from anyone other than the school district for the performance of any act that the

employee would be required or expected to perform as part of the employee's regular duties or during the hours during which the employee performs service or work for the school district.

3. The outside employment or activity is subject to the official control, inspection, review, audit or enforcement authority of the employee during the performance of the employee's duties.

If the outside employment or activity is employment or activity in (1) or (2) above, the employee must cease the employment or activity. If the activity or employment falls under (3), then the employee must:

- Cease the outside employment or activity; or
- Publicly disclose the existence of the conflict and refrain from taking any official action or performing any official duty that would detrimentally affect or create a benefit for the outside employment or activity. Official action or official duty includes, but is not limited to, participating in any vote, taking affirmative action to influence any vote, or providing any other official service or thing that is not available generally to members of the public in order to further the interests of the outside employment or activity.

It shall be the responsibility of each employee to be aware of and take the necessary action to eliminate a potential conflict of interest should it arise.

402.04 - NEPOTISM

In some cases, more than one family member may be an employee of the school district. However, the Board of Education has determined that it is in the best interests of the school district to limit the employment of persons who are related by blood or marriage.

The board finds that such limitations are advisable for the following reasons: avoiding conflict or favoritism, or the appearance of conflict or favoritism, by a person for a relative; preventing a person from prejudicing students with whom the person's relative was experiencing difficulty; promoting collegiality among employees; minimizing an "us against them" mentality; and avoiding friction and conflict when marriages or relationships break down.

For the purposes of this policy, the term "relative" is defined as a spouse, child, parent, sibling, grandparent, grandchild, aunt, uncle, first cousin, or corresponding in-law or "step" relation. This policy applies to all categories of employment including regular, temporary, and part-time classifications.

Persons who are related by blood or marriage are permitted to work at the school district provided one does not report directly to, supervise, or manage the other. That is, no employee is permitted to work within the chain of command of a relative such that one's work responsibilities or employment status could be influenced by the other. Further, relatives are not permitted to work in the same department or in any other position in which the administration or board believes that an inherent conflict of interest may exist.

Employees who marry or become related by marriage while employed by the school district will be treated in accordance with these guidelines, and one of the employees will be transferred at the earliest practicable time. The board recognizes that, at times, employees and their "close friends", "domestic partners", or "significant others" may be assigned to positions which create a coworker or supervisor-subordinate relationship.

The administration or board will, in its discretion, exercise sound judgment with respect to the placement of employees in these situations in order to avoid favoritism or the appearance of favoritism, and decrease the likelihood of sexual harassment in the workplace.

402.05 - EMPLOYEE GRIEVANCES

School employees are encouraged to solve difficulties and problems within the school or department in which they are employed. In the event that a difficulty or grievance cannot be settled within the school or department, the employee is encouraged to bring the matter to the attention of the district administrator in charge of certificated personnel. This grievance procedure serves to secure, at the lowest possible administrative or supervisory level, proper and equitable solutions to grievance, and to guarantee orderly succession of procedures within which solutions may be pursued. School personnel are encouraged to ask their immediate supervisor for assistance on any matters that relate to their duties.

It will be incumbent upon all district employees to follow these procedures to settle their grievances. Within this general framework the following specific purposes are to be served by this grievance procedure:

1. To ensure that a complaint is considered fairly, with all due speed and without prejudice or reprisal to the aggrieved person.
2. To encourage teacher expression regarding conditions that affects him or her professionally.
3. To provide a specific procedure that will facilitate the understanding of district policies that affect teachers.
4. To build confidence in the sincerity and integrity of the procedure as a means to establish the facts upon which a grievance is based and a fair conclusion is reached.

Nothing in this policy shall contradict the requirements stated in the Negotiated Contract between employees in that certified collective bargaining unit and the board.

 - c. As an identification number for district meetings.
 - d. In files accessible by any temporary employee unless the temporary employee is bonded or insured under a blanket corporate surety bond or equivalent commercial insurance.

Staff members are required to notify promptly the principal or superintendent if they become aware of a situation that may constitute a violation of this policy.

402.18 - USE OF SCHOOL FACILITIES AND EQUIPMENT BY SCHOOL EMPLOYEES

The superintendent may approve use of school facilities, equipment and other resources by school employees except for those activities which result in personal or corporate gain. Employee personal use of district resources shall not interfere with the operations of the district or any of its educational programs and must not create any significant expense to the district. Employees are allowed to use public resources within the statutory definition of “incidental” or “de minimis” use for purposes such as research or communication that would otherwise be prohibited by state or federal statutes.

In some cases, employee use of district resources may result in the need to report such use as additional compensation in accordance with IRS codes. The superintendent will inform business personnel when he/she is aware of employee use of district resources requiring such reporting.

402.50 - FREEDOM OF SPEECH

Instructional personnel are expected to exercise their constitutionally guaranteed right to freedom of expression. The board recognizes that no freedom is absolute, and that in this case restrictions come from at least three sources:

1. Legal Governing bodies can, within frequently defined limits, restrict freedom of speech, as for example within the "clear and present danger" doctrine of the United States Supreme court. Differences of opinion on acceptable regulation of freedom of speech in this sector may be resolved only by legal action.
2. Societal Communities vary in what they will tolerate in classroom discussion. Limits of such tolerance change with time and place. Differences of opinion between teachers and community feelings may not so much be a better for court adjudication as for tolerance on the part of each contender for the other's position.
3. Professional Teachers and their organizations must themselves decide that effect insisting on exercising freedom of speech, or accepting some degree of regulation thereof, will have on their role as teachers, on their ultimate effectiveness in the education process.

The board requests that any differences of opinion about exercises of abridgment of freedom of speech within or among members of the board, staff, and especially instructional personnel be reviewed by all parties concerned in the light of the above three factors.

403.05 - PUBLIC COMPLAINTS ABOUT EMPLOYEES

The board recognizes situations may arise in the operation of the school district which are of concern to parents and other members of the school district community. While constructive criticism is welcomed, the board desires to support its employees and their actions to free them from unnecessary, spiteful, or negative criticism and complaints that do not offer advice for improvement or change.

While speakers may, during public meetings, offer objective criticism of school operations and programs, the board will not hear personal complaints concerning district personnel nor against any person connected with the school system unless that complaint is an agenda item having followed the process described below. To do so could expose the board to a charge of being party to slander and would prejudice any necessity to act as the final review of administrative recommendations regarding the matter. The board president will direct the patron to the appropriate means for board consideration and disposition of legitimate complaints involving individuals.

The board firmly believes concerns should be resolved at the lowest organizational level by those individuals closest to the concern. Whenever a complaint or concern is brought to the attention of the board it will be referred to the administration to be resolved. Prior to any board consideration however, the following should be completed:

1. Matters concerning an individual student, teacher, or other employee should first be addressed to the teacher or employee.
2. Unsettled matters from (1) above or problems and questions about individual attendance centers should be addressed to the employee's building principal for certificated employees and the superintendent for support staff. At this level, if requested by the administrator, the complainant shall put the complaint in writing.
3. Unsettled matters regarding certificated employees from (2) above or problems and questions concerning the school district should be directed to the superintendent.
4. If a matter cannot be settled satisfactorily by the superintendent, it may then be brought to the board in writing. The board will follow policy 1005.01 in handling public complaints.

The board expects such employees to give the responsibilities of their positions in the school district precedence over any other employment.

It shall be the responsibility of the superintendent to counsel employees, whether full-time or part-time, if, in the judgment of the superintendent and the employee's immediate supervisor, the employee's outside employment interferes with the performance of the employee's duties required in the employee's position within the school district.

- Improper fraternization with students using social media and similar internet sites or networks, or via any electronic devices. Inappropriate contact via electronic communications is prohibited.
- Inappropriateness of posting items with sexual content
- Inappropriateness of posting items exhibiting or advocating use of drugs and alcohol
- Examples of inappropriate behavior from other districts, as behavior to avoid

School district includes school district facilities, school district property, or property within the jurisdiction of the school district; while on school-owned or school-operated transportation; while attending or engaged in school activities; and while away from school grounds if the misconduct directly affects the good order, efficient management and welfare of the district.

Harassment includes, but is not limited to, race (including skin color, hair texture, and protective hairstyles), religion, national or ethnic origin, color, marital status, disability, sex, veteran status, age, pregnancy, childbirth or related medical condition, sexual orientation or gender identity, or other prohibited status. Harassment based on race, religion, national or ethnic origin, color, marital status, disability, sex, veteran status, age, pregnancy, childbirth or related medical condition, or other prohibited status means conduct of a verbal or physical nature that is designed to embarrass, distress, agitate, disturb or trouble individuals when:

- submission to or rejection of such conduct by an individual is used as the basis for decisions affecting the individual; or
- such conduct has the purpose or effect of unreasonably interfering with an individual's performance or
- creating an intimidating, offensive or hostile learning or work environment.

Harassment as set forth above may include, but is not limited to the following:

- verbal, physical, or written harassment or abuse or unwelcome communication implying sexual motives or intentions; or
- repeated remarks of a demeaning nature; or

- suggesting or demanding sexual involvement, accompanied by implied or explicit threats concerning one's job, promotions, recommendations, etc.

Employees, students, volunteers, or visitors who believe they have suffered harassment shall report such matters to the Compliance Coordinator or building principal.

Every report of alleged violations of this policy that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, during an ongoing investigation of this policy, potential issues of sexual harassment or discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged sexual harassment or discrimination as well as the incidents of alleged violations of this policy.

Upon receiving a complaint, the investigator shall confer with the complainant to obtain an understanding and a statement of the facts. It shall be the responsibility of the investigator to investigate claims of harassment promptly and reasonably and to pass the findings on to the superintendent who shall complete such further investigation as deemed necessary and take such final action as appropriate. It is the intention of the district to complete its investigation within ten (10) working days after receiving a complaint unless extenuating circumstances such as unavailability of a witness or needing additional time because of the complexity of the investigation or the need to involve outside experts. The extended timeframe for investigation due to extenuating circumstances shall not exceed ten (10) days without the consent of the complainant unless the alleged victim agrees to a longer time limit. Information regarding an investigation of harassment shall be confidential to the extent possible, and those individuals who are involved in the investigation shall not discuss information regarding the complaint outside the investigation process.

No one shall retaliate against an employee or student because they have filed a harassment complaint, assisted, or participated in a harassment investigation, proceeding, or hearing regarding a harassment charge or because they have opposed language or conduct that violates this policy. This policy should be used when an employee is the alleged harasser or the alleged victim. It is strongly recommended the investigator and alternate investigator be of opposite sexes.

404.06R1 - HARASSMENT INVESTIGATING AND REPORTING

Harassment of employees and students will not be tolerated in the school district.

Harassment is a violation of school district policies, rules and regulations and, in some cases, may also be a violation of criminal or other laws. The school district has the authority to report students violating this rule to law enforcement officials.

Employees whose behavior is alleged to be in violation of this policy will be subject to the investigation procedure which may result in discipline, up to and including, discharge or other appropriate action. Other individuals whose behavior is alleged to be in violation of this policy will be subject to appropriate sanctions as determined and imposed by the superintendent or board.

Individuals who feel that they have been harassed by employees, board members, administrators, parents, vendors or others doing business with the school district should communicate to the harasser that the individual expects the behavior to stop, if the individual is comfortable doing so. If the individual needs assistance communicating with the harasser, he/she should ask a teacher, counselor or principal to help.

Complaint Procedure

An employee or student who believes that they have been harassed shall notify Todd Westover, the designated investigator. The alternate investigator is Mandy Plog. The investigator may request that the employee or student complete the Harassment Complaint form and turn over evidence of the harassment, including, but not limited to, letters, tapes, or pictures. Information received during the investigation shall be kept confidential to the extent possible.

The superintendent, or the investigator with the approval of the superintendent, has the authority to initiate a harassment investigation in the absence of a written complaint.

Investigation Procedure

The investigator shall reasonably and promptly commence the investigation upon receipt of the complaint. The investigator shall interview the complainant and the alleged harasser. The alleged harasser may file a written statement refuting or explaining the behavior outlined in the complaint. The investigator may also interview witnesses as deemed appropriate.

Upon completion of the investigation, the investigator shall report to the superintendent. The investigator will outline the findings of the investigation to the superintendent.

Resolution of the Complaint

The superintendent will complete the next step in the investigation reasonably and promptly upon receipt of the investigator's report. Following the investigator's report, the superintendent may investigate further, if deemed necessary, and make a determination of the appropriate next step which may include discipline, up to and including, discharge.

Prior to the determination of the appropriate remedial action, the superintendent may, at the superintendent's discretion, interview the complainant and the alleged harasser. The superintendent shall file a written report closing the case and documenting any disciplinary or other action taken in response to the complaint. The complainant, the alleged harasser and the investigator shall receive notice as to the conclusion of the investigation.

Points to Remember in the Investigation

Evidence uncovered in the investigation is confidential.

Complaints must be taken seriously and investigated.

No retaliation will be taken against individuals involved in the investigation process.

Retaliators will be disciplined up to and including discharge.

Conflicts

If the investigator is the alleged harasser or a witness to the incident, the alternate investigator shall be the investigator.

If the alleged harasser is the superintendent, the alternate investigator shall take the superintendent's place in the investigation process. The alternate investigator shall report the findings to the board.

404.12 - TITLE IX SEXUAL HARASSMENT

It is the policy of this district to comply with federal law and regulations under Title IX prohibiting sexual harassment, which is a form of unlawful discrimination on the basis of sex. The District does not discriminate on the basis of sex in any education program or activity that it operates, including admission and employment. Inquiries about the application of Title IX to the District may be referred to the District's Title IX Coordinator, to the Regional Office of Civil Rights of the Department of Education, or both.

The Board encourages students, employees and third parties who believe they or others have been subject to Title IX sexual harassment, other discrimination or retaliation to promptly report such incidents to the Title IX Coordinator or building principal, even if some elements of the related incident took place or originated away from school grounds, school activities or school conveyances. A person who is not an intended victim or target of discrimination but is adversely affected by the offensive conduct may file a report of discrimination with the Title IX Coordinator.

The Board designates the following individual to serve as the District's Title IX Coordinator and may or may not have the same person serve as Compliance Coordinator:

Title: Todd Westover

Office address: 911 Niobrara, Hemingford, NE. 69348

Email: twestover@gubn.org

Phone number: 308-487-3328

Other district employees filling key roles for implementing Title IX sexual harassment procedures include investigator(s), decision-maker(s), individuals to handle appeals, and individuals to facilitate an informal resolution process. Specific individuals filling these roles may vary from complaint to complaint as appropriate.

The Director of the Regional Office of Civil Rights can be contacted at the Kansas Office of Civil Rights, U.S. Department of Education, One Petticoat Lane, 1010 Walnut Street, Suite 320, Kansas City, MO 64106, (816) 268-0550, by email to OCR.KansasCity@ed.gov.

The district is committed to providing a nondiscriminatory workplace for employees. It is committed to the maintenance of a safe, positive learning environment for all students by providing student course offerings, counseling, assistance, services, employment, athletics, and extracurricular activities without any form of discrimination, including Title IX sexual harassment. Discrimination is inconsistent with the rights of employees and students and the educational and programmatic goals of the district and is prohibited at or, in the course of, district-sponsored programs or activities, including transportation to or from school or school-sponsored activities.

The student's parents/guardian or any other person with knowledge of conduct that may violate this policy is encouraged to immediately report the matter to the building principal. A school employee who suspects or is notified that a student has been subject to conduct that constitutes

a violation of this policy shall immediately report the incident to the building principal, as well as properly making any mandatory police or child protective services reports required by law.

Violations of this policy, including acts of retaliation as described in this policy, or knowingly providing false information, may result in disciplinary consequences under applicable Board policy and procedures.

Any person may report sex discrimination, including sexual harassment, at any time, including during non-business hours. Such a report may be made in person, by mail, by telephone or by electronic mail, using the contact information listed for the Title IX Coordinator, or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report.

For purposes of this policy and the grievance process, "Title IX sexual harassment" means conduct on the basis of sex that satisfies one or more of the following:

1. A District employee conditioning the provision of an aid, benefit, or service of the District on an individual's participation in unwelcome sexual conduct;
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the District's education program or activity; or
3. "Sexual assault" as defined in 20 USC 1092(f)(6)(A)(v), "dating violence" as defined in 34 USC 12291(a)(10), "domestic violence" as defined in 34 USC 12291(a)(8) or "stalking" as defined in 34 USC 12291(a)(30). These definitions are included in the procedures to this policy.

Such conduct must have taken place during a district education program or activity and against a person in the United States to qualify as sexual harassment under Title IX. An education program or activity includes the locations, events, or circumstances over which the district exercises substantial control over both the respondent and the context in which the harassment occurs. Title IX applies to all of a district's education programs or activities, whether such programs or activities occur on-campus or off-campus.

When the alleged harassment or discrimination does not meet the Title IX definition of sexual harassment, the Title IX Coordinator directs the individual to the applicable process for investigation.

Retaliation Prohibited

The District prohibits intimidation, threats, coercion or discrimination against any individual for the purpose of interfering with any right or privilege secured by Title IX or this policy, or because the individual has made a report or complaint, testified, assisted, or participated or refused to participate in any manner in an investigation proceeding or hearing, or acted in opposition to practices the person reasonably believes to be discriminatory, if applicable. Intimidation, threats, coercion, or discrimination, including charges against an individual for code of conduct violations that do not involve sex discrimination or sexual harassment, but arise out of the same facts or circumstances as a report or complaint of sex discrimination, or a report or formal complaint of sexual harassment, for the purpose of interfering with any right or privilege secured by Title IX or this part, constitutes retaliation.

Confidentiality

The District must keep confidential the identity of any individual who has made a report or complaint of sex discrimination, including any individual who has made a report or filed a formal complaint of sexual harassment, any individual who has been alleged to be the victim or perpetrator of conduct that could constitute sexual harassment, and any witness, except as may be permitted by Family Educational Rights and Privacy Act (FERPA) or as required by law, or to carry out the purposes of the Title IX regulations, including the conduct of any investigation, hearing or judicial proceeding arising under the regulations.

Notice Requirements

The District provides notice to applicants for admission and employment, students, parents or legal guardians of elementary and secondary school students, employees and the union(s) holding collective bargaining agreements with the district with the name or title, office address, email address and telephone number of the Title IX Coordinator and notice of the District grievance procedures and process, including how to report or file a complaint of sex discrimination, how to file a formal complaint of sexual harassment and how the District will respond. The District also posts the Title IX Coordinator's contact information and Title IX policies and procedures in a prominent location on the District website and in all handbooks made available by the District.

Training Requirements

The District ensures that Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process, receives training on the definition of sexual harassment, the scope of the District's education program or activity, how to conduct an investigation and grievance process including examination of evidence, handling hearings, appeals and informal resolution processes, when applicable, how to address complaints that do not qualify as Title IX sexual harassment, and how to serve impartially including by avoiding prejudgment of the facts at issue, conflicts of interest and bias. The District also ensures that decision-makers and investigators receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition

or prior sexual behavior are not relevant as set forth in the formal procedures that follow, and training on any technology to be used at a live hearing, if applicable. Investigators also receive training on issues of relevance to create an investigative report that fairly summarizes relevant evidence. All materials used to train individuals who receive training under this section must not rely on sex stereotypes and must promote impartial investigations and judgments of formal complaints of sexual harassment and are made publicly available on the District's website.

Conflict of Interest and Bias

The District ensures that Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process do not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent.

Determination of Responsibility

The individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment is presumed not responsible for alleged conduct. A determination regarding responsibility will be made by the decision-maker at the conclusion of the investigation in accordance with the process outlined in the accompanying regulation. No disciplinary sanctions will be imposed unless and until a final determination of responsibility is reached.

Other Title IX Coordinator Duties

The Title IX Coordinator, along with the Compliance Coordinator, shall fulfill designated responsibilities to ensure adequate nondiscrimination procedures are in place, to recommend new procedures or modifications to procedures and to monitor the implementation of the district's nondiscrimination procedures in the following areas, as appropriate:

non-renewal of contracts, and proposed employee disciplinary actions up to and including termination.

- Sexual assault, dating violence, domestic violence or stalking.

Dating violence means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim and where the existence of such a relationship is determined by the following factors:

For example, if disciplinary action would be warranted if allegations are true, if the respondent is an employee, or if further investigation is needed to assess the extent of the behavior and impact on others, it may be clearly

unreasonable not to initiate the formal complaint process. The Title IX Coordinator may consult with the school solicitor and other district officials in making this decision.

As Title IX Coordinator, I have determined that, notwithstanding the complainant's preference, it is necessary to proceed with the Title IX Sexual Harassment Formal Complaint for the following reasons:

Therefore, I am signing this form for the purpose of serving as the formal complaint initiating that process:

404.12R1 - TITLE IX SEXUAL HARASSMENT PROCEDURES

The Board requires the following procedures to be followed for the prompt and equitable resolution of student and employee complaints alleging any action that would be prohibited as sexual harassment by Title IX. The Board directs the process to be published in accordance with all statutory and regulatory requirements.

Definitions

The following definitions apply for Title IX policies and procedures:

“Actual knowledge:” notice of sexual harassment or allegations of sexual harassment to the District’s Title IX Coordinator or any official of the District who has authority to institute corrective measures on behalf of the District, or to any employee of an elementary or secondary school.

“Education program or activity:” includes locations, events or circumstances over which the District exercised substantial control over both the individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment, and the context in which the sexual harassment occurs.

“Complainant:” an individual who is alleged to be the victim of conduct that could constitute sexual harassment.

“Respondent:” an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

“Formal complaint:” a document filed by a Complainant or signed by the Title IX Coordinator alleging sexual harassment against a Respondent and requesting that the District investigate the allegation of sexual harassment.

“Supportive measures:” non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available and without fee or charge to the Complainant or Respondent before or after the filing of a formal complaint or where no formal complaint has been filed.

For purposes of this policy and the grievance process, “Title IX sexual harassment” means conduct on the basis of sex that satisfies one or more of the following:

1. A District employee conditioning the provision of an aid, benefit, or service of the District on an individual’s participation in unwelcome sexual conduct;
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the District’s education program or activity; or

3. "Sexual assault" as defined in 20 USC 1092(f)(6)(A)(v), "dating violence" as defined in 34 USC 12291(a)(10), "domestic violence" as defined in 34 USC 12291(a)(8) or "stalking" as defined in 34 USC 12291(a)(30). These definitions are included in the procedures to this policy.
 - a. "Dating violence" means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim and where the existence of such a relationship is determined by the following factors:
 - i. Length of relationship.
 - ii. Type of relationship.
 - iii. Frequency of interaction between the persons involved in the relationship.
 - b. "Domestic violence" includes felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving federal funding, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction.
 - c. "Sexual assault" means a sexual offense under state or federal law that is classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.
 - d. "Stalking," under Title IX means stalking on the basis of sex, for example when the stalker desires to date a victim. Stalking means to engage in a course of conduct directed at a specific person that would cause a reasonable person to either:
 - i. Fear for their safety or the safety of others.
 - ii. Suffer substantial emotional distress.

District Requirements

When the District has actual knowledge of sexual harassment in an education program or activity of the District, the District will respond promptly in a manner that is not deliberately indifferent. When the harassment or discrimination on the basis of sex does not meet the definition of sexual harassment, the Title IX Coordinator will direct the individual to the applicable sex discrimination process for investigation.

The District treats individuals who are alleged to be the victim (Complainant) and perpetrator (Respondent) of conduct that could constitute sexual harassment equitably by offering supportive measures. Supportive measures are designed to restore or preserve equal access to the District's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the District's educational environment, or deter sexual harassment. Supportive measures may include counseling or employee assistance program, extensions of deadlines or other course-related adjustments,

modifications of work or class schedules, mutual restrictions on contact between the parties, leaves of absence, increased security and monitoring of certain areas of the District's property, campus escort services, assistance from domestic violence or rape crisis programs, assistance from community health resources, changes in work locations and other similar measures.

For students, supportive measures may also include assessments or evaluations to determine eligibility for special education or related services, or the need to review an Individualized Education Program (IEP) or Section 504 Service Agreement based on a student's behavior. This could include, but is not limited to, a manifestation determination or functional behavioral assessment (FBA), in accordance with applicable law, regulations or Board policy.

The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures. Upon the receipt of a complaint, the Title IX Coordinator must promptly contact the Complainant to discuss the availability of supportive measures, consider the Complainant's wishes with respect to supportive measures, inform the Complainant of the availability of supportive measures with or without the filing of a formal complaint, and explain to the Complainant the process for filing a formal complaint. If the District does not provide the Complainant with supportive measures, then the District must document the reasons why such a response was not clearly unreasonable in light of the known circumstances.

Timelines

The District has established reasonably prompt time frames for the conclusion of the grievance process, including time frames for filing and resolving appeals and informal resolution processes. The grievance process may be temporarily delayed or extended for good cause. Good cause may include considerations such as the absence of a party, a party's advisor, or a witness; concurrent law enforcement activity; or the need for language assistance or accommodation of disabilities. In the event the grievance process is temporarily delayed for good cause, the District will provide written notice to the Complainant and the Respondent of the delay or extension and the reasons for the action.

Response to a Formal Complaint

At the time of filing a formal complaint, a Complainant must be participating in or attempting to participate in the education program or activity of the District with which the formal complaint is filed. A formal complaint may be filed with the Title IX Coordinator in person, by mail, by electronic mail, or other means designated by the District. The District must follow the formal complaint process before the imposition of any disciplinary sanctions or other actions that are not supportive measures.

Upon receipt of a formal complaint, the District must provide written notice to the known parties including:

1. Notice of the allegations of sexual harassment, including information about the identities of the parties involved in the incident, the conduct allegedly constituting sexual harassment, the date and location of the alleged incident, and any sufficient details known at the time. Such notice must be provided with sufficient time to prepare a response before any initial interview;
2. An explanation of the District's investigation procedures, including any informal resolution process;
3. A statement that the Respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made by the decision-maker at the conclusion of the investigation;
4. Notice to the parties that they may have an advisor of their choice who may be, but is not required to be, an attorney, and may inspect and review any evidence and
5. Notice to the parties of any provision in the District's code of conduct or policy that prohibits knowingly making false statements or knowingly submitting false information.

If, in the course of an investigation, the District decides to investigate allegations about the Complainant or Respondent that are not included in the notice initially provided, notice of the additional allegations must be provided to known parties.

The District may consolidate formal complaints as to allegations of sexual harassment against more than one Respondent, or by more than one Complainant against one or more Respondents, or by one party against the other party, where the allegations of sexual harassment arise out of the same facts or circumstances.

Emergency Response Measures

Nothing in this policy precludes the District from removing a Respondent from the District's education program or activity on an emergency basis, provided that the District undertakes an individualized safety and risk analysis, determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal, and provides the Respondent with notice and an opportunity to challenge the decision immediately following the removal. Nor does it preclude the District from placing a non-student employee Respondent on administrative leave while awaiting the determination of the complaint procedures. This provision may not be construed to modify any rights under the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act of 1973, or the Americans with Disabilities Act.

Investigation of a Formal Complaint

When investigating a formal complaint and throughout the grievance process, the District must:

1. Ensure that the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the District and not the parties;
2. Provide an equal opportunity for the parties to present witnesses and evidence;
3. Not restrict either party's ability to discuss the allegations under investigation or to gather and present relevant evidence;
4. Allow the parties to be accompanied with an advisor of the party's choice who may be, but is not required to be, an attorney. The District may establish restrictions regarding the extent to which the advisor may participate in the proceedings, as long as the restrictions apply equally to both parties;
5. Provide written notice of the date, time, location, participants, and purpose of any interview or meeting at which a party is expected to participate, with sufficient time for the party to prepare to participate;
6. Provide the parties equal access to review all the evidence collected which is directly related to the allegations raised in a formal complaint and comply with the review periods outlined in this process;
7. Objectively evaluate all relevant evidence without relying on sex stereotypes;
8. Ensure that Title IX Coordinators, investigators, decision-makers and individuals who facilitate an informal resolution process, do not have a conflict of interest or bias for or against Complainants or Respondents generally or an individual Complainant or Respondent;
9. Not make credibility determinations based on the individual's status as Complainant, Respondent or witness;
10. Not use questions or evidence that constitute or seek disclosure of privileged information unless waived.

Dismissal of Formal Complaints

If the conduct alleged in the formal complaint would not constitute sexual harassment even if proved, did not occur in the District's education program or activity, or did not occur against a person in the United States, then the District must dismiss the formal complaint with regard to that conduct for purposes of sexual harassment under this policy.

The Title IX Coordinator also may dismiss the formal complaint or any allegations therein at any time during the investigation or hearing, if applicable, when any of the following apply:

1. A Complainant provides written notification to the Title IX Coordinator that the Complainant would like to withdraw the formal complaint or any allegations therein;
2. The Respondent is no longer enrolled or employed by the District; or
3. Specific circumstances prevent the District from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.

Upon dismissal, the Title IX Coordinator promptly sends written notice of the dismissal and the reasons for dismissal simultaneously to both parties.

Evidence Review

The District provides both parties an equal opportunity to inspect and review any evidence obtained as part of the investigation so that each party can meaningfully respond to the evidence prior to the conclusion of the investigation. The evidence provided by the District must include evidence that is directly related to the allegations in the formal complaint, evidence upon which the District does not intend to rely in reaching a determination regarding responsibility, and any inculpatory or exculpatory evidence whether obtained from a party or other source. Prior to completion of the investigative report, the Title IX Coordinator must send to each party and the party's advisor, if any, the evidence subject to inspection and review in an electronic format or a hard copy. The parties have 10 calendar days to submit a written response to the Title IX Coordinator, which the investigator will consider prior to completion of the investigative report.

Investigative Report

The investigator must prepare an investigative report that fairly summarizes relevant evidence and send the report to the Title IX Coordinator. The Title IX Coordinator must send to each party and the party's advisor, if any, the investigative report in an electronic format or a hard copy, for their review and written response. The parties have 10 calendar days to submit a written response to the Title IX Coordinator.

Decision-Maker's Determination

The investigative report is submitted to the decision-maker. The decision-maker cannot be the same person(s) as the Title IX Coordinator or the investigator. The decision-maker cannot hold a hearing or make a determination regarding responsibility until 10 calendar days from the date the Complainant and Respondent receive the investigator's report.

Prior to reaching a determination regarding responsibility, the decision-maker must afford each party the opportunity to submit written, relevant questions that a party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party. Questions and evidence about the Complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the Complainant's prior sexual behavior are offered to prove that someone other than the Respondent committed the conduct alleged by the Complainant, or if the questions and evidence concern specific incidents of the Complainant's prior sexual behavior with respect to the Respondent and are offered to prove consent. Questions must be submitted to the Title IX Coordinator within three calendar days from the date the Complainant and Respondent receive the investigator's report.

The decision-maker must issue a written determination regarding responsibility based on a preponderance of the evidence standard. The decision-maker's written determination must:

1. Identify the allegations potentially constituting sexual harassment;
2. Describe the procedural steps taken, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather evidence, and hearings held;
3. Include the findings of fact supporting the determination;
4. Draw conclusions regarding the application of any District policies and/or code of conduct rules to the facts;
5. Address each allegation and a resolution of the complaint including a determination regarding responsibility, the rationale therefor, any recommended disciplinary sanction(s) imposed on the Respondent, and whether remedies designed to restore or preserve access to the educational program or activity will be provided by the District to the Complainant and
6. The procedures and permissible bases for the Complainant and/or Respondent to appeal the determination.

A copy of the written determination must be provided to both parties simultaneously, and generally will be provided within 60 calendar days from the District's receipt of a formal complaint.

The determination regarding responsibility becomes final either on the date that the District provides the parties with the written determination of the result of the appeal, if an appeal is filed, or if an appeal is not filed, the date on which an appeal would no longer be considered timely.

Where a determination of responsibility for sexual harassment has been made against the Respondent, the District will provide remedies to the Complainant that are designed to restore or preserve equal access to the District's education program or activity. Such remedies may include supportive measures; however, remedies need not be non-disciplinary or non-punitive and need not avoid burdening the Respondent. The Title IX Coordinator is responsible for effective implementation of any remedies. Following any determination of responsibility, the District may implement disciplinary sanctions in accordance with State or Federal law and or/the negotiated agreement.

A student who is determined to be responsible for violation of this policy shall be subject to appropriate disciplinary action consistent with school policies and regulations, which may include but is not limited to loss of school privileges, permanent transfer to another school building, classroom or school bus, exclusion from school-sponsored activities, detention, suspension, expulsion, or referral to law enforcement officials.

An employee who violates this policy shall be subject to appropriate disciplinary action consistent with the applicable Board policy, collective bargaining agreement and individual contract, up to and including dismissal and/or referral to law enforcement officials.

Appeals

Either the Complainant or Respondent may appeal the decision-maker's determination regarding responsibility or a dismissal of a formal complaint, on the following bases:

1. Procedural irregularity that affected the outcome of the matter;
2. New evidence that was not reasonably available at the time that could affect the outcome; and
3. The Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias for or against Complainants or Respondents generally or an individual Complainant or Respondent that affected the outcome.

The request to appeal must be made in writing to the Title IX Coordinator within seven calendar days after the date of the written determination. The appeal decision-maker must not have a conflict of interest or bias for or against Complainants or Respondents generally or an individual Complainant or Respondent and cannot be the Title IX Coordinator, the investigator, or the decision-maker from the original determination.

The appeal decision-maker must notify the other party in writing when an appeal is filed and give both parties a reasonable equal opportunity to submit a written statement in support of, or challenging, the outcome. After reviewing the evidence, the appeal decision-maker must issue a written decision describing the result of the appeal and the rationale for the result. The

decision must be provided to both parties simultaneously, and generally will be provided within 10 calendar days from the date the appeal is filed.

Informal resolution process

Except when concerning allegations that an employee sexually harassed a student, at any time during the formal complaint process and prior to reaching a determination regarding responsibility, the District may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility, provided that the District:

1. Provides to the parties a written notice disclosing:
 - a. The allegations;
 - b. The requirements of the informal resolution process including the circumstances under which it precludes the parties from resuming a formal complaint arising from the same allegations, provided, however, that at any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process and resume the Title IX formal complaint process with respect to the formal complaint and
 - c. Any consequences resulting from participating in the informal resolution process, including the records that will be maintained or could be shared.
2. Obtains the parties' voluntary, written consent to the informal resolution process.

The informal resolution process generally will be completed within 30 calendar days unless the parties and the Title IX Coordinator mutually agree to temporarily delay or extend the process. The formal grievance process timelines are stayed during the parties' participation in the informal resolution process. If the parties do not reach resolution through the informal resolution process, the parties will resume the formal complaint grievance process, including timelines for resolution, at the point they left off.

Recordkeeping

The District must maintain for a period of seven years records of:

1. Each sexual harassment investigation, including any determination regarding responsibility, any disciplinary sanctions imposed on the Respondent, and any remedies provided to the Complainant designed to restore or preserve equal access to the District's education program or activity;
2. Any appeal and its result;

3. Any informal resolution and its result; and
4. All materials used to train Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process. The District must make these training materials publicly available on its website.

The District must create, and maintain for a period of seven years, records of any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment. In each instance, the District must document the basis for its conclusion that its response was not deliberately indifferent, and document that it has taken measures designed to restore or preserve equal access to the District's education program or activity.

404.13 - SCHOOL CLOSURE UNDER EXTRAORDINARY CIRCUMSTANCES

In extreme or extraordinary circumstances the district may close one or more buildings to protect the health, safety and welfare of staff and students. In a case of epidemic sickness or other circumstances forcing prolonged closure the district may utilize agreements, procedures, government directives or other measures to pay staff for such time as the school or schools shall be closed to ensure staff continuity.

405.00 - EMPLOYEE CONDUCT AND APPEARANCE

Employees are role models for the students who come in contact with them during and after school hours. The board recognizes the positive effect employees can have on students in this capacity. To this end, the board strongly suggests and encourages employees to dress themselves, groom themselves and conduct themselves in a manner appropriate to the educational environment.

Employees shall conduct themselves in a professional manner. Employees shall dress in attire appropriate for their position. Clothing should be neat, clean, and in good taste. Discretion and common sense call for an avoidance of extremes which would interfere with or have an effect on the educational process.

Certificated employees of the school district shall follow the code of ethics for their profession as established by the Nebraska Professional Practices Commission.

Every report of alleged violations of employee conduct policies that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing employee conduct investigation, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged violations of employee conduct policies.

Job applicants for certificated positions shall be considered on the basis of the following:

- Training, experience, and skill;
- Nature of the occupation;
- Demonstrated competence; and
- Possession of, or ability to obtain, state certificate or license if required for the position.

Announcement of the position shall be in a manner which the superintendent believes will inform potential applicants about the position. Applications for employment may be obtained from and completed applications shall be returned to the school district administrative office. Whenever possible, the preliminary screening of applicants shall be conducted by the administrator who will be directly supervising and overseeing the person being hired.

In the initial employment process, including on the initial application, the applicant shall not be asked to disclose, orally or in writing, information concerning the applicant's criminal record or history, until it has been determined that the applicant meets the minimum employment qualifications. This does not prohibit the requirement to disclose an applicant's criminal record or history relating to sexual or physical abuse. Following a determination that the applicant meets minimum employment qualifications, a criminal history information check and questions regarding the applicant's criminal record or history are allowed.

The board shall take action regarding employment of certificated applicants only after receiving a recommendation from the superintendent. Should the Board reject a person nominated by the Superintendent, it shall be the duty of the Superintendent to make another nomination. However, the superintendent shall have the authority to employ a certificated employee on a temporary basis until a recommendation can be made and action can be taken by the board on the position.

The first three years of a continuing contract issued to a newly employed certificated employee shall be considered a probationary period. In the event of termination of the employee's contract during this period, the board shall follow applicable state statutes. The action of the board will be final.

406.05R1 - CERTIFICATED EMPLOYEE DUTIES

Teachers must consider teaching school their primary job, to which their allegiance and energy are due. Regardless of social or business commitments, teaching should come first. The success of any organization depends on the cooperation of its members. The continued growth and progress of the school system depends on the wholehearted zeal of the staff, both teaching and non-teaching members, in working together. The duties and functions of a classroom teacher are those of a normal teaching situation and are determined to a great extent by the building principal and the existing educational philosophy of the system.

The teacher is expected to develop and maintain a professional attitude toward his or her role as an educator. The teacher must constantly endeavor to improve professional competency through a thorough knowledge of his or her subject and a mastery of the most effective methods of presenting it. It is the responsibility of the teacher to keep informed of the many new concepts of education and interpret these concepts in the instruction of the people in the teacher's area.

The teacher is encouraged to become an integral part of the community, enjoying and sharing the duties and privileges of citizenship, yet both private and public life must be tempered by such discretion and judgment as to, at all times, maintain respect for the teaching profession. Teaching is basic to all professions, to the development of new concepts and the modification of old concepts; to the hopes and aspirations of all people. Without teachers and teaching, all commercial, professional, and social institutions would rapidly deteriorate. The teacher should be proud to be a member of a profession which plays such an important role in democracy, and the district pledges to upgrade the teaching profession through its policies.

Teachers will be responsible to the principal for the carrying out of policies of the school board as they relate to the function of the school, to the classroom, and to the immediate contact with students and parents. Teachers will be expected to furnish such after-school time as is needed for assisting students, conferring with parents and doing other necessary out-of-school work.

Teacher specific responsibilities shall be:

1. To direct and evaluate the learning experiences of students in both curricular and extracurricular activities.
2. To provide guidance to students which will promote their proper educational development and welfare.
3. To be responsible for student accounting.
4. To provide for the care and protection of school property.
5. To supervise students on the school ground and during the lunch period.
6. To cooperate with and participate in the planning and the evaluation of the school program.
7. To participate in the business and activities of the faculty.
8. To take part in the in-service education program of the schools.
9. To maintain cordial relationships with colleagues.
10. To follow the ethics of the profession.

11. To support actively the parent-teacher organization.
12. To enforce policies and regulations as established by the board and professional staff.
13. To accept a fair share of supervisory duties at pupil activities in buildings and on grounds during school hours as well as at athletic events.

Extracurricular assignments.

Assignments will be made to teachers for various forms of hall, extracurricular, recess, traffic, lunch period and other noontime duties, and athletic events. Recommending educational materials. No teacher in any public school shall act as agent for any author, publisher, book seller or other person to introduce any book, apparatus, furniture or other article or whatever in the schools.

Accident procedure.

If an employee is involved in an accident while in the line of duty, it is necessary to file an accident report within twenty-four hours.

Capacity as advisers.

Principals and teachers are not to serve as advisers to parents of/and children not in their class or school. Neither are they to issue any teaching materials, tests, etc., to such parents or children. It is proper procedure to ask these people to consult their respective teachers and principals concerning their problems.

Recommending dentists, physicians or business houses.

Teachers are not to make recommendations to parents in regard to particular dentists, physicians, or business houses.

Supervision of children.

No group of children, either in the classroom or on the playground, should be left unattended by the teacher. Teachers, at all times, are responsible for the conduct and safety of children, and will see that the children observe safety rules. In the occasion of extreme emergency, the teacher should make every effort to provide adequate supervision during his or her absence.

Student Discipline.

Pupil control is to be achieved through firmness and reason rather than autocratic force. Daily realization of the fact that students are entitled to full consideration as human beings will go far in the solution of the problem of control. There are few children who will not respond favorably to fair and honest treatment.

A teacher is delegated with certain powers and authority by law and by the School District Board to hold school children accountable for their conduct during, before and after school and may suspend pupils from his/her class, pending a final decision from the principal and/or superintendent and the Board of Education.

405.06 - CERTIFICATED EMPLOYEE ASSIGNMENT

Instructional personnel will normally be assigned initially by the superintendent or his/her delegate to positions for which their preparation, certification, experience, and aptitude fit them.

Additions to Normal Teaching Schedule and Duties Additional duties may be assigned to certified staff members as deemed to be in the best interest of the school district by the Superintendent of Schools. These assignments may be in addition to the staff member's normal schedule and duties during the regular school year and may include such programs as adult education, driver education, summer school, and extra duty or co-curricular assignments.

Any requirements stated in the Negotiated Contract between employees in that certified collective bargaining unit and the board regarding assignment of such employees shall be followed.

Determining the location where an employee's assignment will be carried out is the responsibility and within the sole discretion of the board and such authority is hereby delegated to the superintendent. In making such assignments the board shall consider the qualifications of each certificated employee and the needs of the school district.

A transfer may be initiated by the employee, the principal, or the superintendent. The preferences of teachers and other staff members will be considered in making assignments and transfers; however, the best interests of students and the district will be given first consideration. Transfers where practical will be made on a voluntary basis.

When an involuntary transfer or reassignment is necessary, the teacher so affected may request and will be granted a conference with the superintendent.

Teachers may apply for voluntary reassignment and/or transfer. Such requests will be made in writing to the superintendent, stating the grade and/or subject desired and the school or schools to which transfer is requested. Such requests will be considered when scheduling is made but this consideration is not intended to limit the flexibility of the administration.

406.08 - CERTIFICATED EMPLOYEE EVALUATION

Evaluation of certificated employees on their skills, abilities, and competence shall be an ongoing process supervised by the building principals and conducted by approved evaluators. The goal of the formal evaluation of certificated employees, other than administrators, but including extracurricular employees, shall be to improve the education program, to maintain certificated employees who meet or exceed the board's standards of performance, to clarify the certificated employee's role, to ascertain the areas in need of improvement, to clarify the immediate priorities of the board, and to develop a working relationship between the administrators and other employees.

The formal evaluation criteria shall be in writing. The formal evaluation shall provide an opportunity for the evaluator and the certificated employee to discuss the past semester's performance and the future areas of growth. The formal evaluation shall be completed by the evaluator, signed by the certificated employee and filed in the certificated employee's personnel file. This policy supports, and does not preclude, the ongoing informal evaluation of the certificated employee's skills, abilities and competence.

The Superintendent will create an administrative regulation describing the procedure to be used for evaluations and including the evaluation instrument. At a minimum this will provide for evaluation of instructional performance, classroom organization and management, professional conduct, and personal conduct. It will provide for a written description of all noted deficiencies, specific means for the correction of the noted deficiencies and an adequate timeline for implementing the concrete suggestions for improvement. The teacher will be allowed to offer a written response. The regulation will also specify what training will be provided by the district for evaluators.

Annual written communication of the evaluation procedures will be provided to those being evaluated by including the procedures in the certificated staff handbook.

It shall be the responsibility of the principal to ensure certificated employees are evaluated formally once every three years. The evaluation shall include at least one classroom observation for one period.

New and probationary certificated employees shall be evaluated at least once each semester in their first three years. This evaluation procedure will include at least one classroom observation for one period each semester.

The requirements stated in the Negotiated Contract between employees in the certified collective bargaining unit and the board regarding evaluation of such employees shall be followed.

Purpose and Scope

The purpose of this regulation is to outline the procedures for the evaluation of certificated employees, ensuring consistency, fairness, and a focus on continuous improvement. This regulation supports the district's commitment to high standards of classroom organization and management, instructional performance, professional conduct, and personal conduct among its staff.

Goals and Annual Plan for Growth

All teachers, educational specialists, principals, and administrators are required to develop goals and a plan for growth annually. Ideally, this process will involve reflecting on student performance data, aligning practice with the Nebraska Teacher and Principal Performance Standards and Self-Reflection Rubrics, or other areas of opportunities for personal and professional growth. The sole intent of this part of this process is to improve individual effectiveness.

Formal Evaluation

Written Criteria: The formal evaluation forms shall be documented in writing and made available to all certificated employees.

Observation: Each formal evaluation process shall include an observation of the teacher for a full instructional period.

Evaluation Discussion: The formal evaluation process shall include observation of the teacher for a full instructional period (at least 40 minutes), a meeting between the evaluator and the certificated employee to discuss the educator's performance and future areas of growth.

Documentation: The formal evaluation shall be completed by the evaluator, signed by the certificated employee, and transmitted to the superintendent to be filed in the certificated employee's personnel file. The documentation shall specify all noted deficiencies, include specific means for the correction of the noted deficiency, and provide an adequate timeline for implementing the concrete suggestions for improvement.

Teacher Response: The teacher shall be allowed to offer a written response to the evaluation within 7 days of the evaluation discussion.

Frequency of Evaluation: New and probationary certificated employees shall be evaluated at least once each semester in their first three years. This evaluation procedure will include at least one classroom observation for one full instructional period each semester. Non-probationary certificated employees will be evaluated formally at least once every three

years. The evaluation shall include at least one classroom observation for one full instructional period. Principals will annually establish and publish to the teachers a list of observations/evaluations to be completed each year.

Evaluation Components

The evaluation process will assess, at a minimum, the following areas:

- Instructional Performance
- Classroom Organization and Management
- Professional Conduct and Personal Conduct

Nebraska Teacher and Principal Performance Standards and Rubrics

The evaluation forms will utilize the Nebraska Teacher and Principal Performance Standards and Rubrics as a framework. The Nebraska Teacher and Principal Performance Standards and Rubrics provide the basis of an instructional framework for our school which includes focusing on evidence-based instructional strategies to enhance teaching and learning.

Evaluators will be trained to use these standards and rubrics to ensure evaluations are consistent, objective, and supportive of professional growth. Evaluators will be trained annually by the Superintendent or his/her designee.

Proficiency Identification:

Proficiency determinations in each standard shall be rated by the evaluator at one of the following levels: Highly Effective, Effective, Developing, and Ineffective.

- Ratings of Highly Effective shall be considered exemplary.
- Ratings of “Effective” shall be considered to meet the district standard of proficiency for educators.
- Ratings of “Developing” shall be considered to be working toward the district standard of proficiency for educators.
- Ratings of “Ineffective” shall be considered to be below the district standard of proficiency for educators.

Improvement and Deficiency Identification and Correction

Ratings of “Ineffective” are considered to be below the district’s standard of proficiency and will require recommendations for correction of deficiencies and plans for correction of those deficiencies.

- A Plan of Assistance is required for Teachers/Educational Specialists who receive a rating of “Ineffective” on any of the Standards covered by the evaluation.

An adequate timeline for implementing the concrete suggestions for improvement shall be established within each Plan for Improvement or Plan of Assistance.

Ratings of “Developing” are considered to be working toward the district standard of proficiency and may require additional goals and plans for growth in addition to the annual goals.

Classroom Walkthroughs and Differentiated Supervision

Classroom Walkthroughs: The use of classroom walkthroughs is authorized as part of the evaluation process to gather data on instructional performance and classroom management. The nature and focus of walkthroughs will necessarily change from time to time based on changing district and building initiatives, the expertise of teachers, and

Differentiated Supervision: Supervision may be differentiated based on the expertise and experience of the teachers, allowing for more targeted and effective evaluation and support.

Ongoing Informal Evaluation: This regulation supports and does not preclude the ongoing informal evaluation of the certificated employee’s skills, abilities, and competence.

406.50 - CERTIFICATED EMPLOYEE ACADEMIC FREEDOM

The teacher must be free to think and to express ideas, free to select and employ materials and methods of instruction, and free to act within his/her professional group. Such freedom should be used judiciously and prudently to the end that it promotes the free exercise of intelligence and pupil learning.

Academic freedom is not an absolute. It must be exercised within the basic ethical responsibilities of the teaching profession and the philosophy and goals of the school system. Those responsibilities include:

- A commitment to democratic tradition and its methods
- A concern for the welfare, growth, and development of children
- The method of scholarship
- Application of good taste and judgment in selecting and employing materials and methods of instruction
- Recognition of the limits of tolerance of the community.

406.51 - CERTIFICATED EMPLOYEE WORK YEAR

Teacher contracts shall be for 179 teaching days and six work or professional development days for a total contract of 185 days. If because of severe weather school is closed and teachers are excused for the day, the Board of Education gives to the administration the authority to reschedule days in the school calendar where possible to make up the lost days. Because of the nature of their assignment, some teaching positions will be given extended contract days. Examples of this includes but are not limited to, vocational agriculture, guidance and counseling, media specialists, band teachers, and family consumer science programs.

406.52 - CERTIFICATED EMPLOYEE PLANS AND PLAN BOOKS

All teachers will be provided with plan books. The purpose of these plan books is, first, to provide the teacher with a convenient systematic way of organizing and planning the classroom work for at least one week in advance; and, second, to provide an adequate guide for the substitute who may be called in to take over the class. These plan books, with plans prepared for the following week, may be requested for review at any time by the principal or superintendent. Principals are expected to check plan books from time to time.

Plans are to be general statements of what is planned to be done. Well-planned work which keeps pupils busy with profitable tasks during every minute of the day is the best discipline practice any teacher can have.

Condition of classrooms. Teachers are responsible for the condition of the classroom and the equipment at all times. Prior to the close of each period, and before the close of school at the end of the day, teachers will hold students responsible for leaving the room clear of the clutter of paper, textbooks, and other items of classroom use. If a classroom is used by more than one teacher, this becomes the responsibility of all teachers using the room. On leaving the room for the day, teachers will turn out all lights, close and lock all windows, and close all doors.

Bulletin boards. Teachers are urged to keep bulletin boards as attractive as possible and change them frequently. Having the students responsible for their own bulletin boards can be a worthwhile project in itself.

Cooperation with custodians and housekeepers. The work of the custodians and housekeepers in protecting the health of everyone in school makes their job one of utmost importance. Cooperation of all staff members with the custodial staff in keeping the school environment clean and safe will be appreciated. If you have suggestions to make about the way your room or area is being cleaned, please refer them to the principal.

On occasion it may be in the best interest of the school district to employ two instructors to share a single position. In such instances the plan for share positions will be developed by the building principals and submitted to the superintendent for approval.

The superintendent will submit the employment request to the Board of Education for approval.

In determining compensation for two or more teachers sharing a single position, an individual rate of pay will be determined by the percentage of full-time position calculated on the number of hours of assignment compared to the six -hour day. In no case shall the total sum of the part-time assignments for a shared position equal more than 1.0 full-time equivalent position.

Boards may enter into collective bargaining agreements for periods not to exceed four years.

2. The governing board shall respond to such request not later than October 1.
3. On or before November 1 negotiations shall begin.
4. On or before February 8 if an agreement is not reached, the parties shall submit to mandatory mediation or factfinding as ordered by the commission unless the parties mutually agree in writing to forgo mandatory mediation or factfinding.
5. On or before March 25 or within twenty-five days after the certification of the amounts to be distributed to each local system and each school district, whichever occurs last in time, negotiations, mediation, and factfinding shall end.
6. If an agreement has not been achieved on or before the date in item 5 above, either party may, within fourteen days after such date, file a petition with the commission to resolve the dispute.
7. The commission shall render a decision on or before September 15.

There shall be no fewer than four negotiations meetings between the certificated and instructional employees' collective bargaining agent and the governing board's bargaining agent prior to mediation, unless the parties agree to a new negotiated agreement. Either party may seek a bargaining order as provided in statute at any stage in the negotiations.

In seeking a bargaining order, the commission shall provide the parties with the names of five individuals qualified to serve as the resolution officer. If the parties cannot agree on an individual, each party shall alternately strike names, with the remaining individual serving as the resolution officer.

The resolution officer may:

1. determine whether the issues are ready for hearing and settlement;
2. identify for resolution terms and conditions of employment that are in dispute and which were negotiated in good faith but upon which no agreement was reached;
3. accept terms and conditions;
4. schedule hearings;
5. prescribe rules of conduct for conferences;

6. order additional mediation if necessary;
7. take any other action which may aid in resolution of the dispute; and
8. consult with an interested outside party only with the concurrence of all parties.

The resolution officer shall choose the most reasonable final offer on each issue in dispute. If either party is dissatisfied with the resolution officer's decision, it shall have the right to file an action with the commission seeking a determination of terms and conditions of employment. The commission shall resolve, as provided by statute, all the issues identified by either party and which were recognized by the resolution officer as a dispute. If parties have not filed with the commission by the latter of March 25 or within twenty-five days after the certification of school funds, the decision of the resolution officer shall be deemed final and binding.

408.01 - CERTIFICATED EMPLOYEES - RESIGNATION

Any certificated employee who wishes to be released from the current year contract should consider the difficulty of securing an adequate replacement for the district and disruption to the educational program. A late resignation greatly increases this difficulty and disruption.

A certificated employee who wishes to be released from his/her contract shall immediately deliver a written and signed notice of resignation to the office of the Superintendent. The Superintendent, upon reviewing the request and its impact on the district, shall forward the request to the School Board with an appropriate recommendation.

The School Board shall make the final determination regarding the request but shall have no obligation to approve the employee's early release from contract.

The Board may request the employee to continue as a member of the staff and to fulfill the terms of his/her contract. The early release, if allowed, will become effective at the end of the school year in which it is submitted. If the employee has requested the release to become effective at an earlier date than the end of the school year, the Board may consider it on an individual basis.

An employee's refusal to fulfill his/her contract shall be cause for the district to request a suspension or revocation of certification by the Nebraska Department of Education.

408.04R1 - CERTIFICATED EMPLOYEE TERMINATION PROCEDURES

Procedures for the dismissal of certificated employees are governed by state law and all actions of the School District and the Board, as well as the rights and privileges of employees, are clearly identified in the statutes. Certificated employees are dismissed when they have been unable to achieve professional standards of teaching competencies as reflected through the district program of teacher evaluation.

Probationary Certificated Employees: The Superintendent or Superintendent's designee may take action with regard to a certificated employee's performance or conduct which is reasonably necessary to assist the certificated employee and for the schools purposes which action may consist of counseling, an oral reprimand, written reprimand, suspension without pay for not to exceed thirty (30) working days, or the Superintendent or Superintendent's designee may determine that it is appropriate to consider whether the contract of such probationary certificated employee should be amended or not renewed for the next school year.

Prior to taking action other than recommending non-renewal or termination of the probationary certificated employee's contract, the certificated employee shall be advised of the alleged reasons for the proposed action and shall be given an opportunity to present his or her version of the facts. The certificated employee may proceed under the school district's grievance procedure as adopted by board policy or within seven (7) calendar days after the Superintendent or Superintendent's designee takes such action, and may challenge the decision through the administrative chain of command.

Hearing Rights: In the event that a probationary certificated employee's contract is being considered for amendment or non-renewal, such certificated employee shall be given written notice that the school board will consider the amendment or non-renewal of such certificated employee's contract for the ensuing school year. Upon request of the certificated employee, notice shall be provided which shall contain the written reasons for such proposed amendment or non-renewal and shall be sufficiently specific so as to provide such employee the opportunity to prepare a response and the reasons set forth in the notice shall be employment related.

Probationary Certificated Employee Hearing Rights: The school board may elect to amend or not renew the contract of a probationary certificated employee for any reason it deems sufficient subject to the constitutional rights of the employee.

Notice of such intention shall be made by the secretary of the board on or before April 15 of the school year affected. If within seven (7) calendar days after receipt of the notice herein referred to, the probationary certificated employee makes a written request to the Secretary of the School Board or the Superintendent or the Superintendent's designee, the employee shall be entitled to a hearing before the School Board. While such a hearing shall not be a formal due process hearing and shall be informal in nature, it shall be the right of the probationary Certificated employee either in his or her own right or by his or her representative to be afforded the opportunity to discuss and explain to the school board his or her position with regard to

continued employment, to present information and to ask questions of those appearing on behalf of the school district.

Prior to scheduling of action or a hearing on the matter, if requested, it shall be the right of the certificated probationary employee to have the notice of possible amendment or non-renewal and the reason supporting possible amendment or non-renewal to be consider a confidential employment matter and the same shall not be released to the public or any news media absent any statute to the contrary. Further, it if is requested by the employee that such hearing on the matter be held in closed session or if such request is made by his or her representative, then upon an affirmative vote of a majority of the board members present and voting such hearing shall be held in closed session, but the formal action of the school board for non-renewal or amendment shall be made in open session.

At any time prior to holding a hearing or prior to final determination by the school board to amend or not to renew the contract of a probationary certificated employee, such employee may submit a letter of resignation for the ensuing year, which resignation shall be accepted by the School Board. If the contract of any probationary certificated employee is being considered for amendment or termination during the school year, such employee shall be entitled to all rights afforded a permanent certificated employee under the formal due process hearing procedures set forth further herein.

Permanent Certificated Employees: The contract of a permanent certificated employee shall be deemed continuing and shall be renewed and remain in full force and effect unless amended or terminated in accordance with applicable law. The school board by vote of the majority of its members may determine that such permanent certificated employee's contract shall be amended or terminated for any of the following reasons:

1. Statutorily defined "just cause" which shall mean incompetency, neglect of duty, unprofessional conduct, insubordination, immorality, physical or mental incapacity, failure to give evidence of professional growth as defined by law and this policy, and such performance of duties, or such other grounds as may from the adoption of the date of this policy be lawfully defined as constituting "just cause".
2. Reduction-in-force or change of leave of absence policies.
3. Failure of the certificated employee upon written request of the School Board or the Administrators of the School District to accept employment for the next school year within the time designated in the request provided, however, that the certificated employee shall not be required to signify such acceptance prior to March 15 of each year.
4. Revocation, cancellation, suspension, or termination of the certificated employee certificate. Failure to give evidence of professional growth shall be construed by the School Board of the District to mean a failure to obtain at least six semester hours of college credit every six years or equivalent alternatives.

When the board is considering amending or terminating the contract of employment of a permanent certificated employee, such employee shall be entitled to the due process requirements of a formal hearing, which hearing shall be held as follows:

1. Notification to the permanent certificated employee shall be made in writing at least five (5) days prior to any such hearing which notification shall set forth the grounds alleged for such possible amendment or termination of the employee's contract.
2. Upon request of such employee at least five (5) days prior to the hearing, the employee shall be notified of any witnesses who will be called to testify against him or her and such employee shall have an opportunity to examine any documents that will be presented at the hearing.
3. The employee shall have the right to be represented by counsel and shall have an opportunity to cross examine all witnesses and to examine all documents and to present evidence material to the issues presented in the notification of the grounds for proposed action on the contract by the board.
4. Due and proper notice of the hearing shall be made in a timely and reasonable manner but shall in no case be less than three (3) days in advance of such hearing unless there be some provision of law which shall require greater notice.
5. Upon affirmative vote of a majority of the school board's members present and voting and upon specific requests of the certificated employee or his or her representative, the hearing shall be conducted in a closed session but the formal action of the board shall be taken in open session, provided, however, that nothing in this policy shall be construed to require the holding of any such hearing which is in any manner contrary to law.
6. A majority of the members of the school board shall render its decision to amend or terminate a permanent certificated employee's contract, based solely upon the evidence produced at the hearing, and shall reduce its findings and determinations to writing, and shall deliver a written copy thereof to the certificated employee on or before May 15 or as otherwise provided for in this policy.

After providing the opportunity for a hearing on cancellation, termination, or non-renewal of any certificated employee, except when reduction in force is the reason given for possible termination, and when just cause can be shown, the school board may impose such other sanctions, other than termination, cancellation, or non-renewal of contract, as may be agreed upon by the parties, provided, however, that nothing in this policy shall be construed to vest any right in any employee to any other such sanction. The board shall be entitled to take into consideration in any hearing herein provided for with regard to any certificated employee, the fact that other similar action has been taken and that action may be considered for a period of five years following the date of such action.

The board may, regarding any hearing herein provided for, on its own behalf, or upon the request of the certificated employee or his or her representative, or at the request of the school district administration or the Superintendent or the Superintendent's designee, subpoena and compel the attendance of witnesses residing either within or without the state for the purpose of appearing and testifying at any hearing provided for in this act, and for the purpose of having

such witness depositions taken in the manner prescribed by law for the taking of depositions in civil actions in the district court, and may issue subpoenas for the production of any papers, books, accounts, and documents to be used at any such hearing.

Any school board, upon written request, may grant a leave of absence to a permanent certificated employee for such reason as the school board deems appropriate, subject to any rules presently provided or which may subsequently be made governing such leaves of absence. During such leave of absence the permanent certificated employee shall not lose any rights he or she may have as a permanent certificated employee but during any such leave of absence his or her seniority and placement on any salary schedule shall remain at such place as it was at the first date of the taking of such leave of absence.

A school board may require a permanent certificated employee because of physical disability or sickness to take a leave of absence for a period not exceeding one year. In a case where such required leave is sought by the school board, the hearing procedures and all procedures leading to a hearing are to be followed, and the rights of such employees shall be the same as those made for a termination or amendment of contract of a permanent certificated employee.

Nothing in this policy and procedure shall be construed to provide any certificated employee a right to a specific assignment but each certificated employee has a right to be assigned to duties for which he or she is qualified by reason of certification, endorsement or college preparation, so long as such position exists within the district and so long as such assignment is not contrary to reduction in force policies or other policies or applicable law.

408.05 - CERTIFICATED EMPLOYEE REDUCTION-IN-FORCE

The board has the exclusive authority to determine the appropriate number of certificated employees. Reductions-in-force of certificated staff members may be required due to changes in the size or nature of the student population, limited financial support, changing programs, staff realignment or other changes in circumstances. Reduction-in-force may result in termination of employment, an amendment to the employee's contract reducing the employee from full-time to part-time status or an amendment to the contract of a part-time employee further reducing that employee's percentage of employment.

Prior to the reduction-in-force the board shall present evidence that such changes in circumstances have occurred. If a reduction of certificated staff is necessary, the superintendent or designee shall recommend to the school board those certificated employees to be reduced in employment under the provisions of this policy. No permanent employee may be selected for a reduction-in-force while a probationary employee is retained to perform a service that the permanent employee is qualified by certification and endorsement to perform or where certification is not applicable, by reason of college credits in the teaching area.

Due to the often intimate, confidential, and unique personal working relationship necessary between the administration and the school board, a certificated employee who is not currently serving in a predominantly administrative capacity shall have no rights under this policy to any administrative position within the school system.

The selection of personnel to be terminated shall be made with consideration given to the following:

1. Programs to be offered;
2. Areas of certification and endorsement;
3. State and federal regulations which may mandate certain employment practices;
4. Special qualifications that may require specific training and/or experience;
5. Contributions to activity programs;
6. Qualifications based on past performance and competence as determined by the principal and/or superintendent through employee evaluation procedures;
7. The organizational and educational impact created by multiple part-time certificated employees; and
8. Any other reasons which can be rationally related to the instruction in or administration of the school system.

Employee evaluations (including frequency of evaluations, evaluation forms, and number and length of classroom observations, if applicable) used under this policy shall conform to the board policies and administrative rules, regulations, and practices in effect at the time for the periodic evaluation of certificated staff members.

If, after consideration of the above, it is the opinion of the superintendent that no significant difference exists between certificated employees being considered for reduction-in-force, then the employee with the longest uninterrupted service to the district shall be retained.

The applicable state statutes for all employees selected for a reduction-in-force shall be followed.

Any certificated employee whose contract shall be terminated because of reductioninforce shall be considered to have been dismissed with honor and shall, upon request, be provided a letter to that effect. Such employee shall have preferred rights to reemployment for a period of twenty four months commencing at the end of the contract year and the employee shall be recalled on the basis of length of service to the school to any position for which he or she is qualified by endorsement or college preparation to teach. The employee shall, upon reappointment, retain any benefits that had accrued to that employee prior to termination, but such leave of absence shall not be considered as a year of employment by the district. An employee under contract to another educational institution may waive recall but such waiver shall not deprive the employee of his or her right to subsequent recall.

It shall be the responsibility of each certificated employee to file with the superintendent a copy of the employee's teaching certificate (including endorsements) upon initial employment with the district. On or before March 15th of each year thereafter (for so long as the employee is employed in the school system or has rights of recall) evidence of any changes in the employee's certification or endorsements which have occurred since the previous year or are pending shall be filed with the superintendent.

Any certificated employee whose employment contract is terminated as a result of reductionsinforce shall (during his/her period of recall) report his/her current address to the superintendent and shall inform the superintendent of any changes of address thereafter. If a vacancy in the system occurs for which the employee has rights of recall, the offer of such employment may be sent by the superintendent to the employee's last known address. If no acceptance of such offer is received from the employee within fourteen days of mailing and the superintendent has no personal knowledge of the whereabouts of the employee (other than last known address), the employee shall be deemed to have waived his/her rights to recall to the employment position.

The district may offer a voluntary early retirement program for fulltime certificated employees and noncertificated administrative employees. Upon written application and approval of the superintendent and board, eligible employees may participate in the program.

The major purpose of the program is to encourage eligible employees who are considering early retirement to accelerate their plans. Program objectives include but are not limited to the following:

1. To offer financial incentives which will assist long-term employees considering early retirement or early-leaving decisions at the end of any school year during which this Early Retirement Incentive Program is in effect.
2. To reduce costs to the School District by replacing maximum salaried employees with lesser salaried employees.
3. To provide for a balance of employee experience within the District.

An Eligible Employee who has received written notice of possible termination for reason of a reduction in force shall be eligible and may participate in this program if, but only if, said Eligible Employee expressly waives all rights to which he or she may be entitled under the reduction in force law.

409 - Certificated Employee Professional Growth

409.01 - PROFESSIONAL GROWTH OF CERTIFICATED PERSONNEL OF THE HEMINGFORD PUBLIC SCHOOL DISTRICT

The Hemingford Public School District maintains that each certificated staff member shall improve professionally and personally through staff development activities. Those activities sponsored and recognized by the Hemingford Public School District are designed to help each individual become a more effective and efficient staff member of the total educational program. To assist each certificated staff member in this endeavor, the Board shall require evidence of professional growth every six years.

Professional Growth Period: The professional growth period for the Hemingford Public School District is a three (3) year period during which certificated staff members are required to give evidence of professional growth. A certificated permanent staff member, upon employment on September 1, begins his/her initial three-year period and concludes such period three years later on August 31. The beginning of the fourth year commences the second three-year period.

Professional Growth Points: All permanent certificated staff members will be required to reach a total of thirty (30) professional growth points during each professional growth period. Each activity of professional growth has its own criteria for acceptance. It is the responsibility of each permanent certificated staff member to make an application for professional growth and to show that the activity(s) was completed. Implementation of any changes in professional growth requirements shall be in such a manner as to cause no penalty to those staff members who are currently working on professional growth requirements for their present professional growth period. All professional growth activities earned pursuant to these provisions shall be accepted by the Board as evidence of professional growth.

Applicability to the Salary Schedule: Credit hours earned to complete the professional growth requirement shall be applicable for movement on the salary schedule if such hours meet existing criteria for salary advancement as set forth in the negotiated agreement and/or Board policy.

Procedure for Applying for Growth Credit: Application for professional growth activities and college credit shall be made on forms available at the Office of the Principal. Application shall be initiated by the person requesting acceptance of the professional growth activity(s). A separate application shall be submitted for each activity that requests professional growth. It is required that applicants request preliminary approval for professional growth points prior to participation in the professional growth activity. The application shall be returned to the Office of the Principal upon completion of the professional growth activity.

Professional Growth Committee: The professional growth committee, established to review and approve applications for professional growth, shall consist of the Superintendent of

Schools, each building principal, and an elementary school teacher and high school teacher appointed by the Hemingford Public School District Education Association.

Review of Professional Growth Status: Records of professional growth activities shall be maintained in the employee's personnel file. At the end of each school year, each employee shall be notified, in writing, of the total accumulated professional growth points and the expiration date of the professional growth period.

Classification of Activities: Listed below are the activities for which professional growth points may be obtained, the number of points which can be awarded in one calendar year and the total number of points that can be earned within the professional growth period for each professional growth activity. The required number of thirty (30) professional growth points (hours) may be earned in one year or over the three-year period. Points earned during one growth period may not be carried over into the ensuing professional growth period, even though the points earned by the individual may be in excess of the required number.

409.02 - CERTIFICATED EMPLOYEE TRAINING, WORKSHOPS OR CONFERENCES

The Board of Education recognizes the importance of an ongoing system of professional staff development for the certificated staff. The board encourages certificated employees to attend and participate in professional development activities to maintain, develop, and extend their skills. The board shall maintain and support an in-service program for certificated employees.

The superintendent and or designee will develop and schedule in-service workshops as appropriate to the needs of the district and will inform the board regarding in-service staff development. In consultation with the Superintendent, annual time requirements for staff training in areas such as concussion awareness, suicide awareness, dating violence prevention, and others shall utilize a reasonable length of time as determined and approved by the board.

Requests for attendance or participation in a development program, other than those development programs sponsored by the school district, shall be made to the superintendent. Approval of the superintendent must be obtained prior to attendance by a certificated employee in a professional development program when the attendance would result in the certificated employee being excused from their duties or when the school district pays the expenses for the program.

Funds will be provided in the annual budget to support staff development activities of the certificated staff. Time for staff development activities will be identified by postponing school opening times or using early dismissal times on a monthly basis; and further, by identifying pre-opening and in-service days throughout the school term for the purpose of development of personal in-service programs for all personnel to implement promising educational practices, programs and materials to fit the needs of each child enrolled in the local school system. Furthermore, instructional personnel will be expected to utilize graduate school opportunities at the teacher's own expense for additional training to maintain and improve skills as required by the assignment of each individual educator.

Teachers may be granted professional leave to attend conferences or workshops of their choice. Travel expenses may be paid if approved by the Superintendent of Schools. Travel may be paid if the conference will provide a learning experience directly related to the teacher's classroom teaching assignment or if the building principal or superintendent requires the teacher's attendance at the conference. The teacher will pay for the costs of their attendance at the convention if the above stipulations do not apply.

The requirements stated in the Negotiated Contract between employees in that certified collective bargaining unit and the board regarding professional development of such employees shall be followed.

409.05 - CERTIFICATED EMPLOYEE TUTORING

Every effort will be made by the certificated employees to help students with learning problems before recommending that the parents engage a tutor. Since there are exceptional cases when tutoring will help students overcome learning deficiencies, tutoring by certificated employees may be approved by the superintendent.

Certificated employees may only tutor students other than those for whom the teacher is currently exercising teaching, administrative or supervisory responsibility unless approved by the board.

Tutoring for a fee may not take place within school facilities or during regular school hours unless approved by the superintendent.

410.03 - CERTIFICATED EMPLOYEE FAMILY AND MEDICAL LEAVE

The district will comply with all provisions of the Family and Medical Leave Act of 1993 and amendments.

Unpaid family and medical leave will be granted up to twelve (12) weeks in any twelve (12) month period to eligible certificated staff members for the following reasons:

1. the birth or care of a newborn child within one (1) year of the child's birth;
2. the placement or care by way of adoption or foster care with the staff member within one (1) year of the child's arrival;
3. to care for the staff member's spouse, parent or dependent child with a serious health condition;
4. if the staff member's own serious health condition prevents that employee from performing the functions of the employee's job;
5. in qualifying urgent situations arising out of the fact that the employee's spouse, son, daughter, or parent is on active duty or call to active duty status as a member of the National Guard or Reserves in support of a contingency operation.

Unpaid leave will be granted up to twenty-six (26) weeks during a single twelve (12) month period to eligible certificated staff members to care for a spouse, son, daughter, parent, or next of kin of a current member of the Armed Forces, including a member of the National Guard or Reserves, with a serious injury or illness.

For purposes of this policy, the twelve month period is defined as a "rolling period based on the date the leave is requested to begin and looking backward at the last twelve-months of use." Requests for family and medical leave shall be made to the superintendent.

To be eligible for FMLA benefits, a district employee must:

1. have worked for the district for a total of 12 months; and
2. have worked at least 1,250 hours over the previous 12 months.

When meeting the requirements set out in the family and medical leave administrative rules, employees may be allowed or required to substitute paid leave for unpaid family and medical leave according to the terms and conditions of the district's normal leave policies. Employees eligible for family and medical leave must comply with the family and medical leave administrative rules prior to starting family and medical leave. Requests for FMLA leave shall be submitted in writing. This policy shall not be construed to expand eligibility for an FMLA leave beyond what is required by the Act. It shall be the responsibility of the superintendent to implement this policy.

410.03R1 - CERTIFICATED EMPLOYEE FAMILY AND MEDICAL LEAVE REGULATIONS

Determining the 12-month previous employment eligibility:

While the 12 months of employment need not be consecutive, employment periods prior to a break in service of seven years or more need not be counted unless the break is occasioned by the employee's fulfillment of his or her National Guard or Reserve military obligation (as protected under the Uniformed Services Employment and Reemployment Rights Act (USERRA)), or a written agreement, including a collective bargaining agreement, exists concerning the district's intention to rehire the employee after the break in service.

Spouses employed by the same employer:

Spouses employed by the same employer are limited in the amount of family leave they may take for the birth and care of a newborn child, placement of a child for adoption or foster care, or to care for a parent who has a serious health condition to a combined total of 12 weeks (or 26 weeks if leave to care for a covered servicemember with a serious injury or illness is also used). Leave for birth and care, or placement for adoption or foster care, must conclude within 12 months of the birth or placement.

Serious Health Condition defined:

"Serious health condition" means an illness, injury, impairment, or physical or mental condition that involves either:

1. Inpatient care (i.e., an overnight stay) in a hospital, hospice, or residential medical-care facility, including any period of incapacity (i.e., inability to work, attend school, or perform other regular daily activities) or subsequent treatment in connection with such inpatient care; or
2. Continuing treatment by a health care provider, which includes:
 - a. A period of incapacity lasting more than three consecutive, full calendar days, and any subsequent treatment or period of incapacity relating to the same condition, that also includes:
 - i. treatment two or more times by or under the supervision of a health care provider (i.e., in-person visits, the first within 7 days and both within 30 days of the first day of incapacity); or
 - ii. one treatment by a health care provider (i.e., an in-person visit within 7 days of the first day of incapacity) with a continuing regimen of treatment (e.g., prescription medication, physical therapy); or
 - b. Any period of incapacity related to pregnancy or for prenatal care. A visit to the health care provider is not necessary for each absence; or
 - c. Any period of incapacity or treatment for a chronic serious health condition which continues over an extended period of time, requires periodic visits (at least twice a year) to a health care provider, and may involve occasional episodes of incapacity. A visit to a health care provider is not necessary for each absence; or

- d. A period of incapacity that is permanent or long-term due to a condition for which treatment may not be effective. Only supervision by a health care provider is required, rather than active treatment; or
- e. Any absences to receive multiple treatments for restorative surgery or for a condition that would likely result in a period of incapacity of more than three days if not treated.

Intermittent Leave for "Instructional Employees":

Special rules apply if an employee employed "mainly in an instructional capacity" requests intermittent leave or leave on a reduced schedule because of his/her own serious health condition or the serious health condition of a parent, child, or spouse that is foreseeable based on a planned medical treatment and the employee would be gone for more than twenty percent (20%) of the working days during the period of leave. In such cases, the district may require the employee to do the following things:

1. Take leave for periods of a particular duration not to exceed the duration of the planned medical treatment.
2. Transfer temporarily to another position offered by the district for which the employee is qualified, as long as the new position has equivalent pay and benefits and better accommodates the recurring periods of leave.

An instructional employee who takes leave constituting less than twenty percent (20%) of the working days during the leave period would not be subject to transfer to an alternative position, or a requirement to be on leave for the duration of the treatment period.

An employee will be denied intermittent leave or leave on a reduced leave schedule to care for an immediate family member (spouse, child, parent) with a serious health condition or if the employee has a serious health condition, if:

1. The employee, whether requesting leave because of his/her own serious health condition or because of the serious health condition of a parent, child, or spouse fails to establish, through medical certification, that there is a medical need for such a leave (as distinguished from voluntary treatments and procedures or a continuous treatment schedule).
2. The employee, whether requesting leave for his/her own serious health condition or because of the serious health condition of a family member, fails to establish, through medical certification, that it is medically necessary for the leave to be taken intermittently on a reduced leave schedule.

Intermittent leave or a reduced leave schedule may not be taken for the birth of a child or for the placement of a child for adoption or foster care.

When intermittent leave or leave on a reduced leave schedule is requested based on planned medical treatment, the district also may alter an existing job to better accommodate the employee's need for intermittent or reduced leave. The alternative or altered position must have equivalent pay and benefits.

End-Of-Semester Circumstances

In some circumstances, the district may require instructional employees to continue their leave to the end of the academic semester within the FMLA guidelines.

Maintenance Of Health Benefits

The district is required to maintain group health insurance coverage for an employee on FMLA leave whenever such insurance was provided before the leave was taken and on the same terms as if the employee had continued to work. If applicable, arrangements will need to be made for employees to pay their share of health insurance premiums while on leave. In some instances, the district may recover premiums it paid to maintain health coverage for an employee who fails to return to work from FMLA leave.

Job Restoration

Upon return from FMLA leave, an employee will be restored to the employee's original job, or to an equivalent job with equivalent pay, benefits, and other terms and conditions of employment. An employee's use of FMLA leave will not result in the loss of any employment benefit that the employee earned or was entitled to before using FMLA leave, nor be counted against the employee under a "no fault" attendance policy. If a bonus or other payment, however, is based on the achievement of a specified goal such as hours worked or perfect attendance, and the employee has not met the goal due to FMLA leave, payment may be denied unless it is paid to an employee on equivalent leave status for a reason that does not qualify as FMLA leave. An employee has no greater right to restoration or to other benefits and conditions of employment than if the employee had been continuously employed.

Notice And Certification

Employee Notice: Employees seeking to use FMLA leave are required to provide 30-day advance notice of the need to take FMLA leave when the need is foreseeable and such notice is practicable. If leave is foreseeable less than 30 days in advance, the employee must provide notice as soon as practicable – generally, either the same or next business day. When the need for leave is not foreseeable, the employee must provide notice to the district as soon as practicable under the facts and circumstances of the particular case. Absent unusual circumstances, employees must comply with the district's usual and customary notice and procedural requirements for requesting leave.

Employees must provide sufficient information for the district reasonably to determine whether the FMLA may apply to the leave request. Depending on the situation, such information may include that the employee is incapacitated due to pregnancy, has been hospitalized overnight, is unable to perform the functions of the job, and/or that the employee or employee's qualifying family member is under the continuing care of a health care provider.

When an employee seeks leave due to a FMLA-qualifying reason for which the district has previously provided the employee FMLA-protected leave, the employee must specifically reference either the qualifying reason for leave or the need for FMLA leave.

Employer Notice: The district will post a notice approved by the Secretary of Labor explaining rights and responsibilities under FMLA. Additionally, the district will either include this general notice in employee handbooks or other written guidance to employees concerning benefits, or must distribute a copy of the notice to each new employee upon hiring.

When an employee requests FMLA leave or the district acquires knowledge that leave may be for a FMLA purpose, the district shall notify the employee of his or her eligibility to take leave, and inform the employee of his/her rights and responsibilities under FMLA. When the district has enough information to determine that leave is being taken for a FMLA-qualifying reason, the district must notify the employee that the leave is designated and will be counted as FMLA leave.

Certification: The district may require that an employee's request for leave due to a serious health condition affecting the employee or a covered family member be supported by a certification from a health care provider. The district may require second or third medical opinions (at the district's expense) and periodic recertification of a serious health condition. The district may use a health care provider, a human resource professional, a leave administrator, or a management official – but not the employee's direct supervisor – to authenticate or clarify a medical certification of a serious health condition. The district may have a uniformly-applied policy requiring employees returning from leave for their own serious health condition to submit a certification that they are able to resume work. If reasonable safety concerns exist, the district may, under certain circumstances, require such a certification for employees returning from intermittent FMLA leave.

411 - Other Certificated Employees

411.01 - SUBSTITUTE TEACHERS

The Board of Education recognizes that there are times when extraordinary conditions warrant that the Superintendent of School hire temporary personnel in advance of official action by the Board of Education in order to insure the continuity of the district's functions and programs. The superintendent shall notify the board as soon as possible if a temporary employee has been assigned.

Retired Teachers: The Board of Education may employ a retired teacher temporarily or on a full time basis according to the terms prescribed by law.

Part Time Personnel: Teachers employed less than full-time will be contracted and compensated on a basis of computed percentages of full-time equivalency. The teacher will be paid for class periods taught, and will be paid for the percentage of planning period equal to the percentage of full-time employment for which he or she is contracted.

Since part-time compensation is calculated on a basis of percentage of the employment day during which students are in attendance, as opposed to the work day of full-time employees, part-time teachers will be expected to attend staff meetings and assume an equal share of supervisory duties as directed by the building principal. All part-time certified personnel will receive fringe benefit compensation (insurance) and sick leave on the same percentage basis as they are employed, if they are employed at least .40 FTE according to Blue Cross Blue Shield.

The calculation of percentage of full-time at the high school and at the middle school will be determined by the fraction resulting from periods taught and the number of periods in the instructional day, the percentage of a planning period is determined by dividing the number of periods taught by the number of periods, minus, one, in the instructional day.

The elementary school is not easily divided into periods or blocks or time, nor is a definite planning time set aside. Part-time employment will be compensated on a basis of a percentage of a full teaching day of six hours, according to the following scale: 1. One hour per day = 20% 4. Four hours per day = 78% 2. Two hours per day = 39% 5. Five hours per day = 97% 3. Three hours per day = 58%

Substitute teachers are to be selected by the principals from a list of substitutes previously approved by the superintendent. The amount of pay is to be set periodically by the Board of Education. Substitute teachers shall be paid at a rate competitive with other school systems.

All substitute teachers must be selected or approved by the administration. A valid certificate must be on file and registered with the Hemingford Superintendent of Schools before a

substitute can work. A substitute teacher shall be considered to be serving as a long-term substitute when covering the absence of the same teacher in excess of ten consecutive contract days. The Superintendent of Schools may place a substitute teacher on long-term standing when he or she has information that can determine an extended absence will be necessary. The superintendent may also place a long-term substitute on the regular salary schedule under contract when the absence continues for an indefinite period of time.

The wages of long-term substitutes will be set at the calculated daily rate of Column A, Step 1 of the salary schedule in the negotiated agreement (starting daily wage of a first-year teacher). Substitute teachers will not participate in the health and welfare plans or other fringe benefits of the school district.

No more than ten (10) days may be paid in a school year. A school year is defined as September 1 to August 31.

Employees who wish to be paid in lieu of taking vacation must notify the superintendent by July 1 of how many days they wish to take payment for. Payment for the vacation days can be taken any time after September 1 until January 1 following the notification July 1. Payment will be based upon the hourly wage prior to July 1.

Vacation days may be used to extend holiday vacations with permission of the superintendent. Work requirements and schedules of District #10 will take precedence over the convenience of the employee. Employees who have less than seven years of employment prior to September 1 will be given one (1) day per month for vacation.

Employees who have more than seven (7) years of employment by September 1 will receive 1.25 days per month for vacation. Employees, who have more than fifteen (15) years of service

prior to September 1, will receive 1.5 days per month for vacation. All requests for vacation days must be filed with the superintendent of schools through the business manager. The business manager will keep record of all vacation days each employee has used or has accumulated. Employees may carry forward those days accumulated prior to September 1, 1996.

The Board of Education recognizes that from time to time employees because of illness, injury or personal reasons will be required to be absent from work. Because of the nature of their relationship with students and other employees, it is not expected of employees to report to duty with infectious diseases. Therefore, the Board will provide a plan for leaves and absences designed to help members of the support staff maintain their physical health and discharge necessary and important obligations.

All support staff personnel after absence from duty shall file a certificate with the business manager indicating the reason for the absence, the date or dates of the absence, and the type of leave granted. This certificate shall also be signed by the Superintendent of Schools. The business manager shall maintain all necessary records of absences and accumulated sick leave. Employees shall make all necessary arrangements with their immediate supervisor prior to the absence for medical appointments and funerals. The certificate will be filed prior to or immediately after the absence. Sick leave taken for death in the immediate family must be arranged with the Superintendent of Schools. Only under special circumstances will more than five days of sick leave be allowed for death or illness in the immediate family.

Sick leave taken for serious illness in the immediate family must also be arranged by the Superintendent of Schools. Any special circumstance not specifically covered by the policies concerning leaves shall be decided by the Superintendent of Schools.

Personal Leave: Regular full-time employees are allowed 2 days of personal leave to attend to business that normally cannot be conducted after work or on weekends. School time employees, 10-month secretaries and part time employees are allowed 3 days of personal leave during a normal work year. Personal leave may be taken to attend the funeral of friends or relatives not part of the immediate family. Employees should be judicious in their use of personal leave.

Other Leave: Employees may request through the Superintendent of Schools to be excused from work for a period of time as agreed upon by the employee and superintendent. This leave will be without pay. This leave is intended only for special circumstances not covered by other paid leave days.

Support staff will be paid only for the hours they would have been scheduled for the day. Vacation shall not be accrued from year to year without a prior arrangement with the superintendent.

415.02 - SUPPORT STAFF PERSONAL ILLNESS LEAVE

Sick Leave shall be granted to employees when they are not able to perform their duties due to their own personal illness, injury, or for medical, dental, or optical examinations or treatment which cannot be scheduled outside of the normal working day. In addition sick leave shall be provided for serious illness or death in the immediate family. Immediate family is defined as spouse, child, father, father-in-law, mother, mother-in-law, son-in-law, daughter-in-law, brother, brother-in-law, sister, sister -in-law, grandparent, or grandchild.

Regular full time employees are allowed 10 sick days during a school work year. Unused sick leave may be accumulated to 35 days. School time employees are allowed 5 sick days during a school work year. Unused sick leave may be accumulated to 25 days. Ten month secretaries are allowed 6 sick days during a school work year. Unused sick leave may be accumulated to 30 days.

All Support Staff Employees: A day is defined as the normal number of hours worked per day by the employee. All leaves so accumulated terminate upon resignation, retirement, or termination of employment. The Superintendent may require a physician's statement substantiating any claim for sick leave. If employment starts after the start of the normal work year, the employee's sick leave is to be prorated for the first work year of employment. The normal school work year is September 1 to August 31.

Absence caused by an injury occurring while at work will not be counted against sick leave but will be covered under workman's compensation.

415.03 - SUPPORT STAFF FAMILY AND MEDICAL LEAVE

The district will comply with all provisions of the Family and Medical Leave Act of 1993 and amendments.

Unpaid family and medical leave will be granted up to twelve (12) weeks in any twelve (12) month period to eligible support staff members for the following reasons:

1. the birth or care of a newborn child within one (1) year of the child's birth;
2. the placement or care by way of adoption or foster care with the staff member within one (1) year of the child's arrival;
3. to care for the staff member's spouse, parent or dependent child with a serious health condition;
4. if the staff member's own serious health condition prevents that employee from performing the functions of the employee's job;
5. in qualifying urgent situations arising out of the fact that the employee's spouse, son, daughter, or parent is on active duty or call to active duty status as a member of the National Guard or Reserves in support of a contingency operation.

Unpaid leave will be granted up to twenty-six (26) weeks during a single twelve (12) month period to eligible support staff members to care for a spouse, son, daughter, parent, or next of kin of a current member of the Armed Forces, including a member of the National Guard or Reserves, with a serious injury or illness.

For purposes of this policy, the twelve month period is defined as a "rolling period based on the date the leave is requested to begin and looking backward at the last twelve-months of use." Requests for family and medical leave shall be made to the superintendent.

To be eligible for FMLA benefits, a district employee must:

1. have worked for the district for a total of 12 months; and
2. have worked at least 1,250 hours over the previous 12 months.

When meeting the requirements set out in the family and medical leave administrative rules, employees may be allowed or required to substitute paid leave for unpaid family and medical leave according to the terms and conditions of the district's normal leave policies. Employees eligible for family and medical leave must comply with the family and medical leave administrative rules prior to starting family and medical leave. Requests for FMLA leave shall be submitted in writing. This policy shall not be construed to expand eligibility for an FMLA leave beyond what is required by the Act. It shall be the responsibility of the superintendent to implement this policy.

Determining the 12-month previous employment eligibility:

While the 12 months of employment need not be consecutive, employment periods prior to a break in service of seven years or more need not be counted unless the break is occasioned by the employee's fulfillment of his or her National Guard or Reserve military obligation (as protected under the Uniformed Services Employment and Reemployment Rights Act (USERRA)), or a written agreement, including a collective bargaining agreement, exists concerning the district's intention to rehire the employee after the break in service.

Spouses employed by the same employer:

Spouses employed by the same employer are limited in the amount of family leave they may take for the birth and care of a newborn child, placement of a child for adoption or foster care, or to care for a parent who has a serious health condition to a combined total of 12 weeks (or 26 weeks if leave to care for a covered servicemember with a serious injury or illness is also used). Leave for birth and care, or placement for adoption or foster care, must conclude within 12 months of the birth or placement.

Serious Health Condition defined:

"Serious health condition" means an illness, injury, impairment, or physical or mental condition that involves either:

1. Inpatient care (i.e., an overnight stay) in a hospital, hospice, or residential medical-care facility, including any period of incapacity (i.e., inability to work, attend school, or perform other regular daily activities) or subsequent treatment in connection with such inpatient care; or
2. Continuing treatment by a health care provider, which includes:
 - a. A period of incapacity lasting more than three consecutive, full calendar days, and any subsequent treatment or period of incapacity relating to the same condition, that also includes:
 - i. treatment two or more times by or under the supervision of a health care provider (i.e., in-person visits, the first within 7 days and both within 30 days of the first day of incapacity); or
 - ii. one treatment by a health care provider (i.e., an in-person visit within 7 days of the first day of incapacity) with a continuing regimen of treatment (e.g., prescription medication, physical therapy); or
 - b. Any period of incapacity related to pregnancy or for prenatal care. A visit to the health care provider is not necessary for each absence; or
 - c. Any period of incapacity or treatment for a chronic serious health condition which continues over an extended period of time, requires periodic visits (at least twice a year) to a health care provider, and may involve occasional episodes of incapacity. A visit to a health care provider is not necessary for each absence; or
 - d. A period of incapacity that is permanent or long-term due to a condition for which treatment may not be effective. Only supervision by a health care provider is required, rather than active treatment; or

- e. Any absences to receive multiple treatments for restorative surgery or for a condition that would likely result in a period of incapacity of more than three days if not treated.

Intermittent Leave for "Instructional Employees":

Special rules apply if an employee employed "mainly in an instructional capacity" requests intermittent leave or leave on a reduced schedule because of his/her own serious health condition or the serious health condition of a parent, child, or spouse that is foreseeable based on a planned medical treatment and the employee would be gone for more than twenty percent (20%) of the working days during the period of leave. In such cases, the district may require the employee to do the following things:

1. Take leave for periods of a particular duration not to exceed the duration of the planned medical treatment.
2. Transfer temporarily to another position offered by the district for which the employee is qualified, as long as the new position has equivalent pay and benefits and better accommodates the recurring periods of leave.

An instructional employee who takes leave constituting less than twenty percent (20%) of the working days during the leave period would not be subject to transfer to an alternative position, or a requirement to be on leave for the duration of the treatment period.

An employee will be denied intermittent leave or leave on a reduced leave schedule to care for an immediate family member (spouse, child, parent) with a serious health condition or if the employee has a serious health condition, if:

1. The employee, whether requesting leave because of his/her own serious health condition or because of the serious health condition of a parent, child, or spouse fails to establish, through medical certification, that there is a medical need for such a leave (as distinguished from voluntary treatments and procedures or a continuous treatment schedule).
2. The employee, whether requesting leave for his/her own serious health condition or because of the serious health condition of a family member, fails to establish, through medical certification, that it is medically necessary for the leave to be taken intermittently on a reduced leave schedule.

Intermittent leave or a reduced leave schedule may not be taken for the birth of a child or for the placement of a child for adoption or foster care.

When intermittent leave or leave on a reduced leave schedule is requested based on planned medical treatment, the district also may alter an existing job to better accommodate the employee's need for intermittent or reduced leave. The alternative or altered position must have equivalent pay and benefits.

End-Of-Semester Circumstances

In some circumstances, the district may require instructional employees to continue their leave to the end of the academic semester within the FMLA guidelines.

Maintenance Of Health Benefits

The district is required to maintain group health insurance coverage for an employee on FMLA leave whenever such insurance was provided before the leave was taken and on the same terms as if the employee had continued to work. If applicable, arrangements will need to be made for employees to pay their share of health insurance premiums while on leave. In some instances, the district may recover premiums it paid to maintain health coverage for an employee who fails to return to work from FMLA leave.

Job Restoration

Upon return from FMLA leave, an employee will be restored to the employee's original job, or to an equivalent job with equivalent pay, benefits, and other terms and conditions of employment. An employee's use of FMLA leave will not result in the loss of any employment benefit that the employee earned or was entitled to before using FMLA leave, nor be counted against the employee under a "no fault" attendance policy. If a bonus or other payment, however, is based on the achievement of a specified goal such as hours worked or perfect attendance, and the employee has not met the goal due to FMLA leave, payment may be denied unless it is paid to an employee on equivalent leave status for a reason that does not qualify as FMLA leave. An employee has no greater right to restoration or to other benefits and conditions of employment than if the employee had been continuously employed.

Notice And Certification

Employee Notice: Employees seeking to use FMLA leave are required to provide 30-day advance notice of the need to take FMLA leave when the need is foreseeable and such notice is practicable. If leave is foreseeable less than 30 days in advance, the employee must provide notice as soon as practicable – generally, either the same or next business day. When the need for leave is not foreseeable, the employee must provide notice to the district as soon as practicable under the facts and circumstances of the particular case. Absent unusual circumstances, employees must comply with the district's usual and customary notice and procedural requirements for requesting leave.

Employees must provide sufficient information for the district reasonably to determine whether the FMLA may apply to the leave request. Depending on the situation, such information may include that the employee is incapacitated due to pregnancy, has been hospitalized overnight, is unable to perform the functions of the job, and/or that the employee or employee's qualifying family member is under the continuing care of a health care provider.

When an employee seeks leave due to a FMLA-qualifying reason for which the district has previously provided the employee FMLA-protected leave, the employee must specifically reference either the qualifying reason for leave or the need for FMLA leave.

Employer Notice: The district will post a notice approved by the Secretary of Labor explaining rights and responsibilities under FMLA. Additionally, the district will either include this general notice in employee handbooks or other written guidance to employees concerning benefits, or must distribute a copy of the notice to each new employee upon hiring.

When an employee requests FMLA leave or the district acquires knowledge that leave may be for a FMLA purpose, the district shall notify the employee of his or her eligibility to take leave, and inform the employee of his/her rights and responsibilities under FMLA. When the district has enough information to determine that leave is being taken for a FMLA-qualifying reason, the district must notify the employee that the leave is designated and will be counted as FMLA leave.

Certification: The district may require that an employee's request for leave due to a serious health condition affecting the employee or a covered family member be supported by a certification from a health care provider. The district may require second or third medical opinions (at the district's expense) and periodic recertification of a serious health condition. The district may use a health care provider, a human resource professional, a leave administrator, or a management official – but not the employee's direct supervisor – to authenticate or clarify a medical certification of a serious health condition. The district may have a uniformly-applied policy requiring employees returning from leave for their own serious health condition to submit a certification that they are able to resume work. If reasonable safety concerns exist, the district may, under certain circumstances, require such a certification for employees returning from intermittent FMLA leave.

During this additional leave of absence, the employee shall receive such portion of his or her salary or compensation as will equal the loss he or she may suffer while in the active service of the state. The loss he or she may suffer while in the active service of the state is defined as the differential between military salary and district salary.

Employees who are required to leave a position other than temporary for training with the armed forces of the United States or to undertake military duty in the active service of the state are entitled to a leave of absence for such period, not to exceed five years, plus any additional period as provided by law, without loss of status and without loss of pay during the first fifteen work days, which pay for the first fifteen work days is not in addition to that described above.

1. has given advance notice of the need for military leave (unless notice is precluded by military necessity or is otherwise unreasonable);
2. has not been absent from his or her job for more than five years; and
3. returns to work as outlined below.

1. If absent less than 31 days, the employee must report back to work by the beginning of the next regularly scheduled work period after a reasonable amount of time to arrive home, rest and report to work;
2. If absent more than 30 days but less than 181 days, the employee must submit an application for reemployment within 14 days after the completion of service;

Such person shall not be discharged without justifiable cause within 180 days after the date of reemployment if the person's period of military service before the reemployment was more than 30 days but less than 181 days.

An employee reemployed after military leave will be treated as not having incurred a break in service. Absence for any of the reasons stated above shall not affect the employee's right to receive normal vacation, sick leave, bonus, advancement and other advantages of the employee's employment normally to be anticipated in the employee's particular position.

Section 500 - Students

501.00 - OBJECTIVES FOR EQUAL EDUCATIONAL OPPORTUNITIES FOR STUDENTS

This section of the board policy manual is devoted to the board's goals and objectives for assisting the students of the school district in obtaining an education. Each student shall have an opportunity to obtain an education in compliance with the policies in this series. It is the goal of the board to develop a healthy social, intellectual, emotional, and physical self-concept in the students enrolled in the school district. Each student attending school will have the opportunity to use it and its education program and services as a means for self-improvement and individual growth. In so doing, the students are expected to conduct themselves in a manner that assures each student the same opportunity.

The board supports the delivery of the education program and services to students free of discrimination based on race (including skin color, hair texture, and protective hairstyles), color, national origin, sex, disability, religion or marital status, sexual orientation or gender identity and provides equal access to the Boy Scouts and other designated youth groups. This concept of equal educational opportunity serves as a guide for the board and employees in making decisions relating to school district facilities, employment, selection of educational materials, equipment, curriculum, and regulations affecting students.

Board policies, rules and regulations affect students while they are on school district property or on property within the jurisdiction of the school district; while on school owned, operated, or chartered transportation; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management, and educational processes of the school district.

This section of the board policy refers to the term "parents" in many of the policies. The term parents for purposes of this policy manual shall mean the legal parents. It shall also mean the legal guardian or custodian of a student and students who have reached the age of majority or are otherwise considered an adult by law.

Inquiries by students regarding compliance with equal educational opportunity laws and policies, including but not limited to complaints of discrimination, shall be directed to the Compliance Coordinators or the building principal.

Inquiries may also be directed in writing to the Director of the Kansas Office of Civil Rights, U.S. Department of Education, One Petticoat Lane, 1010 Walnut Street, Suite 320, Kansas City, MO 64106, (816) 268-0550, the Nebraska Equal Opportunity Commission, State Office Building, 301 Centennial Mall South, 5th floor, P.O. Every report of alleged violations of this policy that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, during an ongoing investigation of this policy, potential issues of sexual harassment or discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged sexual harassment or discrimination as well as the incidents of alleged violations of this policy.

Further information and copies of the procedures for filing a complaint are available in the school district's central administrative office and the administrative office in each attendance center.

502 - Student Admissions

502.01 - RESIDENT STUDENTS

Children who are residents of the school district community will attend the school district without paying tuition. Students whose residency in the district ceases during a school year may continue attending school for the remainder of the school year without payment of tuition.

The residence of a student means the place, abode, or dwelling of the student. Generally, the legal dwelling of minors is the same as their parents. However, a student may establish a dwelling with someone other than the parents and attend public school in the school district without paying tuition if the primary purpose for residing in the school district is not for the purpose of obtaining a free public education.

Children of military families may enroll preliminarily in the district if a parent presents evidence of military orders that the military family will be stationed in this state during the current or following school year. A student of a military family shall be admitted to the school district without charge upon arrival in Nebraska. When any person is on active duty as a member of the United States Army, Navy, Marine Corps, or Air Force in the State of Nebraska and is residing on federally owned property, any child of school age of that active duty member who also resides on that property shall be considered a resident of the school district where that property is located in accordance with the statutes. This also applies to children of parents employed by the federal government and residing with their parents on the property of national parks or national monuments within this state.

Each case involving the determination of residence of a student will be decided upon its individual merits by the superintendent. Payment of tuition will not be required in cases where the resident student would otherwise be denied free common school privileges. The burden of proof to supply the necessary documents to demonstrate legal residence shall rest with the person claiming legal residence in the district. The superintendent or designee shall determine the specific documents required for collecting enrollment, admission, and related information needed for any student to attend and they may be provided through electronic means or other means specified by the Nebraska Department of Education.

502.02 - NONRESIDENT STUDENTS/OPTION ENROLLMENT

Students who are eligible to attend a Nebraska public school but who are not legal residents of the school district may be admitted into the school district in accordance with the option enrollment program authorized by state statutes. Option enrollment students shall be accepted without charge. The option shall be available once during elementary school, once during middle school or junior high school, and once during high school for a total of three times.

Applications: Application for option enrollment should be made between September 1 and March 15 for enrollment during the following and subsequent school years. Upon agreement of the school boards of the resident district and the option (receiving) district, deadlines for application and approval of the option may be waived. Following the March 15 deadline, applications requesting admittance must contain a release approval from the resident school district, or if the student is an option student at the time of such application and applying to become an option student at a subsequent option school district, a release approval from the option school district the student is attending at the time of such application,

When No Release Approval is Required: The application for option enrollment does not require a release from the resident district or the option school district the student is attending at the time of such application, and the receiving district the student is applying to attend has forty-five days to issue acceptance or rejection if:

1. after February 1 the student relocated to a different resident district, or
2. the student's option district merged with another district effective after February 1, and
3. the student's attendance would occur during the next immediate and subsequent school years.

Initial Decision for Acceptance or Rejection: The option school district the student is applying to attend shall provide the resident school district, and if applicable, the option school district the student is attending at the time of such application, with the name of the applicant on or before April 1 or, in the case of an application submitted after March 15, within sixty days after submission. If the district rejects an application for a student to option in or out, the district will provide notification by certified mail to the parent/guardian of the specific reasons for rejection including a description of services and accommodations required that the district does not have the capacity to provide and the process for appealing the decision to the State Board of Education.

Attendance at Option District: In general, the option student shall attend the option district until graduation unless the student relocates in a different resident school district,

transfers to a private or parochial school, or chooses to return to the resident school district, or options into a subsequent option school district, except that no student may use the enrollment option program other than as provided in state statutes. No option student shall attend an option school for less than one year unless the student relocates to a different resident school district, completes requirements for graduation prior to the end of his or her senior year, transfers to a private or parochial school, or upon mutual agreement of the resident and option school districts cancels the enrollment option and returns to the resident school district or the previous option school district the student was attending immediately prior.

Setting Standards for Acceptance or Rejection of an Option Request: Such standards shall not include the failure to meet the March 15 deadline. The option district shall notify the parent/guardian and the resident district whether the application is accepted or rejected within sixty days after submission. False or substantively misleading information submitted by a parent/guardian on an application to an option district may be cause for the option district to reject a previously accepted application prior to the student's attendance.

The board shall adopt a resolution and publish its specific standards for acceptance and rejection of applications as an option school prior to October 15th of each school year for the next school year. Standards will conform to those set forth by state statute. These may include the capacity of a program, class, grade level, or school building. The board shall also adopt standards and conditions for acceptance or rejection of a request for release of a resident student submitting an option application after March 15. Such standards shall not include the failure to meet the March 15 deadline.

Capacity for the district's special education services shall be determined on a case-by-case basis as determined by the Director of Special Education or designee. If the district receives an option enrollment application indicating the student has an individualized education program under the Individuals with Disabilities Education Act or may be eligible to receive special education or related services, it shall be evaluated to determine if the appropriate class, grade level, or school building in the district has the capacity to provide the student with the appropriate services and accommodations.

An option enrollment application shall be rejected in the event the capacity of a program, class, grade level, or school building or the availability of appropriate special education programs operated by the District would be exceeded by acceptance of the application, and an option enrollment application shall be rejected in the event the application is for enrollment in a program, class, grade level, or school building which has been declared unavailable to option students due to lack of capacity.

The application may be rejected if it is not submitted on a form prescribed by the State Department of Education, is not completely and accurately filled in, is not received within the time required by law, or any additional information requested to be supplied is not supplied to

the School District within the timelines indicated; or in the event acceptance of the application is not required by law.

Option Priorities: An option district shall give first priority for enrollment to siblings of option students within the requirements of state statutes. The board shall follow statutes regarding the application of a student who relocates in a different district but wants to continue attending his or her original resident district or current option district.

Acceptance or Rejection Procedures: The option district shall notify the parent/guardian and the resident district whether the application is accepted or rejected within sixty days after submission. False or substantively misleading information submitted by a parent/guardian on an application to an option district may be cause for the option district to reject a previously accepted application prior to the student's attendance.

If an application is rejected by the option school district or if the resident school district rejects a request for release, the rejecting school district shall provide written notification to the parent or guardian stating (a) the specific reasons for the rejection including, for students with an individualized education program under the Individuals with Disabilities Education Act,, or with a diagnosed disability as defined in section 79-1118.01, a description of services and accommodations required that the school district does not have the capacity to provide, and (b) the process for appealing such rejection to the State Board of Education. Such notification shall be sent by certified mail.

The parent or legal guardian may appeal a rejection to the State Board of Education by filing a written request, together with a copy of the rejection notice, with the State Board of Education. Such request and copy of the notice must be received by the board within thirty days after the date the notification of the rejection was received by the parent or legal guardian. The hearing shall be held in accordance with the Administrative Procedure Act and shall determine whether the procedures of sections 79-234 to 79-241 have been followed. Any rejection based upon capacity limitations established under section 79-238 shall be the responsibility of the school district to prove in any appeal filed with the state board.

Reporting to the Department of Education: The district shall provide to NDE required information relating to all applications rejected by the option school district. Such information shall include, but not be limited to, (a) the number of applications rejected in each public school in such district, (b) an explanation why each application was rejected, and (c) whether each application for option enrollment indicated that the student had an individualized education program under the Individuals with Disabilities Education Act or had been identified as a student with a disability as defined in section 79-1118.01.

Nonresident Students: Nonresident students not going through option enrollment may also be admitted under a contract with the student's resident district at the discretion of the superintendent upon application and payment of tuition as stated in the contract. The tuition rate shall be the current per-pupil cost of the school district as computed by the superintendent.

Students whose residency in the district ceases during a school year may continue attending school for the remainder of the school year without payment of tuition.

Transportation: The district may choose to provide transportation to the option student in the same manner as for resident students and may choose whether or not to charge the parents of those option students a fee to recover the district's costs for the transportation. Any such agreement shall require that the parent or guardian of the option student reimburse Hemingford Public Schools for such transportation at an agreed fee which shall be sufficient to recover the additional costs incurred by Hemingford Public Schools for such transportation. An option student may be transported for no fee, provided the student meets the assigned bus at a pick-up location within a regular assigned route and the bus is not at capacity as determined by the administration.

Any transportation services provided to an option student may be discontinued in the sole discretion of the administration or School Board, as the School Board does not authorize the granting of a continuing right to transportation to any option student. Two weeks' notice of discontinuance of transportation services will be provided when determined by the administration to be practicable.

All option students who qualify for free lunches are eligible for either free transportation or the reimbursement of transportation costs from the school district as provided by state statute. Students receiving special education services shall receive transportation services as provided in the student's Individualized Education Plan.

502.03 - ENTRANCE ADMISSIONS

Children in the school district community will be allowed to enroll in the school district's regular education program beginning at age five. The child must be age five on or prior to July 31 to participate in the school district's kindergarten program or beginner grade, or be admitted under exceptions provided by state statute.

The board shall require evidence of age and residency in the form of a birth certificate or other evidence before the student may enroll in the school district's education program. It shall be within the discretion of the superintendent to determine what is satisfactory evidence for proof of age.

Evidence of Birth Date: Upon enrollment of a student in the Hemingford Public Schools, the parent or legal guardian of any child in pre-school to grade 12 shall furnish: (1) A certified copy of the student's birth certificate issued by the state in which the child was born, prior to admission of a child for the first time. Other reliable proof of the child's identity and age, accompanied by an affidavit explaining the inability to produce a copy of the birth certificate, may be used in lieu of a birth certificate. An affidavit is defined as a notarized statement by an individual who can verify the reason a copy of the birth certificate cannot be produced.

The administration shall notify the person enrolling the student of the requirement that state law further requires that such proof of identity and age be given to the school within thirty days of enrollment (if enrollment without such has been allowed). If this requirement is not met, the administration shall give another notice to the person enrolling the student that unless he or she complies within ten days, the matter shall be referred to the local law enforcement agency for investigation. Any affidavit received as proof of the child's identity and age that appears inaccurate or suspicious in form or content shall be reported immediately to the local law enforcement agency by the school.

Prior to enrollment, the child must provide the administration with proof of a physical examination and immunizations as required by law and the respective policies of this district. Failure to provide this information shall be reason for denying admission to the student under statute 79-217.

502.10 - ASSIGNMENT OF NEW STUDENTS TO CLASSES AND GRADE LEVELS

New students entering from schools recognized and approved by the Nebraska Department of Education will initially be placed in grades and classes on the basis of their grade placement/credits in the school from which they are transferring. The district administration, through academic achievement tests and other evaluation measures as necessary, will determine the appropriate grade level/credit status of students transferring from schools that have not been approved by the state department of education.

Previous high school work will be validated for a high school student by successfully completing a higher level unit in this district's high school for every unit completed in a non-accredited high school; i.e., completion of a second unit mathematics would validate the mathematics credit transferred. If no successive course work is pursued to validate the credit, similar or equivalent work will be evaluated at the discretion of the principal. Pupils will be assigned to the grade level in elementary and middle schools, or be enrolled in classes recommended by the principal consistent with state guidelines, the recommendations of teachers, through academic achievement tests and other evaluation measures. 503.01 - COMPULSORY ATTENDANCE

Any child who will reach six years of age prior to January 1 of the current year and who has not reached eighteen years of age shall meet the requirements of mandatory school attendance. Any such child shall attend the academic program on a regular basis, unless a written request to drop the child from the school rolls is made by the parent, guardian or other person having charge, control or custody of the child.

Any child of mandatory attendance age must by law regularly attend a public, private, denominational, parochial school or a combination of such schools not less than the entire school term of the school(s) which the child attends. This does not apply to a child who has obtained a high school diploma or received a General Equivalency Diploma, completed the program of instruction offered by a non-accredited or non-approved school, has reached the age of 18, or who is at least 16 years old and whose parent or guardian has withdrawn the child from school in the manner prescribed by state statute.

Excusal from the "fulltime" requirement of the compulsory education law can be granted by the superintendent for a child between 14 and 16 years of age having completed the work of the eighth grade when legal employment due to necessity has been obtained by the student and such a request has been made by a parent/guardian.

Withdrawal To Age 6

The parent/guardian of any child who will not reach six years of age prior to January 1 of the current school year and who is enrolled, may discontinue that enrollment according to procedures provided by the district.

Minimum Age

The district will not admit any child into kindergarten unless the child will reach the age of five years on or before July 31, except as follows:

1. the board shall admit a child who will reach the age of five years by October 15 if;
 - a. the parent provides an affidavit stating that the child attended kindergarten in another district, or
 - b. the family will be relocating to another district that allows admission within the current year, or
 - c. the child is capable of carrying the work of kindergarten which can be demonstrated through recognized assessment procedures approved by the board. Each school board shall approve and make available a recognized assessment procedure for determining if a child is capable of carrying the work of kindergarten.

The district will use the Developmental Indicators for the Assessment of Learning (DIAL-4) to meet the requirement for a recognized assessment procedure to determine if a child not 5 years of age on or before October 15 of the current year is capable of carrying the work of kindergarten. The board shall update these procedures as the board deems appropriate.

Early Withdrawal at Age Sixteen

A person who has legal or actual charge or control of a child who is at least sixteen years of age may withdraw the child from school if an exit interview is conducted as required below, or if a signed notarized release form is filed with the Commissioner of Education as required by law for a child enrolled in a school that elects not to meet accreditation or approval requirements.

The exit interview shall be conducted at the time and place selected by the superintendent or the superintendent's designee upon receiving the written request of any person who has legal or actual charge or control of a child who is at least sixteen years of age if the child is enrolled in a school operated by the school district or resides in the school district and is enrolled in a private, denominational, or parochial school.

The exit interview shall be personally attended by:

- The child, unless the withdrawal is being requested due to an illness of the child making attendance at the exit interview impossible or impracticable;
- the person who has legal or actual charge or control of the child who requested the exit interview;
- the superintendent or the superintendent's designee;
- the child's principal or the principal's designee if the child at the time of the exit interview is enrolled in a school operated by the school district; and
- any other person requested by any of the required parties who agrees to attend the exit interview and is available at the time designated for the exit interview which may include other school district personnel or the child's principal or such principal's designee if the child is enrolled in a private, denominational, or parochial school.

At the exit interview, the person making the written request shall present evidence that the person has legal or actual charge or control of the child and that the child would be withdrawing due to either:

- a) financial hardships requiring the child to be employed to support the child's family or one or more dependents of the child, or
- b) an illness of the child making attendance impossible or impracticable.

The superintendent or superintendent's designee shall identify all known alternative educational opportunities, including vocational courses of study, that are available to the child in the school district and how withdrawing from school is likely to reduce potential future earnings for the child and increase the likelihood of the child being unemployed in the future. Any other relevant information may be presented and discussed by any of the parties in attendance.

At the conclusion of the exit interview, the person making the written request may sign the withdrawal form provided by the school district agreeing to the withdrawal of the child or may rescind the written request for the withdrawal.

Any withdrawal form signed by the person making the written request shall be valid only if:

- a) the child signs the form unless the withdrawal is being requested due to an illness of the child making attendance at the exit interview impossible or impracticable, and
- b) the superintendent or superintendent's designee signs the form acknowledging that the interview was held, the required information was provided and discussed at the interview, and, in the opinion of the superintendent or the superintendent's designee, the person making the written request does in fact have legal or actual charge or control of the child and the child is experiencing either:
 - 1) financial hardships requiring the child to be employed to support the child's family or dependents of the child, or
 - 2) an illness making attendance impossible or impracticable.

503.03 - STUDENT ABSENCES EXCUSED

Regular attendance by students is essential for students to obtain the maximum opportunities from the education program. Parents and students alike are encouraged to ensure an absence from school is a necessary absence. Students shall attend school unless excused by the principal.

Student absences approved by the principal shall be excused absences. Excused absences including documented illness shall count as days in attendance for purposes of addressing excessive absenteeism.

Students whose absences are approved shall make up the work missed and receive full credit for the missed school work, within guidelines of the student handbook. It shall be the responsibility of the student to initiate a procedure with the student's teacher to complete the work missed.

Students who wish to participate in school sponsored activities must attend school for at least one half day the day of the activity unless permission has been given by the principal for the student to be absent.

It shall be the responsibility of the parent to notify the student's attendance center as soon as the parent knows the student will not be attending school on that day. The principal may request evidence or written verification of the student's reason for absence, including a satisfactory explanation for the absence of a pupil for all or any part of the school day. The explanation may be obtained in person, by telephone, or in writing. The only justifiable absences are those listed below under justifiable.

Students continually absent without sufficient cause may be suspended from school. The responsibility for the attendance of the child in school is fixed by law, upon the parents. It will be the duty of the school to inform parents of pupils' non-attendance and report the continuous non-attendance (excess of 5 days per quarter) to the county attorney. The superintendent of schools is the official truant officer.

Types of Absences:

Justifiable: These absences are due to illness of the student, death in the family, a doctor or dentist appointment, or whenever the principal considers that exception from attendance is in the best interest of the student.

Unexcused Absences: These absences may occur with the prior knowledge and approval of the parents, but the reasons are not acceptable to the school to allow for an excused absence.

Truancy: Absences that suggest a willful and premeditated violation of attendance regulations for pupils.

Students will not receive grades for classes missed. Parents give the reasons for absences. However, by law, only authorized school authorities can excuse students from school.

It shall be the responsibility of the superintendent, in conjunction with the principal, to implement this policy.

503.03R1 - GUIDELINES FOR HANDLING ABSENCES AND TARDINESS

When it is necessary for a student to be absent for any reason, the parent or guardian of the student should call the school office no later than 9:00 am to verify the reason for the absence. If no phone call is received by the office, the student will be required to bring a note explaining the reason for the absence. This note must be dated and signed by a parent or guardian. If you forget your excuse, you will be asked to phone your parent to verify the reason for the absence to the principal or the secretary. If no phone call or note is received by the office, the absence will be considered truancy.

When a student returns from an absence, he/she shall report to the office for an admit slip before returning to any of their classes. If the student knows they are going to be absent ahead of time, this must be taken care of before the date(s) they will be absent and every effort must be made to make up any work ahead of time. Students missing work due to absences will have 2 days to make up work before a "0" is entered however, a grade will be entered when the work is completed/turned in so long as the work is in prior to the end of the quarter. Example: If a student misses Monday, the work is due by the end of the day on Wednesday. If a student misses Monday and Tuesday, all work is due by the end of the day on Thursday. If the student misses Monday, Tuesday, and Wednesday, all work is due by the end of the day on Friday.

When the student knows he/she is going to be absent or the absence is prearranged, all effort should be made to complete and turn in all assignments he/she will miss prior to the date of the absence. If the student does not complete the work in the required amount of time, he/she will not be given credit for the assignments that are not completed and turned in to the teacher. The student and or the student's parent/guardian may request that a homework sheet be completed and a parent/guardian may pick up the work so the student can do the work at home. If this is not possible, the student and teacher will make arrangements for the student to make up the work within the required time.

TARDINESS: A student should be in the classroom and ready for class to start at the appropriate time. If the student is tardy for class for whatever reason, the teacher will report the student tardy and assign corrective measures as necessary; however, students who are consistently tardy may be referred to the office and will make up the time missed.

Students must establish habits that allow them to be to school and all classes on time and with all necessary materials. The purpose of this guideline is to assist students who are habitually late to class and/or school to be on time by assigning consequences for tardiness. Its purpose is not to punish students who are rarely late for school and/or class who have a legitimate reason from a parent or guardian for being late.

Students who are late to school or referred to the office for being late to class and the tardy is unexcused will be assigned the following consequences:

First Offense: The student will be required to make up the time missed after school on the day they were tardy or when it is convenient for the building principal.

Second Offense: The student will be required to make up the time missed X two after school on the day they were tardy or when it is convenient for the building principal.

Third Offense: The student will be required to make up the time missed X three after school on the day they were tardy or when it is convenient for the building principal.

Fourth Offense: The student will be required to make up the time missed X four after school on the day they were tardy or when it is convenient for the building principal. This does not include students who are late do to a bus problem.

Students who are consistently late for school or classes may be excluded from school.

503.04 - ADDRESSING BARRIERS TO ATTENDANCE

Regular attendance by the students at school is essential for students to obtain the maximum opportunities from the education program. Parents and students alike are encouraged to ensure an absence from school is a necessary absence. Students shall attend school unless excused by the principal of their attendance center. This policy, developed and annually reviewed in collaboration with the county attorney for the district's principal office location, is an attempt to address the barriers to student attendance. This policy shall include a provision indicating how the district and the county attorney will handle those cases in which excessive unexcused absences are not due to mental or physical illness and shall state the circumstances and number of other absences or hourly equivalent upon which the school shall render all services to address barriers to attendance.

Any superintendent, principal, teacher, or member of the school board who knows of any violation of the state school attendance laws (79-201) shall report that violation to the school attendance officer within 3 days.

The superintendent shall designate an attendance officer. The attendance officer will immediately investigate the report of any child who may be in violation of the state's compulsory attendance statutes.

If any student has exceeded the number of unexcused absences as defined in the student handbook, the school shall render all services to address barriers to attendance. These services shall include the following:

1. Verbal or written communication by school officials with the person or persons who have legal or actual charge or control of any child; and
2. A meeting or meetings between the school attendance officer, school social worker, a school administrator or designee, the person who has legal or actual control of the child, and the student (when appropriate) to address the barriers to attendance. The result of the meeting or meetings shall be to develop a collaborative plan to reduce barriers identified to improve regular attendance. The plan shall include, if agreed to by the person who is responsible for making educational decisions on behalf of the child, an educational evaluation to determine whether any intellectual, academic, physical, or social-emotional barriers are contributing factors to the lack of attendance. The plan shall also consider, but not be limited to:
 - (i) Illness related to physical or behavioral health of the child;
 - (ii) Educational counseling;
 - (iii) Referral to community agencies for economic services;
 - (iv) Family or individual counseling; and
 - (v) Assisting the family in working with other community services.

The school may report to the county attorney of the county in which the person resides when the school has documented the efforts it has made as required by statutes, that the collaborative plan to reduce barriers identified to improve regular attendance has not been successful, and that the child has been absent more than twenty days per school year. The school shall notify the child's family in writing prior to referring the child to the county attorney. Illness, either physical or mental, that makes attendance impossible or impracticable shall not be the basis for referral to the county attorney. However, the caregivers/person who is responsible for making educational decisions on behalf of the child is required to meet with the school to make sure the child is able to engage in school to the fullest extent possible and maintain their learning, and failure to engage with the school to meet the child's educational needs may result in a report being generated and referred to the County Attorney.

Students are subject to disciplinary action for excessive absenteeism including suspension and expulsion. It shall be within the discretion of the principal to determine, in light of the circumstances, whether a student may make up work missed because of excessive absenteeism. Disciplinary action for students receiving special education services will be assigned in accordance with the goals and objectives of the student's Individualized Education Program.

The superintendent shall report to the Commissioner of Education as directed by the commissioner regarding the number of and reason for any long-term suspension, expulsion, or excessive absenteeism of a student; referral of a student to the office of the county attorney for excessive absenteeism; or contacting of law enforcement officials other than school resource officers by the district relative to a student enrolled in the district. The superintendent shall report annually to the Commissioner the required data for the number of students who have dropped out of school.

It shall be the responsibility of the superintendent to implement this policy. The implementation may include regulations indicating the disciplinary action to be taken for excessive absenteeism.

503.09 - HOMELESS CHILDREN AND YOUTH

A homeless child or youth is defined as one who lacks a fixed, regular, and adequate nighttime residence. The term includes—

- (1) Children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals.
- (2) Children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings.
- (3) Children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
- (4) Migratory children (as defined in section 1309 of the ESSA of 1965, as amended), who qualify as homeless because they are living in circumstances described in this definition.

This definition includes both youth who are unaccompanied by families and those who are homeless with their families. The district will comply with state and federal law as it relates to homeless children or youth.

Assurances

1. The district adopts these policies and practices to ensure that homeless children and youths are not stigmatized or segregated on the basis of their status as homeless.
2. The district will designate an appropriate staff person as the Local Educational Liaison (LEL) for homeless children and youths, to carry out the duties in compliance with state and federal law.
3. The district adopts these policies and practices to ensure that transportation is provided, at the request of the parent or guardian (or in the case of an unaccompanied youth, the liaison), to and from the school of origin. The “school of origin” means the school that the child or youth attended when permanently housed or the school in which the child or youth was last enrolled. This will be done in accordance with the following, as applicable:
 - a. If the homeless child or youth continues to live in the district in which the school of origin is located, the child’s or youth’s transportation to and from the school of origin shall be provided or arranged by that district.
 - b. If the homeless child’s or youth’s living arrangements in the district served by the school of origin terminate and the child or youth, though continuing his or her education in the school of origin, begins living in an area served by another district, the school of origin and the local district in which the homeless child or youth is living shall agree upon a method to apportion the responsibility and costs for providing the child with transportation to and from the school of origin. If the two districts are unable to agree upon such method, the responsibility and costs for transportation shall be shared equally.

Comparable Services

Each homeless child or youth shall be provided services comparable to those offered to other students in the school in which the child is placed including transportation services, educational programs for children with disabilities and students with limited English proficiency, educational services for which the child or youth meets the eligibility criteria, such as Title I, school nutrition programs, programs in vocational and technical education, and programs for gifted and talented students.

Local Educational Liaison

The Superintendent shall serve as the district's Local Educational Liaison who will serve in tracking, monitoring and coordinating programs and activities for these children. The identity and duties of the LEL shall annually be provided to the NDE, school staff, providers and advocates of services to homeless persons, and to homeless students.

1. In general, the LEL shall coordinate:
 - a. the provision of services with local social services agencies, the NDE Homeless Education Liaison, community and school personnel, and other agencies or programs providing education, social and related services to homeless children and youths and their families; and
 - b. with other local educational agencies on interdistrict issues, such as transportation or transfer of school records.
2. Coordination purpose - The coordination shall be designed to:
 - a. ensure that homeless children and youths have access and reasonable proximity, to available education and related support services; and
 - b. raise the awareness of school personnel and service providers of the effects of short-term stays in a shelter and other challenges associated with homelessness.
3. The LEL shall receive appropriate time and training to carry out the duties required by law and this policy, and ensure that:
 - a. homeless children and youths are identified by school personnel and through coordination activities with other entities and agencies;
 - b. homeless children and youths enroll in schools of the district, which includes attending classes and participating fully in school activities, and have a full and equal opportunity to meet the same challenging State academic standards as other children and youths;
 - c. homeless families, children, and youths receive educational services for which such families, children, and youths are eligible, and referrals to health care services, dental services, mental health services, and other appropriate services;
 - d. the parents or guardians of homeless children and youths are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children;
 - e. receive individualized counseling from counselors to prepare and improve their readiness for college, including college selection, application, financial aid, and on-campus supports;
 - f. unaccompanied youths are informed of their status as independent students under the Higher Education Act of 1965 and may obtain assistance from the LEL

to receive verification of such status for purposes of the Free Application for Federal Student Aid;

- g. public notice of the educational rights of homeless children and youths is communicated where such children and youths receive services under the federal laws for homeless children, such as schools, family shelters, and soup kitchens;
- h. enrollment disputes are mediated in accordance state and federal law; and
- i. the parent or guardian of a homeless child or youth, and any unaccompanied youth, is fully informed of all transportation services, including transportation to the school of origin and is assisted in accessing transportation to the school that is selected for the youth.

Enrollment and Placement

The district will handle enrollment and placement of homeless children in compliance with state and federal law according to the child's or youth's best interest such that it shall:

1. continue the child's or youth's education in the school of origin for the duration of homelessness—
 - a. in any case in which a family becomes homeless between academic years or during an academic year; or
 - b. for the remainder of the academic year, if the child or youth becomes permanently housed during an academic year; or
2. enroll the child or youth in any public school that non-homeless students who live in the attendance area in which the child or youth is actually living are eligible to attend.
3. The choice regarding enrollment shall be made regardless of whether the child or youth lives with the homeless parents or has been temporarily placed elsewhere.
4. Issues of guardianship, proof of residency, and dress code requirements shall not be cause for delay or denial of enrollment. The district is not prohibited from requiring a parent or guardian of a homeless child to submit contact information.
5. If the school district is unable to determine the grade level of the student because of missing or incomplete records, the child will be placed in the appropriate grade level by the same procedures used for non-homeless children.

School Stability

In determining the best interest of the child or youth the district shall:

1. presume that keeping a homeless child or youth in the school of origin is in the child's or youth's best interest unless doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth.
2. The district must consider student-centered factors related to a child's or youth's best interest including the impact of mobility on achievement, education, health, and safety, giving priority to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth.
3. If the district determines that it is not in a child's or youth's best interest to attend the school of origin, or the school requested by the parent, guardian, or unaccompanied

youth, it must provide a written explanation of the reasons for its determination, in a manner and form that is understandable.

Enrollment Disputes

The dispute procedure must be made available for resolving disputes over eligibility, as well as school selection or enrollment. If a dispute arises over school selection or enrollment in a school:

1. the district shall immediately provide the child's parent or guardian or, in the case of an unaccompanied youth, the youth a written explanation of the decision made regarding the school selection including the right to appeal the decision. It shall be provided in a manner and form understandable to such parent, guardian, or unaccompanied youth and include the LEL contact information. The child or youth shall be immediately admitted to the school in which enrollment is sought, pending resolution of the dispute. Unaccompanied youths shall be assisted by the LEL in enrolling immediately.
2. Within thirty (30) days of receipt of the initial complaint, the LEL shall carry out the dispute resolution process in accordance with 92 NEC 19-005.002
3. The parent/guardian (or student, if applicable) may file a written appeal of the decision to the Nebraska Commissioner of Education. The Commissioner or designee may file a written response to the appeal within fifteen (15) calendar days of receipt of the appeal.
4. Within thirty (30) days of receipt of the Commissioner's decision, the parent/guardian (or student, if applicable) may file a written appeal of the decision with the State Board of Education and shall be governed by 92 NAC Rule 61.

Records

Any record ordinarily kept by the school, including immunization or medical records, academic records, birth certificates, guardianship records, and evaluations for special services or programs, regarding each homeless child or youth shall be maintained:

1. so that the records are available, in a timely fashion, when a child or youth enters a new school or school district;
2. the district will treat the student's homeless status as a Student Education Record, not deemed to be directory information; and
3. in a manner consistent with the Federal Education Rights and Privacy Act.

The LEL shall document the number of homeless children and youths receiving services, and maintain financial records regarding any federal funds used for providing such services.

Immunization Requirements

Homeless students will not be denied enrollment for lack of immunization records. The school district will make a reasonable effort to locate immunization records from the information provided or will assist the student in obtaining the necessary immunizations. Permanent exemptions for homeless students from the immunization requirement in this policy will be allowed only for reasons in accordance with the law.

Review and Revision

The district shall review and revise any policies that may act as barriers to the enrollment of homeless children and youths in the district. In reviewing and revising such policies, consideration shall be given to issues concerning transportation, immunization, residency, birth certificates, school records and other documentation, and guardianship. Special attention shall be given to ensuring the enrollment and attendance of homeless children and youths who are not currently attending school.

504.01 - STUDENT DUE PROCESS RIGHTS

Student complaints and grievances regarding board policy or administrative regulations and other matters should be addressed to the student's specific teacher, activity sponsor or other certified employee, other than the administration, for resolution of the complaint. It is the goal of the board to resolve student complaints at the lowest organizational level.

All students will be afforded due process as guaranteed by constitutional provisions. The process will be in accordance with state laws as well as with the provisions outlined in the Board's policies and procedures on student suspension and student expulsion. Rules for student conduct and appeal procedures will also be published in the student handbook.

If the complaint cannot be resolved by a certified employee, the student may discuss the matter with the principal within 5 days of the employee's decision. If the matter cannot be resolved by the principal, the student may discuss it with the superintendent within 5 days after speaking with the principal.

If the matter is not satisfactorily resolved by the superintendent, the student may ask to have the matter placed on the board agenda of a regularly scheduled board meeting in compliance with board policy. However, the board will only directly consider appeals dealing with policies, procedures and programs. Any appeals involving issues with employees or disciplining of specific students will be passed on to the board's legal counsel to determine whether district policies and procedures were followed by the administrator in attempting to resolve the conflict.

504.03 - STUDENT CONDUCT

The board believes inappropriate student conduct causes serious disruption to the learning environment, interferes with the rights of others, and threatens the health and safety of students, employees and the public. The Superintendent and staff will develop and implement age-appropriate student codes of conduct to facilitate the educational process.

Students shall conduct themselves in a manner fitting to their age level and maturity and with respect and consideration for the rights of others while on school district property or on property within the jurisdiction of the school district. This policy will also apply while on school owned, operated or chartered transportation; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and educational processes of the school district.

Students who violate this policy and the administrative regulations supporting it will be subject to disciplinary measures including, but not limited to, removal from the classroom, detention, suspension, probation and expulsion. The codes of conduct will include measures to prevent or discourage behavior which interferes with the educational program, behavior which disrupts the orderly and efficient operation of the school or the functioning of school activities, behavior which interferes with the maintenance of a learning environment, behavior that is violent or destructive, or behavior which interferes with the rights of other students to pursue their education. Procedures will be available to allow rights of due process for all students.

This disciplinary process is designed to create the expectation that the degree of discipline imposed by the school will be proportionate to the severity of the behavior of the particular student, the previous discipline history of the student and other relevant factors. It will also include parental involvement processes designed to enable parents, guardians, teachers and school administrators to work together to improve and enhance appropriate student behavior and academic performance. All student codes of conduct shall be submitted to the board for approval or review.

The code of conduct will be included in the student handbook, and a parent/guardian will sign and promptly return an acknowledgement of receipt of the handbook which specifically mentions the student code of conduct.

504.04 - STUDENT CONDUCT ON BUSES

The privilege of riding a school bus is contingent upon a student's good behavior and observance of established regulations for student conduct both at bus stops and onboard buses. Since bus transportation is provided to assist the education program, the board shall require students to conduct themselves on the bus in a manner consistent with established standards for classroom behavior.

The driver of a school bus shall be responsible for safety of the students on the bus, both during the ride and while students are entering or leaving the vehicle. Therefore, it is the bus driver's duty to notify the supervisor of transportation or the principal of the school involved if any student persists in violating the established rules of conduct.

After due warning has been given to the student and to parents/guardians, the principal may withhold from the student the privilege of riding the school bus. In such cases, the parents of the children involved will be responsible for seeing that their children get to and from school safely.

The student may also face detention, suspension or expulsion, in accordance with established policies, for flagrant violation of school bus rider conduct regulations or conduct detrimental to the safe operation of the bus.

504.04R1 - GUIDELINES FOR STUDENT CONDUCT ON BUSES

Student Conduct on School Transportation Safety of pupil passengers is primary; this overrides all other considerations.

Pupils must be well-behaved in all ways and must follow the following rules:

1. Under direction of the driver each student is to be assigned a seat and held responsible for that seat. Students in rear seats may be permitted to move forward to a second assigned seat for added comfort on the part of the route where the passenger load is lightened.
2. Pupils must be on time; the bus can wait only one minute for those who are tardy.
3. If the pupil is not going to ride the bus, he/she should contact the driver so he/she will know beforehand.
4. Unnecessary conversation with the driver is prohibited.
5. Outside of ordinary conversation, classroom conduct is to be observed by the students. Any pupil who is guilty of unbecoming conduct, of using inappropriate language and/or of abusing or casting reflections upon the driver or upon other pupils forfeits the right to ride the bus.
6. Pupils must not throw waste paper or other rubbish on the floor of the bus.
7. No pupil will at any time extend arms or head out of bus windows.
8. Pupils must not get on or off or move about within the bus while it is in motion.
9. When leaving the bus, pupils crossing a road must look both ways and make sure they can cross safely.
10. The driver is in full charge of the bus and pupils. Pupils are requested to comply promptly, cheerfully and fully with his/her requests.
11. If monitors or patrols are on duty, pupils must obey and respect their orders.
12. Any damage to the bus is to be reported at once to the driver. In case of pupil misbehavior and failure to cooperate with the driver, the superintendent or principal shall be informed. In case of continued misbehavior, the pupil may be denied transportation until a satisfactory solution is worked out with the parents of the pupil. In no case are pupils to be discharged indiscriminately from buses for misbehavior; they are to be discharged at the regular discharge points only.

504.06 - STUDENT APPEARANCE

The board believes inappropriate student appearance causes material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees and visitors.

Students are expected to adhere to standards of cleanliness, grooming and dress that are compatible with the requirements of a good learning environment. The standards will be those generally acceptable to the community as appropriate in a school setting.

The board expects students to be clean and wellgroomed and wear clothes in good repair and appropriate for the time, place and occasion. Clothing or other apparel promoting products illegal for use by minors and clothing displaying obscene material, profanity, or reference to prohibited conduct are disallowed. While the primary responsibility for appearance lies with the students and their parents, appearance disruptive to the education program will not be tolerated. When, in the judgment of a principal, a student's appearance or mode of dress disrupts the educational process or constitutes a threat to health or safety, the student may be required to make modifications.

A student who is a member of an indigenous tribe of the United States or another country may wear tribal regalia in any public or private location on the school grounds or at any school function where the person is otherwise authorized to be as long as the tribal regalia does not interfere with the educational process and is not detrimental to the health or safety of the student or another person.

Hazing or initiation by any school organizations, groups, clubs, teams or individuals are prohibited unless specifically approved by the administration. Anyone engaging in hazing or initiation behavior will be subject to disciplinary action up to and including expulsion.

Hazing is any activity by which a person intentionally or recklessly endangers the physical or mental health or safety of an individual for the purpose of initiation into, admission into, affiliation with, or continued membership with any school organization. Such hazing activity includes whipping, beating, branding, an act of sexual penetration, an exposure of the genitals of the body done with intent to affront or alarm any person, a lewd fondling or caressing of the body of another person, forced and prolonged calisthenics, prolonged exposure to the elements, forced consumption of any food, liquor, beverage, drug, or harmful substance not generally intended for human consumption, prolonged sleep deprivation, or any brutal treatment or the performance of any unlawful act which endangers the physical or mental health or safety of any person or the coercing of any such activity.

The Board of Education prohibits the organization of school sponsored fraternities, sororities or secret organizations wherein membership is determined by members themselves rather than on the basis of free choice. The Board considers those organizations or memberships in those organizations detrimental to the good conduct and discipline of the school. Interference with the instructional program of the district by those groups will not be condoned, and no organizational activities are permitted under the sponsorship of the school district or its personnel.

In addition, the use of hand signals, graffiti, or the presence of any apparel, jewelry, accessory, or manner of grooming which, by virtue of its color, arrangement, trademark, symbol, or any other attribute which indicates or implies membership or affiliation with such a group, is disruptive of a positive learning environment and will not be tolerated.

The board believes such illegal, unauthorized or contraband materials generally cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees, or visitors.

Violation of this policy by students will result in disciplinary action including suspension or expulsion. Use, purchase or being in possession of cigarettes, tobacco or tobacco products for those under the age of nineteen, may be reported to the local law enforcement authorities. - A requirement that parents and students be given a copy of the standards of conduct and the statement of disciplinary sanctions required; and

504.16 - SEARCHES, SEIZURES AND ARRESTS

School district property is held in public trust by the board. School district authorities may, without a search warrant, search students or protected student areas based on a reasonable and definable suspicion that a school district policy, rule, regulation or law has been violated.

The search shall be in a manner reasonable in scope to maintain order and discipline in the schools, promote the educational environment, and protect the safety and welfare of students, employees and visitors to the school district facilities. The furnishing of a locker, desk or other facility or space owned by the school and provided as a courtesy to a student, even if the student provides the lock for it, shall not create a protected student area and shall not give rise to an expectation of privacy with respect to the locker, desk, or other facility.

School authorities may seize any illegal, unauthorized or contraband materials discovered in the search. Items of contraband may include, but are not limited to, nonprescription controlled substances, marijuana, cocaine, amphetamines, barbiturates, apparatus used for controlled substances, alcoholic beverages, tobacco, weapons, explosives, poisons, and stolen property and dangerous objects as defined in Policy 504.11. Such items are not to be possessed by a student without specific permission of the building principal while they are on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated transportation; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district.

Possession of such items will be grounds for disciplinary action including suspension or expulsion and may be reported to local law enforcement officials. The board believes that illegal, unauthorized or contraband materials may cause material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees, or visitors on the school district premises or property within the jurisdiction of the school district.

The superintendent or building principal shall only release minor students into the custody of a law enforcement officer upon presentation of a court order or warrant for the student's arrest, or under conditions for temporary custody of a juvenile without a warrant as provided by state statutes.

The principal or designee will attempt to notify the parent/guardian or responsible relative prior to the student's release and the place to which the student is reportedly to be taken, except in cases of child abuse.

It shall be the responsibility of the superintendent, in conjunction with the administrative team, to implement this policy.

Searches within the school, on school grounds, or at school sanctioned activities will be done by an administrator or designee when there are circumstances which would cause a person to have reasonable suspicion to believe that the search of a particular person, place, or thing will lead to the discovery of:

1. Evidence of a violation of the student behavior guidelines contained in the Board of Education policies manual; federal, state, or local laws; or the student handbook.
 2. Anything that, because of its presence, presents an immediate danger of physical harm or illness to any person.
- A. Locker/Desk/Storage Area Searches: All lockers and other storage areas on school property remain the property of the Hemingford Public Schools. Lockers and storage areas are provided for the use of the students and are subject to inspection, access for maintenance, and search pursuant to this policy. No student shall lock or otherwise impede access to any locker or storage area except with a lock approved by the principal of the school in which the locker or storage area is located. Unapproved locks or locks which cannot be open at the time of the search will be removed and destroyed in the process, if necessary.
1. The principal, a member of the administrative staff, or a designated official will search a locker and its contents when the person conducting the search has reasonable suspicion to conduct the search. More extensive searches of the person of a student than those enumerated above shall be conducted in a private room by a person of the same sex as the student being searched and witnessed by one other person of the same sex as the person being searched. Searches of the person of a student, which require removal of clothing other than a coat or jacket, shall be conducted only upon grounds of probable cause and

shall be referred to a law enforcement officer (in accordance the subsection of this policy entitled "Involvement of Law Enforcement Officers"). School personnel will not participate in such searches.

- C. Motor Vehicle Searches: The principal, a member of the administrative staff, or an official designated in writing by the principal, may search a vehicle on the school premises when he/she has reasonable suspicion to believe that alcohol or controlled substances in possession of the vehicle owner in violation of this policy are contained therein.
- D. Custody Of Evidence: Anything found in the course of a search conducted in accordance with this section, which is evidence of a violation of the student conduct standards, may be:
 - 1. Seized and admitted as evidence in any suspension or expulsion proceeding if it is tagged for identification at the time it is seized and kept in a secure place by the principal or the principal's designee until it is presented at the hearing.
 - 2. Returned to the parent of the student from whom it was seized if personal property.
 - 3. Turned over to a law enforcement officer.
- E. Requests from law enforcement officers and from persons other than parents, school district officials, and employees to interview students shall be made through the principal's office. Upon receiving a request, it shall be the responsibility of the principal to determine whether the request will be granted. Generally, prior to granting a request, the principal shall attempt to contact the parents to inform them of the request and to ask them to be present.

If a child abuse investigator wishes to interview a student, the principal will defer to the investigator's judgment as to whether the student should be interviewed independently from the student's parents, whether the school is the most appropriate setting for the interview, and who will be present during the interview. An administrator or designee will be present during the interview.

This policy is in effect while students are on school grounds, school district property, or on property within the jurisdiction of the school district; while on schoolowned and/or schooloperated transportation; while attending or engaged in school activities; and while away from school grounds if the misconduct directly affects the good order, efficient management and welfare of the school district.

The district will promptly and reasonably investigate allegations of harassment. The Compliance Coordinator or building principal will be responsible for receiving all complaints by students alleging harassment.

Every report of alleged violations of this policy that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing investigation of this policy, potential issues of sexual harassment or discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged sexual harassment or discrimination as well as the incidents of alleged violations of this policy.

Upon receiving a complaint, the investigator shall confer with the complainant to obtain an understanding and a statement of the facts. It shall be the responsibility of the investigator to promptly and reasonably investigate claims of harassment and to pass the findings on to the superintendent who shall complete such further investigation as deemed necessary and take such final action as appropriate. It is the intention of the district to complete its investigation within ten (10) working days after receiving a complaint unless extenuating circumstances such as unavailability of a witness or needing additional time because of the complexity of the investigation or the need to involve outside experts. The extended timeframe for investigation due to extenuating circumstances shall not exceed ten (10) days without the consent of the complainant, unless the alleged victim agrees to a longer time limit. Information regarding an investigation of harassment shall be confidential to the extent possible, and those individuals who are involved in the investigation shall not discuss information regarding the complaint outside the investigation process.

Retaliation against an individual because the individual has filed a harassment complaint or assisted or participated in a harassment investigation or proceeding is also prohibited. A student who is found to have retaliated against an individual in violation of this policy will be subject to discipline, up to and including, suspension and expulsion.

It shall also be the responsibility of the superintendent, in conjunction with the investigator and principals, to develop administrative rules regarding this policy. Students or individuals who feel that they have been harassed by other students should:

- Communicate to the harasser that the individual expects the behavior to stop, if the individual is comfortable doing so. If the individual needs assistance communicating with the harasser, he/she should ask a teacher, counselor or principal to help.
- If the harassment does not stop, or the individual does not feel comfortable confronting the harasser, he/she should:
 - tell a teacher, counselor or principal; and
 - write down exactly what happened, keep a copy and give another copy to the teacher, counselor or principal including;
 - what, when and where it happened;
 - who was involved;
 - exactly what was said or what the harasser did;
 - witnesses to the harassment;

Upon completion of the investigation, the investigator shall make written findings and conclusions as to each allegation of harassment and report the findings and conclusions to the principal. The investigator will outline the findings of the investigation to the principal.

Resolution of the Complaint

Following receipt of the investigator's report, the principal may investigate further, if deemed necessary, and make a determination of the appropriate next step which may include discipline, up to and including, suspension and expulsion.

Prior to the determination of the appropriate remedial action, the principal may, at the principal's discretion, interview the complainant and the alleged harasser. The principal shall file a written report closing the case and documenting any disciplinary action taken or any other action taken in response to the complaint. The complainant, the alleged harasser and the investigator shall receive notice as to the conclusion of the investigation.

All students have the right to attend Hemingford Public Schools free from verbal and physical harassment. The purpose of the harassment program is to protect students and staff from those who have shown themselves to be either unable or unwilling to comply with school guidelines regarding the treatment of others.

Step One - The first time school personnel is notified of a possible student harassment situation, the building principal will be notified and the situation will be investigated. If it is determined that harassment has occurred, the accused student and their parent/guardian will be notified that such a complaint has been filed and the consequences for this kind of behavior in the future will be clearly outlined for the student. (Written warning, and/or levels one or two) If it is determined that there is no basis for the harassment accusation, no consequences will be assigned. If the building principal determines that a student is intentionally making false accusation against another student, appropriate consequences will be assigned.

Step Two - The second time school personnel is notified of a possible student harassment situation, the building principal will be notified and the situation will be investigated. If it is determined that harassment has occurred, consequences will be assigned and the student's parent/guardian will be notified. The student will have a written warning placed in his/her disciplinary file and consequences for this kind of behavior in the future will be clearly outlined.

Step Three - If the school authorities determine that a student is not willing to stop harassing other students, the school may assign the student to one of the program levels. The parent/guardian will be notified and consequences for this kind of behavior in the future will be clearly outlined. Elementary students may be reassigned to another class.

Step Four - If the student fails to respond positively to the corrective measure of the harassment program, the student will be suspended from school for a minimum of five days, up to expulsion. School authorities will determine the action necessary to insure a safe learning environment for all students.

Harassment Program Levels

Level One - The student will be assigned to this level for a minimum of ten school days.

2. The student will eat lunch on campus at a place designated by the building principal. Elementary students will remain with the duty teacher during recess.

Level Two - The student will be assigned to this level for a minimum of ten school days.

1. The student will report to the office no later than 8:00 am each morning.
2. The student will eat lunch on campus at a place designated by the building principal. Elementary students will not be allowed to go to recess and will remain in the office during recess.
3. The student will remain in class at the end of each period under the direct supervision of the classroom teacher during passing time. The teacher will dismiss the student at the end of passing time and the student will have three minutes to get to his/her next class. Elementary students may be seated separately from their classmates throughout the school day.
4. The student will report to the office at the bus bell and will remain until 3:40 PM. This will allow all other students the opportunity to leave school grounds in safety.
5. Bus students will lose the privilege to ride the bus for an appropriate length of time determined by the school.

The intent of the Harassment Program is to allow students to remain in school as much as possible. However, failure to comply with these guidelines will result in more severe consequence.

- e. Music instruments will be provided to those students who qualify, but the district shall not be obligated to provide a particular type of musical instrument for any student.

Students, parents, or guardians may submit waiver applications to the office of the superintendent. A student does not have to participate in the free or reduced hot lunch program to request a waiver but does have to meet the income guidelines for that program. Completed waiver applications must be completed prior to the first practice of the extra-curricular activity, or first class period of the elective music course.

A. Personal and Consumable Items:

The District will make items necessary for students to benefit from courses available. Students may wish to purchase their own uniforms for flag corps and swing choir so their uniforms may be distinctive from previous year's groups.

Students participating in extra-curricular activities may be required to purchase specialized equipment or clothing. District #10 does not charge for participation in extracurricular activities. The District will furnish materials or supplies for course projects that are required to be completed as a requirement of the course. Supplies or materials for optional projects in art or vocational projects are the responsibility of the student.

E. Music Instruments:

The district may require students to furnish musical instruments for participation in optional music courses that are not extracurricular activities. Students qualifying for free or reduced-price lunches shall be provided with a musical instrument of the school's choice.

Membership in these organizations is purely voluntary and any fees, costs, materials, or clothing are the responsibility of the student or the organization. These organizations may choose to fund their activities through fundraising. Students who belong to these organizations are expected to participate in the fundraising activities of the organization in order to participate in the activities supported by the fundraising. The Board of Education must approve fundraising activities sponsored by student organizations.

Students may participate in activities that are not sponsored by the school or are traditionally totally supported by fundraising activities.

Summer band trips are sponsored entirely by fundraising. District #10 is not a sponsor and provides no support.

World Stride is an activity supported partially by District #10 but all of the student costs to attend the Washington, D.C. trip is raised through fundraising activities. In the event the entire cost for

each student is not raised, students who qualify for free and reduced lunch may request a waiver for the amount of funds required of each student to attend.

I. Classes:

Students belong to classes, which by nature become an organization. The classes sponsor student activities such as prom and graduation. Dues are set by the students in each class on an annual basis. Students may choose not to belong to their class organization but by doing so relinquish their right to attend those events and activities their dues and fundraising projects support. Students who qualify for free and reduced-price lunches may request a waiver for their class dues. The phrase “post-secondary education costs” means tuition and other fees only associated with obtaining credit from a post-secondary educational institution. For a course in which students receive high school credit and for which the student may also receive post-secondary education credit, the course shall be offered without charge for tuition, transportation, books or other fees, except the tuition and fees associated with obtaining credits from a post-secondary educational institution. All fees associated with the post-secondary education credits are to be paid directly to the post-secondary educational institution.

K. Student Record Copy Charges:

504.20 - BULLYING PREVENTION

The board recognizes the negative impact that bullying has on student health, welfare, safety, and the school's learning environment and prohibits such behavior. Bullying is defined as any ongoing pattern of physical, verbal, or electronic abuse on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose by a school employee or his or her designee, at a designated school bus stop, or at school-sponsored activities or school-sponsored athletic events.

Bullying may constitute grounds for detention, suspension, expulsion or mandatory reassignment, subject to state and federal statutes and the district's student discipline and due process procedures.

Every report of alleged bullying that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing bullying investigation, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged bullying.

It shall be the responsibility of the superintendent to implement appropriate programs or procedures for the purpose of educating students regarding bullying prevention.

This policy shall be reviewed annually.

504.21 - DATING VIOLENCE PREVENTION

The board prohibits behavior that has a negative impact on student health, welfare, safety, and the school's learning environment. Incidents of dating violence will not be tolerated on school grounds, in district vehicles, or at school sponsored activities or school-sponsored athletic events.

Dating violence is defined as a pattern of behavior where one person uses threats of, or actually uses, physical, sexual, verbal, or emotional abuse to control his or her dating partner. Dating partner means any person, regardless of gender, involved in an intimate relationship with another person primarily characterized by the expectation of affectionate involvement whether casual, serious or long-term.

The district will provide appropriate training to staff and incorporate within its educational program age-appropriate dating violence education that shall include, but not be limited to, defining dating violence, recognizing dating violence warning signs, and identifying characteristics of healthy dating relationships.

Every report of alleged dating violence that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing dating violence investigation, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged dating violence.

This policy shall be published in the student handbook.

504.22 - STUDENT USE OF SOCIAL NETWORKS

Social networks refer to a group of websites and tools on the Internet which support collaboration and sharing of opinions, insights, experiences and perspectives. The content within them, and the functionality of that content, is managed and regulated by the user community itself and not the provider of the network or a third party institution. Typical examples of social networks are blogs, wikis, podcasts, message boards, and social networking sites themselves such as Facebook, MySpace, Twitter, LinkedIn and many others.

The district provides access to social networks strictly for educational purposes toward the support of the district's educational goals and allows their use only for the value they may provide in the context of assigned educational exercises. Students must follow these guidelines when using social networks:

- Any students using social networks must be directly supervised by a teacher or other staff member who is aware of and approves of their attempt to access such a site. Only sites not blocked by the district technology department may be used.
- Students shall not reveal their name or personally identifiable information to, or establish relationships on the Internet unless a parent or teacher has coordinated the communication.
- Students who utilize social networking for educational purposes shall be aware of and familiar with privacy options on the social networking site, and shall set those options to limit access to personal information to "friends" only.
- Students and parents shall be aware, however, that privacy options alone can never fully protect personal information. If a student shares personal information with "friends," those friends may share that information with others. With this in mind, students shall carefully consider what information is posted online.
- Photos posted on social networking sites as a part of educational exercises shall NOT contain other students. Permission, either spoken or in writing, should be granted from any adults before posting their pictures.
- Teachers and other adult staff have been advised NOT to "friend" students on social networking sites. Students are given the same advice toward teachers. Remember that teachers are ethically and legally bound to report any activity in which a student may be breaking the law or may be in danger of hurting him/herself or others.
- All policies and guidelines regarding student behavior in general apply when using social networks, including all guidelines under the district's Acceptable Use of Computers policy and all district rules relating to harassment, bullying and behavior disruptive to the educational environment.

All district nurses, teachers, counselors, school psychologists, administrators, school social workers, and any other appropriate personnel shall receive at least one hour of such training each year.

The training should include such topics as how to identify appropriate mental health services both within the school and also within the larger community, and when and how to refer youth and their families to those services.

The provisions of detention or an inschool suspension program for student violations of policies, rules and procedures shall provide principals with an additional alternative for dealing with disciplinary problems that occur in the schools. 505.03 - STUDENT DISCIPLINE

Student Discipline

A. Development of Uniform Discipline System. It shall be the responsibility of the Superintendent to develop and maintain a system of uniform discipline. The discipline which may be imposed includes actions which are determined to be reasonably necessary to aid the student, to further school purposes, or to prevent interference with the educational process, such as (without limitation) counseling and warning students, parent contacts and parent conferences, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling upon written consent of the parent or guardian, or in-school suspension. The discipline may also include out-of-school suspension (short-term or long-term) and expulsion.

1. Short-Term Suspension: Students may be excluded by the Principal or the Principal's designee from school or any school function for a period of up to five school days (short-term suspension) on the following grounds:

- a. Conduct that constitutes grounds for expulsion, whether the conduct occurs on or off school grounds; or
- b. Other violations of rules and standards of behavior adopted by the Board of Education or the administrative or teaching staff of the school, which occur on or off school grounds, if such conduct interferes with school purposes or there is a nexus between such conduct and school.

The following process will apply to short-term suspensions:

- a. The Principal or the Principal's designee will make a reasonable investigation of the facts and circumstances. A short-term suspension will be made upon a determination that the suspension is necessary to help any student, to further school purposes, or to prevent an interference with school purposes.
- b. Prior to commencement of the short-term suspension, the student will be given oral or written notice of the charges against the student. The student will be advised of what the student is accused of having done, an explanation of the evidence the authorities have, and be afforded an opportunity to explain the student's version of the facts.
- c. Within 24 hours or such additional time as is reasonably necessary, not to exceed an additional 48 hours, following the suspension, the Principal or administrator will send a written statement to the student and the student's parent or guardian describing the student's conduct, misconduct or violation of the rule or standard and the reasons for the action taken.

- d. An opportunity will be given to the student, and the student's parent or guardian, to have a conference with the Principal or administrator ordering the short-term suspension before or at the time the student returns to school. The Principal or administrator shall determine who in addition to the parent or guardian is to attend the conference. The Principal shall document their attempt to make a reasonable effort to hold a conference with the parent or guardian.
- e. A student who is on a short-term suspension shall not be permitted to be on school grounds without the express permission of the Principal.

2. Long-Term Suspension: A long-term suspension means an exclusion from school and any school functions for a period of more than five school days but less than twenty school days. A student who is on a long-term suspension shall not be permitted to be on school grounds without the express permission of the Principal. A notice will be given to the student and the parents/guardian when the Principal recommends a long-term suspension. The notice will include a description of the procedures for long-term suspension; the procedures will be those set forth in the Student Discipline Act.

3. Expulsion:

a. Meaning of Expulsion. Expulsion means exclusion from attendance in all schools, grounds and activities of or within the system for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred (a) within ten school days prior to the end of the first semester, in which case the expulsion shall remain in effect through the second semester, or (b) within ten school days prior to the end of the second semester, in which case the expulsion shall remain in effect for summer school and the first semester of the following school year, or (c) unless the expulsion is for conduct specified in these rules or in law as permitting or requiring a longer removal, in which case the expulsion shall remain in effect for the period specified therein. Such action may be modified or terminated by the school district at any time during the expulsion period. A student who has been expelled shall not be permitted to be on school grounds without the express permission of the Principal. A notice will be given to the student and the parents/guardian when the Principal recommends an expulsion. The notice will include a description of the procedures for expulsion; the procedures will be those set forth in the Student Discipline Act.

b. Suspensions Pending Hearing. When a notice of intent to discipline a student by long-term suspension, expulsion, or mandatory reassignment is filed with the superintendent, the student may be suspended by the principal until the date the long-term suspension, expulsion, or mandatory reassignment takes effect if the principal determines that the student must be suspended immediately to prevent or substantially reduce the risk of (a) interference with an educational function or school purpose or (b) a personal injury to the student himself or herself, other students, school employees, or school volunteers. If the student is suspended pending the outcome of the hearing, the student may complete classwork and homework, including, but not limited to,

examinations, missed during the period of suspension. During this period, the student will not be required to attend the alternative programs for expelled students in order to complete classwork or homework.

c. Summer Review. Any expulsion that will remain in effect during the first semester of the following school year will be automatically scheduled for review before the beginning of the school year in accordance with law.

d. Alternative Education: Students who are expelled may be offered an alternative education program that will enable the student to continue academic work for credit toward graduation. A student will not be required to attend the alternative education program in order to complete classwork and homework. In the event an alternative education program is not provided, a conference will be held with the parent, student, the Principal or another school representative assigned by the Principal, and a representative of a community organization that assists young people or that is involved with juvenile justice to develop a plan for the student in accordance with law.

e. Suspension of Enforcement of an Expulsion: Enforcement of an expulsion action may be suspended (i.e., “stayed”) for a period of not more than one full semester in addition to the balance of the semester in which the expulsion takes effect. As a condition of such suspended action, the student and parents will be required to sign a discipline agreement.

f. Students Subject to Juvenile or Court Probation. Prior to the readmission to school of any student who is less than nineteen years of age and who is subject to the supervision of a juvenile probation officer or an adult probation officer pursuant to the order of the District Court, County Court, or Juvenile Court, who chooses to meet conditions of probation by attending school, and who has previously been expelled from school, the Principal or the Principal’s designee shall meet with the student’s probation officer and assist in developing conditions of probation that will provide specific guidelines for behavior and consequences for misbehavior at school (including conduct on school grounds and conduct during an educational function or event off school grounds) as well as educational objectives that must be achieved. If the guidelines, consequences, and objectives provided by the Principal or the Principal’s designee are agreed to by the probation officer and the student, and the court permits the student to return to school under the agreed to conditions, the student may be permitted to return to school. The student may with proper consent, upon such return, be evaluated by the school for possible disabilities and may be referred for evaluation for possible placement in a special education program. The student may be expelled or otherwise disciplined for subsequent conduct as provided in Board policy and state statute.

g. Returning from Expulsion. At the conclusion of an expulsion, the District will reinstate the student and accept nonduplicative, grade-appropriate credits earned by the

student during the term of expulsion from any Nebraska accredited institution or institution accredited by one of the six regional accrediting bodies in the United States.

h. Exception for Pre-Kindergarten through Second Grade Students.

Notwithstanding the foregoing, no pre-kindergarten through second grade student may be suspended from school, unless the student brings a deadly weapon on school grounds, in a school vehicle, or to a school activity. Instead, the Principal or Principal's designee may implement alternative disciplinary measures on a case-by-case basis if a pre-kindergarten through second grade student engages in misconduct that would otherwise result in a short-term suspension. If a pre-kindergarten through second grade student brings a deadly weapon on school grounds, in a school vehicle, or to a school activity, then the student may be suspended or expelled in accordance with this Policy's disciplinary procedures.

4. Emergency Exclusion: A student may be excluded from school in the following circumstances:

- a. If the student has a dangerous communicable disease transmissible through normal school contacts and poses an imminent threat to the health or safety of the school community; or
- b. If the student's conduct presents a clear threat to the physical safety of himself, herself, or others, or is so extremely disruptive as to make temporary removal necessary to preserve the rights of other students to pursue an education.

Any emergency exclusion shall be based upon a clear factual situation warranting it and shall last no longer than is necessary to avoid the dangers described above.

If the emergency exclusion will be for five school days or less, the procedures for a short-term suspension shall be followed. If the Superintendent or his or her designee determines that an emergency exclusion shall extend beyond five days, a hearing is to be held and a final determination made within ten school days after the initial date of exclusion. Such procedures shall substantially comply with the procedures set forth in this policy for a long-term suspension or expulsion, and be modified only to the extent necessary to accomplish the hearing and determination within this shorter time period.

5. Other Forms of Student Discipline: Administrative and teaching personnel may also take actions regarding student behavior, other than removal of students from school, which are reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process. Such actions may include, but are not limited to, counseling of students, parent conferences, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling, psychological evaluation, or psychiatric evaluation upon the written consent of a parent or guardian to such counseling or evaluation. The actions may also include in-school suspensions. When in-school suspensions, after-school

assignments, or other disciplinary measures are assigned, the student is responsible for complying with such disciplinary measures. A failure to serve such assigned discipline as directed will serve as grounds for further discipline, up to expulsion from school.

B. Student Conduct Expectations. Students are not to engage in conduct which causes or which creates a reasonable likelihood that it will cause a substantial disruption in or material interference with any school function, activity or purpose or interfere with the health, safety, well being or rights of other students, staff or visitors.

C. Grounds for Short-Term Suspension, Long-Term Suspension, Expulsion or Mandatory Reassignment. The following conduct has been determined by the Board of Education to have the potential to seriously affect the health, safety or welfare of students, staff and other persons or to otherwise seriously interfere with the educational process. Such conduct constitutes grounds for long-term suspension, expulsion, or mandatory reassignment, and any other lesser forms of discipline. The conduct is subject to the consequence of long-term suspension, expulsion, or mandatory reassignment where it occurs on school grounds, in a vehicle owned, leased, or contracted by the school and being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or an employee's designee, or at a school-sponsored activity or athletic event.

1. Use of violence, force, coercion, threat, intimidation, or similar conduct in a manner that constitutes a substantial interference with school purposes;
2. Willfully causing or attempting to cause substantial damage to property, stealing or attempting to steal property of substantial value, or repeated damage or theft involving property;
3. Causing or attempting to cause personal injury to a school employee, to a school volunteer, or to any student. Personal injury caused by accident, self-defense, or other action undertaken on the reasonable belief that it was necessary to protect some other person shall not constitute a violation of this subdivision;
4. Threatening or intimidating any student for the purpose of or with the intent of obtaining money or anything of value from such student;
5. Knowingly possessing, handling, or transmitting any object or material that is ordinarily or generally considered a weapon (see also board policy on weapons and firearms);
6. Engaging in the unlawful possession, selling, dispensing, or use of a controlled substance or an imitation controlled substance, as defined in section 28-401, a substance represented to be a controlled substance, or alcoholic liquor as defined in section 53-103.02 or being under the influence of a controlled substance or alcoholic liquor (*note: the term "under the influence" for school purposes has a less strict meaning than it does under criminal law; for school purposes, the term means any level of impairment and includes even the odor of alcohol on the breath or person of a student; also, it includes being impaired by reason of the abuse of any material used as a stimulant*);

7. Public indecency as defined in section 28-806, except that this prohibition shall apply only to students at least twelve years of age but less than nineteen years of age;
8. Engaging in bullying as defined in section 79-2,137 and in these policies;
9. Sexually assaulting or attempting to sexually assault any person if a complaint has been filed by a prosecutor in a court of competent jurisdiction alleging that the student has sexually assaulted or attempted to sexually assault any person, including sexual assaults or attempted sexual assaults that occur off school grounds not at a school function, activity, or event. For purposes of this subdivision, sexual assault means sexual assault in the first degree as defined in section 28-319, sexual assault in the second degree as defined in section 28-320, sexual assault of a child in the second or third degree as defined in section 28-320.01, or sexual assault of a child in the first degree as defined in section 28-319.01, as such sections now provide or may hereafter from time to time be amended;
10. Engaging in any other activity forbidden by the laws of the State of Nebraska which activity constitutes a danger to other students or interferes with school purposes; or
11. A repeated violation of any of the following rules, or a single violation if the conduct amounts to a criminal act, if such violations constitute a substantial interference with school purposes:
 - a. The use of language, written or oral, or conduct, including gestures, which is profane or abusive to students or staff members. Profane or abusive language or conduct includes, but is not limited to, that which is commonly understood and intended to be derogatory toward a group or individual based upon race, sex, national origin, or religion;
 - b.  - j. Bullying which shall include cyber-bullying, defined as the use of the internet, including but not limited to social networking sites such as Facebook, cell phones and electronic devices (including earbuds) or other devices to send, post, or text message images and material intended to hurt or embarrass another person. This may include, but is not limited to; continuing to send emails to someone who has said they want no further contact with the sender; sending or posting threats, sexual remarks, or pejorative labels (i.e., hate speech); ganging up on victims by making them the subject of ridicule in forums, and posting false statements as fact intended to humiliate the victim; disclosure of personal data, such as the victim's real name, address, or school at websites or forums; posing as the identity of the victim for the purpose of publishing material in their name that defames or ridicules them; sending threatening and harassing text, instant messages or emails to the victims; and posting or sending rumors or gossip to instigate others to dislike and gang up on the target;
 - k. Violation of the district's computer acceptable computer use policy is subject to discipline, up to and including expulsion; and
 - l. Any other violation of a rule or regulation established by a school district staff member pursuant to authority delegated by the board.
12. Truancy or failure to attend assigned classes or assigned activities; or tardiness to school, assigned classes or assigned activities.
13. The use of language, written or oral, or conduct, including gestures, which is profane or abusive to students or staff members. Profane or abusive language or conduct includes, but is not limited to, that which is commonly understood and intended to be derogatory

toward a group or individual based upon race, gender, disability, national origin, or religion.

14. Dressing or grooming in a manner which is dangerous to the student's health and safety or a danger to the health and safety of others or repeated violations of the student dress and grooming standards; dressing, grooming, or engaging in speech that is lewd or indecent, vulgar or plainly offensive; dressing, grooming, or engaging in speech that school officials reasonably conclude will materially and substantially disrupt the work and discipline of the school; dressing, grooming, or engaging in speech that a reasonable observer would interpret as advocating illegal drug use.
15. Willfully violating the behavioral expectations for riding school buses or vehicles.
16. A student who engages in the following conduct shall be expelled for the remainder of the school year in which it took effect if the misconduct occurs during the first semester, and if the expulsion for such conduct takes place during the second semester, the expulsion shall remain in effect for the first semester of the following school year, with the condition that such action may be modified or terminated by the school district during the expulsion period on such terms as the administration may establish:
 - a. The knowing and intentional use of force in causing or attempting to cause personal injury to a school employee, school volunteer, or student, except if caused by accident, self-defense, or on the reasonable belief that the force used was necessary to protect some other person and the extent of force used was reasonably believed to be necessary, or
 - b. The knowing and intentional possession, use, or transmission of a dangerous weapon other than a firearm.
17. Knowingly and intentionally possessing, using, or transmitting a firearm on school grounds, in a school-owned or utilized vehicle, or during an educational function or event off school grounds, or at a school-sponsored activity or athletic event. This conduct shall result in an expulsion for one calendar year. "Firearm" means a firearm as defined in 18 U.S.C. 921, as that statute existed on January 1, 1995. That statute includes the following statement: "The term 'firearm' means (a) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (b) the frame or receiver of any such weapon; (c) any firearm muffler or firearm silencer; or (d) any destructive device." The Superintendent may modify such one year expulsion requirement on a case-by-case basis, provided that such modification is in writing.

Bringing a firearm or other dangerous weapon to school for any reason is discouraged; however, a student will not be subject to disciplinary action if the item is brought or possessed under the following conditions:

 - a. Prior written permission to bring the firearm or other dangerous weapon to school is obtained from the student's teacher, building administrator and parent.
 - b. The purpose of having the firearm or other dangerous weapon in school is for a legitimate educational function.
 - c. A plan for its transportation into and from the school, its storage while in the school building and how it will be displayed must be developed with the prior written approval by the teacher and building administrator. Such plan shall

require that such item will be in the possession of an adult staff member at all times except for such limited time as is necessary to fulfill the educational function.

- d. The firearm or other dangerous weapon shall be in an inoperable condition while it is on school grounds.

For purposes of this policy, the term “dangerous weapon” includes any personal safety or security device (such as tasers, mace and pepper spray). If a student desires to carry or possess a personal safety or security device, the student must obtain prior approval from the building principal before bringing such device on school grounds. If a student obtains prior approval from the building principal, the student must store the device during the school day in the student’s locker, in the main office or in another secure location designated by the building principal. A student shall not carry a personal safety or security device during the school day.

D. Additional Student Conduct Expectations and Grounds for Discipline. The following additional student conduct expectations are established. Failure to comply with such rules is grounds for disciplinary action. When such conduct occurs on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his or her designee, or at a school-sponsored activity or athletic event, the conduct is grounds for long-term suspension, expulsion or mandatory reassignment.

1. Student Appearance: Students are expected to dress in a way that is appropriate for the school setting. Students should not dress in a manner that is dangerous to the health and safety of anyone or interferes with the learning environment or teaching process in our school. Following is a list of examples of attire that will not be considered appropriate, such list is not exclusive and other forms of attire deemed inappropriate by the administration may be deemed inappropriate for the school setting:

- a. Clothing or jewelry that is gang-related
- b. Clothing that shows an inappropriate amount of bare skin or underwear (midriffs, spaghetti straps, sagging pants) or clothing that is too tight, revealing or baggy, or tops and bottoms that do not overlap or any material that is sheer or lightweight enough to be seen through, or otherwise of an appropriate size and fit so as to be revealing or drag on the ground
- c. Clothing or jewelry that advertises alcohol, tobacco, or illegal drugs
- d. Clothing or jewelry that could be used as a weapon (chains, spiked apparel) or that would encourage “horse-play” or that would damage property (e.g. cleats).
- e. Headwear including hats, caps, bandannas, hoodie hoods, scarves, and non-prescription glasses/sunglasses; Hats/headcover/glasses (none prescription) may be allowed under circumstances where a medical condition is present with approval of the building principal

- f. Clothing or jewelry which exhibits nudity, makes sexual references or carries lewd, indecent, or vulgar double meaning.
- g. Clothing or jewelry displaying words or images that carry double meanings or profanity (bad words) in writing, pictures or slogans.
- h. Visible body piercing (other than ears)
- i. Shorts of mid-thigh length, or longer, may be worn during the periods of daylight savings time only for K-6. Grades 7-12 may wear shorts that meet this guideline year-round.
- j. Costumes and/or clothing intended for entertaining or special occasions may only be worn on days approved by the building principal.

Consideration will be made for students who wear special clothing as required by religious beliefs, disability, or to convey a particularized message protected by law. The final decision regarding attire and grooming will be made by the Principal or Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school's guidelines, the student should contact the Principal for approval, and may also review such additional posting of prohibited items or grooming which may be available in the Principal's office.

Coaches, sponsors or teachers may have additional requirements for students who are in special lab classes, students who are participants in performing groups or students who are representing the school as part of an extracurricular activity program.

On a first offense of the dress code, the student may call home for proper apparel. If clothes cannot be brought to school, the student will be assigned to in-school suspension for the remainder of the day. Students will not be allowed to leave campus to change clothes. Continual violations of the dress code will result in more stringent disciplinary actions, up to expulsion. Further, in the event the dress code violation is determined to also violate other student conduct rules (e.g., public indecency, insubordination, expression of profanity, and the like), a first offense of the dress code may result in more stringent discipline, up to expulsion.

2. Academic Integrity.

a. Policy Statement: Students are expected to abide by the standards of academic integrity established by their teachers and school administration. Standards of academic integrity are established in order for students to learn as much as possible from instruction, for students to be given grades which accurately reflect the student's level of learning and progress, to provide a level playing field for all students, and to develop appropriate values.

Cheating and plagiarism violate the standards of academic integrity. Sanctions will be imposed against students who engage in such conduct.

b. Definitions: The following definitions provide a guide to the standards of academic integrity:

(1) “Cheating” means intentionally misrepresenting the source, nature, or other conditions of academic work so as to accrue undeserved credit, or to cooperate with someone else in such misrepresentation. Such misrepresentations may, but need not necessarily, involve the work of others. Cheating includes, but is not limited to:

(a) Tests (includes tests, quizzes and other examinations or academic performances):

(i) Advance Information: Obtaining, reviewing or sharing copies of tests or information about a test before these are distributed for student use by the instructor. For example, a student engages in cheating if, after having taken a test, the student informs other students in a later section of the questions that appear on the test.

(ii) Use of Unauthorized Materials: Using notes, textbooks, pre-programmed formulae in calculators, or other unauthorized material or AI (artificial intelligence) systems, devices, or information while taking a test except as expressly permitted.

For example, except for “open book” tests, a student engages in cheating if the student looks at personal notes or the textbook during the test.

(iii) Use of Other Student Answers: Copying or looking at another student’s answers or work, or sharing answers or work with another student, when taking a test, except as expressly permitted. For example, a student engages in cheating if the student looks at another student’s paper during a test. A student also engages in cheating if the student tells another student answers during a test or while exiting the testing room, or knowingly allows another student to look at the student’s answers on the test paper.

(iv) Use of Other Student to Take Test. Having another person take one’s place for a test, or taking a test for another student, without the specific knowledge and permission of the instructor.

(v) Misrepresenting Need to Delay Test. Presenting false or incomplete information in order to postpone or avoid the taking of a test. For example, a student engages in cheating if the student misses class on the day of a test, claiming to be sick, when the student’s real reason for missing class was because the student was not prepared for the test.

(b) Papers (includes papers, essays, lab projects, and other similar academic work):

i) Use of Another’s Paper: Copying another student’s paper, using a paper from an essay writing service, or allowing another student to copy a paper, without the specific knowledge and permission of the instructor.

(ii) Re-use of One’s Own Papers: Using a substantial portion of a piece of work previously submitted for another course or program to meet the requirements of the present course or program without notifying the instructor to whom the work is presented.

(iii) Assistance from Others: Having another person assist with the paper to such an extent that the work does not truly reflect the student's work. For example, a student engages in cheating if the student has a draft essay reviewed by the student's parent or sibling, and the essay is substantially re-written by the student's parent or sibling. Assistance from home is encouraged, but the work must remain the student's. Likewise, using material generated through an AI (artificial intelligence) system and submitting it as original work is considered cheating.

(iv) Failure to Contribute to Group Projects. Accepting credit for a group project in which the student failed to contribute a fair share of the work.

(v) Misrepresenting Need to Delay Paper. Presenting false or incomplete information in order to postpone or avoid turning in a paper when due. For example, a student engages in cheating if the student misses class on the day a paper is due, claiming to be sick, when the student's real reason for missing class was because the student had not finished the paper.

(c) Alteration of Assigned Grades. Any unauthorized alteration of assigned grades by a student in the teacher's grade book or the school records is a serious form of cheating.

(2) "Plagiarism" means to take and present as one's own a material portion of the ideas or words of another or to present as one's own an idea or work derived from an existing source without full and proper credit to the source of the ideas, words, or works. Plagiarism includes, but is not limited to:

(a) Failure to Credit Sources: Copying work (words, sentences, and paragraphs or illustrations or models) directly from the work of another without proper credit. Academic work frequently involves use of outside sources. To avoid plagiarism, the student must either place the work in quotations or give a citation to the outside source.

(b) Falsely Presenting Work as One's Own: Presenting work prepared by another in final or draft form as one's own without citing the source, such as the use of purchased research papers or use of another student's paper.

(3) "Contributing" to academic integrity violations means to participate in or assist another in cheating or plagiarism. It includes but is not limited to allowing another student to look at your test answers, to copy your papers or lab projects, and to fail to report a known act of cheating or plagiarism to the instructor or administration.

c. Sanctions: The following sanctions will occur when a student engages in cheating, plagiarism, or contributing to an academic integrity offense:

(1) Academic Sanction. The instructor will refuse to accept the student's work in which the academic integrity offense took place, assign a grade of "F" or zero for the work, and require the student to complete a test or project in place of the work within such time and under such conditions as the instructor may determine appropriate. In the event the student completes the replacement test or project at a level

meeting minimum performance standards, the instructor will assign a grade which the instructor determines to be appropriate for the work.

(2) Report to Parents and Administration. The instructor will notify the Principal of the offense and the instructor or Principal will notify the student's parents or guardian.

(3) Student Discipline Sanctions. Academic integrity offenses are a violation of school rules. The Principal may recommend sanctions in addition to those assigned by the instructor, up to and including suspension or expulsion. Such additional sanctions will be given strong consideration where a student has engaged in serious or repeated academic integrity offense or other rule violations, and where the academic sanction is otherwise not a sufficient remedy, such as for offenses involving altering assigned grades or contributing to academic integrity violations.

3. Electronic Devices

a. Philosophy and Purpose. The District strongly discourages students from bringing and/or using electronic devices at school. The use of electronic devices can be disruptive to the educational process and are items that are frequently lost or stolen. In order to maintain a secure and orderly learning environment, and to promote respect and courtesy regarding the use of electronic devices, the District hereby establishes the following rules and regulations governing student use of electronic devices, and procedures to address student misuse of electronic devices.

b. Definitions.

(1) "Electronic devices" include, but are not limited to, cell phones, Mp3 players, iPods, personal digital assistants (PDAs), compact disc players, portable game consoles, cameras, digital scanners, lap top computers, and other electronic or battery powered instruments which transmit voice, text, or data from one person to another.

(2) "Sexting" means generating, sending or receiving, encouraging others to send or receive, or showing others, through an electronic device, a text message, photograph, video or other medium that:

(i) Displays sexual content, including erotic nudity, any display of genitalia, unclothed female breasts, or unclothed buttocks, or any sexually explicit conduct as defined at Neb. Rev. Stat. § 28-1463.02; or

(ii) Sexually exploits a person, whether or not such person has given consent to creation or distribution of the message, photograph or video by permitting, allowing, encouraging, disseminating, distributing, or forcing such student or other person to engage in sexually explicit, obscene or pornographic photography, films, or depictions; or,

(iii) Displays a sexually explicit message for sexual gratification, flirtation or provocation, or to request or arrange a sexual encounter.

c. Possession and Use of Electronic Devices.

(1) Students are not permitted to possess or use any electronic devices during class time or during passing time except as otherwise provided by this policy. Cell phone usage is strictly prohibited during any class period; including voice usage, digital imaging, or text messaging.

(2) Students are permitted to possess and use electronic devices before school hours, at lunch time, and after school hours, provided that the student not commit any abusive use of the device (see paragraph (d)(1)). Administrators have the discretion to prohibit student possession or use of electronic devices on school grounds during these times in the event the administration determines such further restrictions are appropriate; an announcement will be given in the event of such a change in permitted use.

(3) Electronic devices may be used during class time when specifically approved by the teacher or a school administrator in conjunction with appropriate and authorized class or school activities or events (i.e., student use of a camera during a photography class; student use of a lap top computer for a class presentation).

(4) Students may use electronic devices during class time when authorized pursuant to an Individual Education Plan (IEP), a Section 504 Accommodation Plan, or a Health Care Plan, or pursuant to a plan developed with the student's parent when the student has a compelling need to have the device (e.g., a student whose parent is in the hospital could be allowed limited use of the cell phone for family contacts, so the family can give the student updates on the parent's condition).

d. Violations

(1) Prohibited Use of Electronic Devices: Students shall not use electronic devices for: (a) activities which disrupt the educational environment; (b) illegal activities in violation of state or federal laws or regulations; (c) unethical activities, such as cheating on assignments or tests; (d) immoral or pornographic activities; (e) activities in violation of Board or school policies and procedures relating to student conduct and harassment; (f) recording others (photographs, videotaping, sound recording, etc.) or otherwise transmitting images and/or sounds of another person or persons without direct administrative approval and consent of the person(s) being recorded, other than recording of persons participating in school activities that are open to the public; (g) "sexting;" or (h) activities which invade the privacy of others. Such student misuses will be dealt with as serious school violations, and immediate and appropriate disciplinary action will be imposed, including, but not limited to, suspension and expulsion from school.

(2) Disposition of Confiscated Electronic Devices: Electronic devices possessed or used in violation of this policy may be confiscated by school personnel and returned to the student or parent/guardian at an appropriate time. If an electronic device is confiscated, the electronic device shall be taken to the school's main office to be identified, placed in a secure area, and returned to the student and/or the student's parent/guardian in a consistent and orderly way.

(i) First Violation: Depending upon the nature of the violation and the imposition of other appropriate disciplinary action, consequences at a minimum may include a relinquishment of the electronic device to the school administration and a conference between the student and school principal or assistant principal. The electronic device shall remain in the possession of the school administration until such time as the student personally comes to the school's main office and retrieves the electronic device.

(ii) Second Violation: Depending upon the nature of the violation and the imposition of other appropriate disciplinary action, consequences at a minimum may include a relinquishment of the electronic device to the school administration and a conference between the student and his/her parent/guardian and the school principal or assistant principal. The electronic device shall remain in the possession of the school administration until such time as the student's parent/guardian personally comes to the school's main office and retrieves the electronic device.

(iii) Third Violation: Depending upon the nature of the violation and the imposition of other appropriate disciplinary action, consequences at a minimum may include a relinquishment of the electronic device to the school administration, a conference between the student and his/her parent/guardian and the school principal or assistant principal, and suspension of the student from school. The electronic device shall remain in the possession of the school administration until such time as the student's parent/guardian personally comes to the school's main office and retrieves the electronic device.

(3) Penalties for Prohibited Use of Electronic Devices: Students who receive a "sexting" message are to report the matter to a school administrator and then delete such message from their electronic device. Students shall not participate in sexting or have any "sexting" message on their electronic devices regardless of when the message was received while on school grounds or at a school activity. Students who violate the prohibitions of this policy shall be subject to the imposition of appropriate disciplinary action, up to and including expulsion, provided that at a minimum the following penalties shall be imposed:

(i) Students found in possession of a "sexting" message shall be subject to a one (1) day suspension from school.

(ii) Students who send or encourage another to send a "sexting" message shall be subject to a five (5) day suspension from school.

(4) Reporting to Law Enforcement: Violations of this policy regarding the prohibited use of electronic devices that may constitute a violation of federal or state laws and regulations, including, but not limited to, the Nebraska Child Protection Act or the Nebraska Child Pornography Prevention Act shall be reported to appropriate legal authorities and law enforcement.

e. Responsibility for Electronic Devices. Students or their parents/guardians are expected to claim a confiscated electronic device within ten (10) days of the date it was

relinquished. The school shall not be responsible, financially or otherwise, for any unclaimed electronic devices. By bringing such devices to school, students and parents authorize the school to dispose of unclaimed devices at the end of each semester. The District is not responsible for the security and safekeeping of students' electronic devices and is not financially responsible for any damage, destruction, or loss of electronic devices.

E. Inappropriate Public Displays of Affection (IPDA): Students are not to engage in inappropriate public displays of affection on school property or at school activities. Such conduct includes kissing, touching, fondling or other displays of affection that would be reasonably considered to be embarrassing or a distraction to others. Students will face the following consequences for IPDA:

1. 1st Offense: Student will be confronted and directed to cease.
2. 2nd Offense: Student will be confronted, directed to cease, and parents will be notified.
3. 3rd Offense: Student will be suspended from school for a minimum of 1 day, and parents and student will need to meet with Administrator(s) and/or counselor.

If this type of behavior continues, or if the IPDA is lewd or constitutes sexual conduct, the student could face long-term suspension or expulsion.

F. Specific Rule Items: The following conduct may result in disciplinary action which, in the repeated violations, may result in discipline up to expulsion:

1. Students in the hallway during class time must have a pass with them, and may not leave class without permission.
2. Students are expected to follow other classroom rules as set by individual teachers.
3. Lunch is to be eaten in the cafeteria/Red Zone or off campus during open campus lunchtime unless special permission is granted.
4. Students are expected to bring all books and necessary materials to class.
5. Assignments for all classes are due as assigned by the teacher.
6. Special classes such as Art, P.E., and computer courses will have other safety or clean-up rules that will be explained to you by that teacher which must be followed.
7. Classes are ended by the teacher. Students are not to begin to pack up or leave the class until the dismissal bell has rung or the teacher has dismissed the class.
8. Students are to be in their seats and ready for class on the tardy bell.
9. Students are not to bring "nuisance items" to school. A nuisance item is something that is not required for educational purposes and which would cause a distraction to the student or others.
10. Snow handling is prohibited.
11. Sunflower seeds, etc. are not allowed in the school building or classrooms.
12. Students are not to be in the school facilities without supervision.
13. Lying or otherwise deceiving staff or administration.
14. Willfully disobeying any reasonable written or oral request of a school staff member or voicing of disrespect to those in authority.

G. Law Violations

1. Any act of a student which is a basis for expulsion and which the principal or designee knows or suspects is a violation of the Nebraska Criminal Code will be reported to law enforcement as soon as possible. Conduct to be reported for law enforcement referral includes conduct that may constitute a felony, conduct which may constitute a threat to the safety or well-being of students or others in school programs and activities, and conduct that the legal system is better equipped to address than school officials. Conduct that does not need to be reported for law enforcement referral includes typical adolescent behavior that can be addressed by school administrators without the involvement of law enforcement. In making the decision of whether to report, consideration should be given to the student's maturity, mental capacity, and behavioral disorders, where applicable. When appropriate, it shall be the responsibility of the referring administrator to contact the student's parent of the fact that the referral to legal authorities has been or will be made.

The foregoing reporting standards shall be reviewed annually by the school board on or before August 1 of each year, be annually reviewed in collaboration with the County Attorney each year, be distributed to each student and his or her parent or guardian at the beginning of each school year, or at the time of enrollment if during the school year, and shall be posted in conspicuous places in each school during the school year.

2. When a principal or other school official releases a minor student to a peace officer (e.g., police officer, sheriff, and all other persons with similar authority to make arrests) for the purpose of removing the minor from the school premises, the principal or other school official shall take immediate steps to notify the parent, guardian, or responsible relative of the minor regarding the release of the minor to the officer and regarding the place to which the minor is reportedly being taken, except when a minor has been taken into custody as a victim of suspected child abuse, in which case the principal or other school official shall provide the peace officer with the address and telephone number of the minor's parents or guardian.

505.07 - RESTRAINT AND SECLUSION

The board prohibits the use of seclusion and restraint by school personnel except as implemented consistent with this policy. Restraint or seclusion of students will not be used solely as a disciplinary consequence or when a known medical or psychological condition makes its use inadvisable. The superintendent will ensure that district guidelines relating to restraint and seclusion are communicated to school personnel and parents/guardians at the beginning of each school year.

Except in the case of an emergency, only school personnel who have received systematic training in the use of restraint and seclusion in accordance with the district's policy will implement physical restraint or seclusion with a student. In an emergency, a district employee may use physical restraint or seclusion as necessary to maintain order or to prevent a student from causing physical harm to self, other students, and school staff or property. School personnel will continuously monitor a student's status during any physical restraint or seclusion.

1. PHYSICAL RESTRAINT

Physical restraint means the use of physical force to restrict the free movement of all or a part of a student's body.

Physical restraint will be considered to be a reasonable use of force when used in the following circumstances:

- A. as reasonably needed to obtain possession of weapons or other dangerous objects on the person or within the control of a student;
- B. as reasonably needed to maintain order or to prevent or break up a fight;
- C. as reasonably needed for self-defense;
- D. as reasonably needed to ensure the safety of any student, employee, volunteer, or other person present;
- E. as reasonably needed to teach a skill, to calm or comfort a student, or to prevent self-injurious behavior;
- F. as reasonably needed to escort a student safely from one area to another;
- G. if used as provided for in an IEP, Section 504, or behavior intervention plan; or
- H. as reasonably needed to prevent imminent destruction to school or another person's property.

2. MECHANICAL RESTRAINT

Mechanical restraint means the use of any device or material attached or adjacent to a student's body that restricts freedom of movement or normal access to any portion of the student's body and that the student cannot easily remove. Mechanical restraint includes the tying down, taping, or strapping down of a student.

Mechanical restraint of a student by school personnel is permissible only in the following circumstances:

- A. when properly used as an assistive technology device included in the student's IEP, Section 504, or behavior intervention plan or as otherwise prescribed by a medical or related service provider;
- B. when using seat belts or other safety restraints to secure a student during transportation;
- C. as reasonably needed to obtain possession of weapons or other dangerous objects on the person or within the control of a student;
- D. as reasonably needed for self-defense;
- E. as reasonably needed to ensure the safety of any student, employee, volunteer, or other person.

3. SECLUSION

Seclusion means the confinement of a student alone in an enclosed space from which the student is (a) physically prevented from leaving or (b) incapable of leaving due to physical or intellectual capacity. Seclusion is different than in-school suspension in which other students or adults may be present but in which students are not physically prevented from leaving.

Seclusion of a student by school personnel may be used in the following circumstances:

- A. as reasonably needed to respond to a person in control of a weapon or other dangerous object;
- B. as reasonably needed to maintain order or prevent or break up a fight;
- C. as reasonably needed for self-defense;

- D. as reasonably needed when a student's behavior poses a threat of imminent physical harm to self or others or imminent substantial destruction of school or another person's property; or
- E. when used as specified in the student's IEP, Section 504, or behavior intervention plan; and
 - a. the student is constantly monitored by an adult in close proximity who is able to see and hear the student at all times;
 - b. the student is released from seclusion upon cessation of the behaviors that led to the seclusion or as otherwise specified in the student's IEP, Section 504, or behavior intervention plan;
 - c. the confining space has been approved for such use by the local education agency;
 - d. the space is appropriately lighted, ventilated, and heated or cooled; and
 - e. the space is free from objects that unreasonably expose the student or others to harm.

4. ISOLATION

Isolation means a behavior management technique in which a student is placed alone in an enclosed space from which the student is not prevented from leaving. Isolation is different than seclusion.

Isolation is permitted as a behavior management technique provided that:

- A. the isolation space is appropriately lighted, ventilated and heated or cooled;
- B. the duration of the isolation is reasonable in light of the purpose for the isolation;
- C. the student is reasonably monitored; and
- D. the isolation space is free from objects that unreasonably expose the student or others to harm.

5. TIME-OUT

Time-out means a behavior management technique in which a student is separated from other students for a limited period of time in a monitored setting. Teachers are authorized to use time-out to regulate behavior within their classrooms.

6. NOTICE, REPORTING AND DOCUMENTATION

- A. A district Restraint or Seclusion Report must be completed for each incident of restraint or seclusion other than normal use of mechanical restraint for transportation safety.

Each record shall include:

- a. Name of the student
 - b. Name of the staff member(s) administering the physical restraint or seclusion;
 - c. Date of the incident and the time the restraint or seclusion began and ended;
 - d. Location of the restraint or seclusion;
 - e. A description of the restraint or seclusion;
 - f. A description of the student's activity immediately preceding the behavior that prompted the use of restraint or seclusion;
 - g. A description of the behavior that prompted the use of restraint or seclusion;
 - h. Efforts to de-escalate the situation and alternatives to restraint or seclusion that were attempted; and
 - i. Information documenting parent contact and notification
- B. Notice to Administrators

The principal or designee shall be notified of the incident as soon as possible, but no later than the end of the same school day.

- C. Notice to Parents

When a principal or designee has personal or actual knowledge of any of the events listed above, he or she shall attempt to promptly notify the student's parent or guardian and shall provide the name of the school employee whom the parent or guardian may contact regarding the incident.

- D. Written Report to Parents

Within a reasonable period of time not to exceed 30 days after the incident, the principal or designee shall also provide the parent or guardian with a written incident report. This report must include the following:

- a. the date, time of day, location, duration, and description of the incident and interventions;
- b. the events or events that led up to the incident;
- c. the nature and extent of any injury to the student; and

- d. the name of a school employee the parent or guardian can contact regarding the incident.

506 - Student Activities

506.01 - STUDENT ACTIVITY ELIGIBILITY

Participation in school activities is a privilege. School activities provide the benefits of promoting additional interests and ability in the students during their school years and for their lifetime.

However, students who participate in extracurricular activities serve as ambassadors of the school district throughout the calendar year, whether away from school or at school. Students wanting to participate in school activities must meet the requirements set out by the school district for participation in the activity and must conduct themselves in accordance with student conduct policies.

Student activity events must be approved by the superintendent unless they involve unusual travel expense, in which case the board will take action. The events must not disrupt the education program or other school district operations.

Eligibility requirements as published by the Nebraska School Activities Association (NSAA) shall be observed by all students. Additional eligibility requirements are in place as of January 3rd, 2006 that were developed by a committee of teachers, parents, and administrators.

Students in grades 9-11 must pass thirty (30) semester hours (six classes) of credit the immediate preceding semester in order to be eligible for any activity sponsored by Hemingford Public Schools.

Seniors: Students in Grade 12 will be required to pass twenty (20) semester hours (four classes) of credit during their senior year in order to be eligible for any activity sponsored by Hemingford Public Schools.

Students in grades 7 and 8 must pass 6 of 8 classes the immediate preceding semester in order to be eligible for any activity sponsored by Hemingford Public Schools.

In addition to the above eligibility rule, eligibility for Junior and Senior High students at Hemingford Public Schools is determined on a weekly basis. Students failing two or more classes (grade below 70%) for two consecutive weeks are ineligible to participate in extracurricular activities for a one week period which will be considered Wednesday through Tuesday. A student who is academically ineligible may attend practices, however they cannot travel with any team/activity, suit up/participate in any event/performance, or participate in any special school activity (such as prom and all dances/parties). Eligibility requirements shall not apply to instructional field trips which are a part of the scheduled course learning experience; or activities or events which are a part of the student's grade requirements.

Students who are enrolled primarily in an exempt school, a private school, or a parochial school who are part-time students participating in activities at Hemingford Public Schools shall provide the principal with current transcripts and grade reports (weekly), so eligibility determinations can be made.

506.01R1 - PROCEDURES AND GUIDELINES FOR ACTIVITY ELIGIBILITY

Weekly Updates

Teachers will post grades on a weekly basis. Any student failing two or more classes (grade below 70%) for two consecutive weeks is ineligible to participate in extracurricular activities for a one week period which will be considered Wednesday through Tuesday. A student who is academically ineligible may attend practices, however they cannot travel with any team/activity, suit up/participate in any event/performance, or participate in any special school activity (such as prom and all dances/parties). Eligibility requirements shall not apply to instructional field trips which are a part of the scheduled course learning experience; or activities or events which are a part of the student's grade requirements. World Stride has its own code of conduct to attend, this activity will not be considered as part of the eligibility policy.

Any student who is sanctioned or is found by the school district policy or NSAA policy to be ineligible to participate in any extracurricular activity may appeal the sanction or finding in accordance with the student due process policy.

Eligibility Requirements:

1. Student must be an undergraduate.
2. Student must be enrolled in at least twenty hours per week and regular in attendance, in accordance with the school's attendance policy at the school he/she wishes to represent in interscholastic competition.
3. Student must be enrolled in some high school on or before the eleventh school day of the current year.
4. Student is ineligible if nineteen years of age before August 1 of current school year. {Student may participate on a high school team if he/she was 15 years of age prior to August 1 of the current school year.}
5. After a student's initial enrollment in grade nine, he/she shall be ineligible after eight semesters of school membership.
6. Student must have been enrolled in school the immediate preceding semester.
7. Student must have received twenty semester hours of credit the immediate preceding semester and must be receiving a minimum of twenty semester credits during the semester of activity participation.
8. Once the season of a sport begins, a student shall compete only in athletic contests/meets in that sport which are scheduled by his/her school. Any other competition will render the student ineligible for a portion of, or all of, the season in that sport. The season of a sport begins with the first date of practice as permitted by NSAA rules.
9. A student shall not participate in sports camps or clinics during the season of a sport in which he/she is involved, either as an individual or as a member of a team.
10. A student shall not participate on an all-star team while a high school undergraduate.
11. A student entering grade nine for the first time after being promoted from grade eight of a two-year junior high, or a three-year middle school, or entering a high school for the first time after being promoted to grade ten from a three-year junior high school is eligible.

After making a choice of high schools, any subsequent transfer will cause the student to be ineligible for ninety school days. If a student has participated on a high school team at any level as a seventh, eighth or ninth grade student, he/she has established his/her eligibility at the high school where he/she participated. If the student elects to attend another high school upon entering ninth or tenth grade, he/she shall be ineligible for ninety school days.

12. When the parents of a student change their domicile from one school district, which has a high school to another school district, which has a high school, the student is ineligible for ninety school days except:
 - a. If the change in domicile by the parent occurs during a school year, the student may remain at the school he/she is attending and be eligible until the end of the school year or transfer to a high school located in the school district where the parents established their domicile and be eligible.
 - b. If a student has been attending the same high school since initial enrollment in grade nine and the school is located in the school district from which the parents moved, he/she may remain at that high school and retain eligibility or he/she is eligible at a high school located in the school district where his/her parents established their domicile.
 - c. If the parents moved during the summer months and the student is in grade twelve, the student may remain at the high school he/she has been attending and retain eligibility.
13. Guardianship does not fulfill the definition of a parent. If a guardian has been appointed for a student, the student is eligible in the school district where his/her natural parent{s} have their domicile. Individual situations involving guardianship may be submitted to the Executive Director for his review and ruling.
14. A student shall not participate in a contest under an assumed name.
15. A student must maintain his/her amateur status.

PARTICIPATION AND PRACTICE A team member is not allowed to practice or participate unless he/she is in school the afternoon of the day of the contest or practice. Exception will be made for absenteeism due to school activities and being absent for business, doctor, dentist or similar appointments, provided the absenteeism is pre-arranged through the principal. Any questions about the rule must be Okayed by the activities director or the principal. In the case of a Saturday event, the athlete should be in school Friday afternoon. If the athlete is unable to be in school on Friday afternoon, they should make prior arrangement with the principal to receive permission to participate on Saturday. If a student is ill, we do not expect them nor do we want them to come to school simply to perform in a contest. Not only will this slow the student's recovery, they may be contagious and infect other students. The principal will make the final ruling whether or not a student can't perform in a contest when missing school the half day before a contest.

All students are expected to be on time, in fact ahead of time for all practices, contests, and departures for contests. Failure to do so may result in loss of playing time at all levels. Above all, participants should be good citizens. Participants should have pride in themselves as well as in

their community and their school. Athletes should be dedicated to a healthy mind, a healthy body, and a positive attitude. Participants should not be exempt from rules, but rather held highly accountable for any actions which may be viewed as detrimental to the school or the community. Participants must remember at all times that their actions and attitudes not only reflect upon themselves but are a direct reflection of all of the students, parents, and staff at Hemingford Public School as well as all community members of Hemingford.

Students who are enrolled primarily in an exempt school, a private school, or a parochial school who are part-time students participating in activities at Hemingford Public Schools shall provide the principal with current transcripts and grade reports (weekly), so eligibility determinations can be made.

506.02 - STUDENT ORGANIZATIONS

Secondary school student-initiated, noncurriculum-related groups and student curriculum-related groups, upon receiving permission from the principal, may use school facilities for group meetings during noninstructional time. Nothing in this policy shall contradict the federal Equal Access Act.

Noninstructional time shall mean any time before the first period of the day and after the last period of the day in which any student attends class. Meetings shall not interfere with the orderly conduct of the education program or other school district operations. It shall be within the discretion of the principal to determine whether the meetings will interfere with the orderly conduct of the education program or other school district operations. Activities relating to and part of the education program shall have priority over the activities of another organization.

Access by Federally Recognized Youth Organizations

The district shall, upon request, allow a representative of any federally recognized youth organization to provide (1) oral or written information to the students regarding that youth organization and how the organization furthers the educational interests and civic involvement of students in a manner consistent with good citizenship and (2) services and activities to any student who is a member of the organization. A federally recognized youth organization is one listed in 36 U.S.C. Subtitle II, Part B. Each requesting youth organization shall be permitted to provide such information, services, and activities at school at least once during each school year. Administrators shall make a good faith effort to select a date, time, and location for each requesting organization to provide such information, services, or activities that is mutually agreeable to the school district and to the organization, but all final decisions rest with the administration. Any such organization representative not employed by the district shall be subject to a background check at the organization's expense. Administrators may prohibit any organization representative convicted of a felony or otherwise presenting safety concerns as described in the district's Visitors to School Policy from being on the school grounds. Nothing in this section shall override or contradict the district's Parental Involvement Policy.

NON-FEDERALLY RECOGNIZED ORGANIZATIONS

Curriculum-Related Organizations

It shall also be the responsibility of the principal to determine whether a student group is curriculum-related. One or more of the following questions will be answered affirmatively if the group is curriculum-related:

- Is the subject matter of the group actually taught in a regularly offered course?
- Will the subject matter of the group soon be taught in a regularly offered course?
- Does the subject matter of the group concern the body of courses as a whole?
- Is participation in the group required for a particular course?

- Does participation in the group result in academic credit?

Secondary school curriculum-related student organizations may use the school district facilities for meetings and other purposes before and after the instructional school day. Employees shall be assigned to monitor approved meetings and may interact with curriculum-related organizations.

Noncurriculum-Related Organizations

Student-initiated, noncurriculum-related organizations shall be provided access to meeting space and school district facilities.

Only students may attend and participate in meetings of noncurriculum-related groups. Such attendance shall be strictly voluntary and student-initiated. As a means of determining whether a student's attendance is voluntary, the principal may require parental consent for the student to attend the meetings.

Members of the council are student representatives who have direct access to the administration.

Student council president and vice president or co-presidents will be elected by the entire secondary school student body in an election simulating real voting conditions. The opportunity for student council membership is available to all students who volunteer to serve in the organization. From these volunteers, two representatives from each class will be elected by his/her classmates to serve on the student council.

506.06 - STUDENT PUBLICATIONS

Students may produce official school publications as part of the curriculum under the supervision of a faculty advisor and the principal. Official school publications such as newspapers, yearbooks or magazines form a part of the journalism curriculum and are produced primarily for the educational value gained in the process of their creation. As such, these publications shall conform to the same community and educational standards required of other student conduct in the school.

Any expression made by students, including student expression in official school publications, is not an expression of official school policy. A faculty advisor shall supervise student writers to maintain professional standards of English and journalism and to comply with the law including, but not limited to, the restrictions against unlawful speech.

Prior to publication of these materials, the faculty advisor, principal or designee shall review them to determine their acceptability for publication. Publications may be restricted, edited or prohibited when, after considering the maturity level of the students, any portion of the publication is determined to be discriminatory, a substantial interference to the educational process or learning environment, harassment, vulgar or obscene, defamatory, an invasion of privacy, or highly controversial.

Persons, other than students, who believe they have been aggrieved by student expression in a student produced official school publication shall follow the public complaint procedure outlined in board policy 1005.01. Students who believe their freedom of expression in a studentproduced official school publication has been restricted shall follow the due process procedure outlined in board policy 504.01.

Students, who perform at such events, serve as ambassadors of the school district and must conduct themselves in the same manner as required in the regular school day. Students who fail to abide by this policy and the administrative regulations supporting it may be subject to disciplinary measures.

Students will be allowed to perform in these events only with proper permission and supervision and when the events do not disrupt the education program or other school district operations. The events must be approved by the superintendent, unless it involves unusual travel and expense, in which case the board must approve of the performance.

It shall be the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy. In developing the administrative regulations, these guidelines should be followed:

- Performances by student groups below the high school level should be allowed on a limited basis;
- All groups of students should have an opportunity to participate; and,
- Extensive travel by one group of students should be discouraged.
- Students will not accept payment for public performances when they represent their schools, either as individuals or as members of some school group.

It shall be within the discretion of the superintendent to determine whether the event will benefit the education program and the participating students. Contests or other performances by students unapproved by the superintendent shall be the responsibility of the parent and the student.

1. Purpose of Random Drug Testing
 - a. The purpose of this policy is to promote the health and safety of our students who participate in extracurricular activities or competitions and to deter the use of alcohol, illicit drugs, and tobacco among them.

 - f. The school district believes that the drug, alcohol, and tobacco/nicotine problem among the student body needs to be addressed. A large number of students who participate in extracurricular activities and competitions do not use drugs, alcohol, and tobacco/nicotine. The school district wishes to give those students an ongoing reason to say, "No," when presented with a chance to use.

 - i. If consent is not signed at the beginning of the school year, the student can sign consent at the beginning of 2nd semester (or upon entry to the district.) For a student to be eligible for any extracurricular activity or competition, consent must be signed before the activity start date and/or before the first practice.
 - c. Selection Pool Eligibility. Students shall remain in the selection pool for an entire calendar year (365 days) from the date the consent form is received.

Upon withdrawal, the student shall not be eligible to participate in any activity that is subject to drug testing for the remainder of the school year, unless consent is signed at the beginning of 2nd semester in which case the student again returns to the pool for the remainder of the school year.
6. Drugs. Students participating in extracurricular activities or competitions are prohibited from using, possessing, distributing, manufacturing, or having drugs, alcohol, and tobacco/nicotine present in their system. For purposes of this policy, “drugs” means:

The master list shall be submitted to the company employed by the district to conduct the testing.
- b. **Reasonable Suspicion Testing.** In addition to random drug testing, a student is subject to drug testing at any time when the Drug Testing Coordinator determines there is individualized reasonable suspicion based upon articulable facts to believe that the student has used a drug. The Drug Testing Coordinator will notify the student and take the necessary steps to schedule a test as soon as practicable.
- c. **Parental Request.** Students who do not participate in extracurricular activities or competitions may be added to the random drug screening master list upon parental request at the beginning of the school year.
- d. **Type of Test.** The school district reserves the right to utilize breath, saliva, urinalysis, or any other reliably recognized testing procedure. Urine and oral fluid samples which screen positive will be confirmed by the company selected by the district. Positive saliva or breath alcohol tests will be confirmed by EBT (Evidential Breath Tester). Other testing methods will be confirmed via industry-recognized processes and equipment.
- e. **Collection Site.** The Drug Testing Coordinator will designate the collection site at which students will provide specimens. The collection site may be off the premises of the school district.
- f. **Collection Procedures.** The school board will select a Drug Program Administrator (DPA) Company. The DPA shall randomly select the students subject to drug testing from the master list on a weekly basis.
 - i. The DPA will make selections based on up to 3 students weekly.

- ii. The DPA will maintain and follow generally accepted industry standards for collecting, maintaining, shipping, and accessing all specimens. The DPA will seek to obtain the sample in a manner designed to ensure accurate testing protocols while minimizing intrusion into a student's privacy.
 - iii. The DPA and the school district will provide a copy of the collection procedures upon request.
- g. **Drugs.** Students may be randomly tested for any drugs, including but not limited to nicotine, alcohol, amphetamines, marijuana or cannabinoids, cocaine, methadone, methaqualone, propoxyphene, hallucinogens, opiates, phencyclidine, synthetic opiates and PCP, steroids, barbiturates, benzodiazepines, alcohol, and any prescription drug that was obtained without proper authorization.
- h. **Results.** The DPA shall notify the school nurse, the Drug Testing Coordinator, and/or the high school principal of any non-negative test after the initial screening. The DPA will use a secure method to transmit all positive test results to the DPA's Medical Review Officer (MRO). The MRO will be certified by an MRO accreditation body. The MRO will be responsible for reviewing test results and determining whether the use of a substance identified by the sample analysis is from illicit use or legitimate medical use. Testing results may take up to 2 weeks. If the MRO determines the test results are negative, no further action shall be taken against the student. The MRO will report the results of verified positives to the DPA, who shall then notify the School Nurse, Drug Testing Coordinator, and/or High School Principal of the positive test result. The school representative shall notify the student's parents. Before making a final decision, the school representative shall contact the student and his or her parent(s)/guardian(s) to discuss the final result either face-to-face or over the telephone. The Drug Testing Coordinator shall notify the student and his or her parent(s)/guardian(s) and any staff members responsible for implementing the consequences of this policy.
- i. **Request for a Retest.** A split specimen will be collected for all testing methods except alcohol testing. A positive alcohol test will be confirmed with an EBT device. A student's parent(s)/guardian(s) may request that the split specimen be tested at a second nationally certified laboratory from a list provided by the MRO. The request for the test must be submitted in writing to the MRO (with a copy sent to the Drug Testing Coordinator) within 72 hours of being notified of the final testing result. The student and his or her parent(s)/guardian(s) must pay the associated costs for an additional test in advance. The costs will be reimbursed if

the result of the split sample test is negative. The student will remain subject to the consequences of this policy during the retesting procedure.

8. Consequences for Testing Positive. The purpose of this policy is not to punish students, but to help them make healthy choices. Whenever the test results indicate a positive test, the Drug Testing Coordinator shall schedule a confidential meeting with the student, parent/guardian, sponsor/coach, and other members of the school's administration as appropriate. At the meeting, the Drug Testing Coordinator shall explain the drug testing procedures and the policy of the district. (All offenses are cumulative for the current school year.) The consequences shall be as follows:

a. First Offense

- i. Parent/Guardian's will be notified.
- ii. The student will receive closed campus lunch for a minimum of 3 school days. Lunch privileges will return upon the completion of an accountability project presented to a designated school representative.

c. Third Offense

- v. The student shall be provided with a list of drug counseling resources available in the panhandle.
- vi. The student may automatically be included in the next three rounds of drug testing. If a student tests negative, they will be returned to the random drug testing pool.

Plans may include but are not limited to referrals to outside agencies, law enforcement, Panhandle Public Health Department, etc.
- ii. Consequences for additional offenses may not be less than the third offense consequences.

9. Refusal to Test

A student who refuses to submit to a drug test authorized under this policy, or refuses to comply with any other provision of this policy, shall not be eligible to participate in any extracurricular activities or competitions covered under this policy including all meetings, practices, performances, and competitions for the remainder of the school year.

10. Tampering

Tampering is the use of any agent or technique which is designed to avoid detection of a drug and/or compromise the integrity of a drug test and is prohibited. This includes providing false urine samples (for example, urine substitution), contaminating the urine sample with chemicals or chemical products, the use of diuretics to dilute urine samples, and the use of masking. If the School Nurse determines that a student tampered with a drug test, the student shall be deemed to have submitted a positive test.

The use of any such agent or technique shall be treated as a positive test for drugs prohibited by this Policy and shall be subject to the penalties outlined in Section 8 of this Policy.

11. Maintenance of Records

All results of drug testing shall be confidential. Procedures for maintaining confidentiality will be developed by the school district and the testing organization. The Drug Testing records of positive tests will be housed in a secure location. This information will not be available to anyone other than appropriate school personnel and parents. This information will be destroyed upon the student's graduation or one year after the student's class graduates. Under no circumstances will this information become a part of the student's permanent file, nor will it be sent to another school when the student moves to another district or transfers to another school. The school district will not share drug test results with any non-school personnel or authorized contractor except as authorized by the student's parents in writing.

12. Appeal

The school district will rely solely upon the opinion of the MRO to determine whether the positive test result was the result of the consumption of a drug. There shall be no appeal of the test result to any school administrator or the board of education.

13. Severability

If any portion of this policy is deemed to be contrary to the law of the state of Nebraska or the United States by judicial decision or an act of Congress, then only such portion or provision directly deemed to be unconstitutional shall be stricken, and the remainder of the policy shall remain in full force.

506.50 - STUDENT ACTIVITIES TRAVEL

TRANSPORTATION -- Hemingford students and staff members travel to and from school events by school bus or school vehicles. All members of a team or activity should return from a contest by the same transportation provided for taking them to the contest, unless they meet the following exceptions.

EXCEPTION -- A student may continue on a trip with their parents after a contest. Also, when due to distance, it is permissible for a student to return home with his/her parents, rather than return to Hemingford and have additional miles in order to arrive at home. Families may also have other business to take care of following an event and would like their student to join them. This does not allow the student to return home with someone other than their parents.

The students must obtain permission from the head coach. A parent/guardian must present to the head coach a written statement of their intent to take the athlete with them.

EXCEPTION - The parent or guardian requests in writing, in advance of the extracurricular activity that their child or children be allowed to return from the activity with an adult they deem responsible. The written request must be notarized or made in person with the Principal or Superintendent. The request shall be made to school administration during regular school hours prior to the time transportation leaves for the extracurricular activity. As a condition of approving such requests, the parent shall be instructed by school administration that the school is not responsible for the child once he/she joins the designated person providing transportation.

The school administration shall not make exceptions to the rule requiring return on school transportation or with parents unless it is shown that such will cause an inconvenience to the students and his/her parents.

The following records shall be maintained as permanent records of the student:

- The student's social security number;
- The record of dates of attendance;
- Highest grade level completed;
- A transcript of classes taken with grades and credits received;
- The records of inoculations and health examinations which are given to the class or student body as a whole;

Any student, his or her parents/guardians, teachers, counselors or school administrators shall have access to the student's records during the regular business hours of the district. In addition, authorized representative of the State or Federal government, and state educational authorities connected with the enforcement of requirements of certain educational programs as prescribed by law shall have access to student's records within the limitations of state statutes. 507.02 - STUDENT DIRECTORY INFORMATION

Student directory information shall be defined in the annual notice. It may include the student's name, participation in officially recognized activities and sports, weight and height of members of athletic teams, honors and awards received, photograph and other likeness, and other similar information.

Prior to developing a student directory or to giving general information to the public, parents will be given notice annually of the intent to develop a directory or to give out general information and can submit a written request for the exclusion of their child's information from the directory or in the general information about the students.

The district is required to supply class lists including name, address and phone number to college and military recruiters upon their request. Military recruiters will also be provided the same access to a student in a high school grade as is provided to postsecondary educational institutions or to prospective employers of such students.

A parent or guardian of a student in a high school grade may submit a written request to the district that the name, address and phone number for that student shall not be released without prior written consent of the parent or guardian. Upon receiving this request, a district shall not release that information without the prior written consent of the parent or guardian. Within thirty days prior to or following the beginning of each school year and, for a new student who enrolls after the beginning of a school year, within thirty days following such enrollment, the district shall notify the parents and guardians of each student in the high school of the option to opt out of directory information release.

When a student reaches eighteen years of age, the permission given to the parents or guardians to opt out of the information release shall only be given to the student. Within thirty days prior to or following the beginning of each school year and, for a new student who enrolls after the beginning of a school year, within thirty days following such enrollment, the district shall notify each student who is at least eighteen years of age or who will reach eighteen years of age during the school year of the option to opt out of the information release and that any such request made previously by a parent or guardian for the student expires upon the student reaching eighteen years of age.

It shall be the responsibility of the superintendent to provide notice and to determine the method of notice that will inform parents. Nothing in this policy shall limit the applicability of federal FERPA laws.

507.04R1 - GUIDELINES FOR LIBRARY CIRCULATION RECORDS

It is the goal of the high school library to encourage students to take pleasure in learning by providing useful and valuable information resources for student research, as well as a wide variety of appealing materials at all levels for reading pleasure. Students who use the library during a class should have adequate supervision; teachers are still responsible for their own students while they are in the library. Students are responsible for all materials they have checked out from the library.

General Collection: May be checked out for three weeks. May be renewed once. Sign your first and last name legibly on checkout sheet at the desk. A book kept past its due date is overdue. Five cents a day will be charged until the book is returned or up to a maximum fine of \$2.50 per item. If you are ill when a book is due, you will not be charged a fine if you return it the day you come back to school and present your admit slip to the librarian.

Reserve Books: Occasionally a book or books from the general collection will be placed on reserve. Books are placed on reserve to give more students access to a book being used in a class assignment. A reserve book may be checked out overnight. Books checked out overnight may not be checked out until 3:20 p.m. and must be returned before first period in the morning. If a reserve book is not returned on time, there will be a fine of \$.10 a day for each day it is overdue, subject to review by the librarian.

General Responsibilities of Students Using the Library: Students may use the library for quiet studying, checking out library materials, working on class assignments, doing school related research and leisure reading. Please be considerate by speaking softly so others are not disturbed and to maintain an atmosphere conducive to learning at all times. Refrain from using the library or library computer lab as a place to socialize with your peers. Remember - No food or drinks in the library. Take responsibility for keeping the library a neat, orderly, and pleasant place to work. Please remember to: Check out all materials taken from the library. Use your own name to check out materials from the library. Never check anything out for another person. Always sign your full name when checking out a book, magazine, etc. Pick up and discard all scrap paper before leaving the library. Push your chair back to the table when leaving the library. Return all borrowed books and magazines in the book drop and newspapers to the newspaper rack. Pay all overdue fines and fines for lost or damaged materials as soon as possible. These must be paid before the student checks out at the end of the school year. Refrain from cutting up current newspapers and current and saved back issues of magazines. Please ask if you need help. Through regular library visits, it is our hope that students may develop positive lifelong reading, viewing, and study habits.

Reference Books: Reference books are marked with an "R" above the call number. These books are for use in the library and may not be checked out of the library during the day. They may be checked out overnight at the end of the day, but must be returned before 1st period the following day. Overdue reference materials will be charged \$0.10 a day. Magazine Collection: Current issues of magazines may be checked out from the library for one day. Back issues may

be checked out for three days. If a magazine is overdue, a fine of \$.05 per day will be charged up to a maximum fine of \$2.50 per item.

Other Resources: Various CD-ROM resources are available for use on library computers only. Each year special on-line databases are purchased for student research by our school and/or the Nebraska Library Commission. Some of these may also be accessible from home computer access with a special password. Please note these or ask what is available and utilize them whenever possible.

Lost or Damaged Books: If a book is lost or damaged beyond repair, the person responsible will pay the current replacement cost of the book. If a book is damaged, but repairable, the person responsible will be charged for the cost of repairing the book. Send damaged books to the library for repair. Please do not mend books at home. In the event a lost book is found after paying for its replacement, a refund may be given if the item is returned in good, useable condition and within the school year the item was lost; the maximum overdue fine of \$2.50 will be deducted from the refund.

508.02 - ADMINISTRATION OF MEDICATION TO STUDENTS

Students may be required to take medication during the school day. The district shall establish procedures which may allow students to self-administer medications for diabetes and asthma/anaphylaxis. Other medications shall be administered by the school nurse, a registered Medication Aide, or other school staff member meeting the minimum competency standards for the Medication Aide Act.

Self-Management of Diabetes and Asthma/Anaphylaxis

Upon completion of required procedures, the district and parent or guardian, in consultation with the student's physician, will develop a diabetes or asthma/anaphylaxis medical management plan for the current school year. The plan shall:

1. Identify the health care services the student may receive at the school relating to the condition;
2. Evaluate the student's understanding of and ability to self-manage his/her condition;
3. Permit regular monitoring of the student's self-management of his/her condition by an appropriately credentialed health care professional; and
4. Be signed by the student's parent or guardian and the physician responsible for treatment of the student's condition.

For asthma/anaphylaxis the plan will also:

1. Include the name, purpose, and dosage of the prescription medication prescribed for such student; and
2. Include procedures for storage and access to backup supplies of such prescription medication.

The parent or guardian shall sign a statement that:

1. The district and its employees and agents are not liable for any injury or death arising from a student's self-management of his/her condition; and
2. Shall indemnify and hold harmless the district and its employees and agents against a claim arising from a student's self-management of his/her condition.
3. Any injury to others as a result of the student's self-medication shall be the parents' responsibility

The student shall promptly notify the person designated in the student's self-management plan when the student has self-medicated.

The superintendent shall develop all necessary procedures and forms to implement the self-management plans and student disciplinary procedures regarding the misuse or threatened misuse of medications and supplies. The school will promptly notify the parent/guardian of such disciplinary action.

Medication for Conditions other than Diabetes or Asthma/Anaphylaxis

Medication will not be administered without written authorization that is signed and dated from the parent and physician, and the medication must be in the original container which is labeled by the pharmacy or the manufacturer with the name of the child, name of the medication, the time of the day which it is to be given, the dosage and the duration.

Written authorization will also be secured when the parent requests student co-administration of medication for other than diabetes or asthma/anaphylaxis when competency is demonstrated. When administration of the medication requires ongoing professional health judgment, an individual health plan will be developed by the licensed health personnel with the student and the student's parents.

A written record of the administration of medication procedure must be kept for each child receiving any medication including the date; student's name; prescriber or person authorizing the administration; the medication and its dosage; the name, signature and title of the person administering the medication; and the time and method of administration and any unusual circumstances, actions or omissions. Administration of medication records shall be kept confidential.

Records shall be available to the Department of Health and Human Services Regulation and Licensure, the Department of Health and Human Services, and the State Department of Education for inspection and copying.

Medication will be kept in a secured area. Students may carry medication only with the approval of the parents and building principal of the student's attendance center. Emergency protocol for medication-related reactions will be in place.

The superintendent shall be responsible, in conjunction with the school nurse or Medication Aide, for developing rules and regulations governing the administration of prescription and nonprescription medication to students, including emergency protocols, and for ensuring persons administering medication have met the requirement of state statutes. Annually, each student shall be provided with the requirements for administration of medication at school.

508.13 - SCHOOL WELLNESS

The board adopts this policy to create positive, safe and health-promoting learning environments at every level, in every setting, throughout the school year. This will assist in providing students with the opportunity to achieve personal, academic, developmental and social success.

1. District Wellness Committee

Committee Role and Membership

The District will convene a representative District Wellness Committee (DWC) that meets at least four times per year to establish goals for and oversee school health and safety policies and programs, including development, implementation and periodic review and update of this District wellness policy.

The DWC membership will represent all school levels and include (to the extent possible), but not be limited to: parents and caregivers; students; school nutrition program representatives; physical education teachers; health education teachers; school health staff or representatives, and mental health and social services staff; school administrators, school board members; health professionals; and the general public. When possible, membership will also include Supplemental Nutrition Assistance Program Education coordinators. To the extent possible, the DWC will include representatives from each school building and reflect the diversity of the community.

Leadership

The Superintendent or designee(s) will convene the DWC and facilitate development of and updates to the wellness policy, and will ensure each school site's compliance with the policy.

Each school will designate a school wellness policy coordinator, who will ensure compliance with the policy. Refer to Appendix A for a list of school-level wellness policy coordinators.

2. Wellness Policy Implementation, Monitoring, Accountability and Community Engagement

Implementation Plan

The District will develop and maintain a plan for implementation to manage and coordinate the execution of this wellness policy. The plan delineates roles, responsibilities, actions and timelines specific to each school; and includes information about who will be responsible to make what change, by how much, where and when; as well as specific goals and objectives for nutrition standards for all foods and beverages available on the school campus, food and

beverage marketing, nutrition promotion and education, physical activity, physical education and other school-based activities that promote student wellness. It is recommended that the school use the Healthy Schools Program online tools to complete a school-level assessment based on the Centers for Disease Control and Prevention's School Health Index, create an action plan that fosters implementation and generate an annual progress report.

This wellness policy and the progress reports can be found at the District's website.

Recordkeeping

The District will retain records to document compliance with the requirements of the wellness policy at the District's Central Administrative Office, and/or on the District's computer network. Documentation maintained in this location will include but will not be limited to:

- The written wellness policy;
- Documentation demonstrating that the policy has been made available to the public;
- Documentation of efforts to review and update the Local Schools Wellness Policy; including an indication of who is involved in the update and methods the district uses to make stakeholders aware of their ability to participate on the DWC;
- Documentation to demonstrate compliance with the annual public notification requirements;
- The most recent assessment on the implementation of the local school wellness policy;
- Documentation demonstrating the most recent assessment on the implementation of the Local School Wellness Policy has been made available to the public.

Annual Notification of Policy

The District will actively inform families and the public each year of basic information about this policy, including its content, any updates to the policy and implementation status. The District will make this information available via the district website and/or district-wide communications. The District will provide as much information as possible about the school nutrition environment. This will include a summary of the District's events or activities related to wellness policy implementation. Annually, the District will also publicize the name and contact information of the District/school officials leading and coordinating the committee, as well as information on how the public can get involved with the school wellness committee.

Triennial Progress Assessments

At least once every three years, the District will evaluate compliance with the wellness policy to assess the implementation of the policy and include:

- The extent to which schools under the jurisdiction of the District are in compliance with the wellness policy;
- The extent to which the District's wellness policy compares to the Alliance for a Healthier Generation's model wellness policy; and

- A description of the progress made in attaining the goals of the District's wellness policy.

The position/person responsible for managing the triennial assessment and contact information is the Superintendent or Superintendent's designee.

The DWC, in collaboration with individual schools, will monitor schools' compliance with this wellness policy.

The District will actively notify households/families of the availability of the triennial progress report.

Revisions and Updating the Policy

The DWC will update or modify the wellness policy based on the results of the annual School Health Index and triennial assessments and/or as District priorities change; community needs change; wellness goals are met; new health science, information, and technology emerges; and new Federal or state guidance or standards are issued. The wellness policy will be assessed and updated as indicated at least every three years, following the triennial assessment.

Community Involvement, Outreach and Communications

The District is committed to being responsive to community input, which begins with awareness of the wellness policy. The District will actively communicate ways in which representatives of DWC and others can participate in the development, implementation and periodic review and update of the wellness policy through a variety of means appropriate for that district. The District will also inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards. The District will use electronic mechanisms, such as email or displaying notices on the district's website, as well as non-electronic mechanisms, such as newsletters, presentations to parents, or sending information home to parents, to ensure that all families are actively notified of the content of, implementation of, and updates to the wellness policy, as well as how to get involved and support the policy. The District will ensure that communications are culturally and linguistically appropriate to the community, and accomplished through means similar to other ways that the district and individual schools are communicating important school information with parents.

The District will actively notify the public about the content of or any updates to the wellness policy annually, at a minimum. The District will also use these mechanisms to inform the community about the availability of the annual and triennial reports.

3. Nutrition

These school nutrition personnel will refer to USDA's Professional Standards for School Nutrition Standards website to search for training that meets their learning needs.

Water

To promote hydration, free, safe, unflavored drinking water will be available to all students throughout the school day and throughout every school campus ("school campus" and "school day" are defined at the end of this policy). The District will make drinking water available where school meals are served during mealtimes.

Competitive Foods and Beverages

The District is committed to ensuring that all foods and beverages available to students on the school campus during the school day support healthy eating. The foods and beverages sold and served outside of the school meal programs (e.g., "competitive" foods and beverages) will meet the USDA Smart Snacks in School nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day and create an environment that reinforces the development of healthy eating habits. A summary of the standards and information, as well as a Guide to Smart Snacks in Schools are available at: <http://www.fns.usda.gov/healthierschoolday/tools-schools-smart-snacks>. The Alliance for a Healthier Generation provides a set of tools to assist with implementation of Smart Snacks available at www.foodplanner.healthiergeneration.org.

To support healthy food choices and improve student health and well-being, all foods and beverages outside the reimbursable school meal programs that are sold to students on the school campus during the school day will meet or exceed the USDA Smart Snacks nutrition standards or, if the state policy is stronger, "will meet or exceed state nutrition standards". These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, à la carte options in cafeterias, vending machines, school stores and snack or food carts.

Celebrations and Rewards

All foods offered on the school campus will meet or exceed the USDA Smart Snacks in School nutrition standards or, if the state policy is stronger, "will meet or exceed state nutrition standards," including through:

Celebrations and parties. The district will provide a list of healthy party ideas to parents and teachers, including non-food celebration ideas. Healthy party ideas are available from the Alliance for a Healthier Generation and from the USDA.

Classroom snacks brought by parents. The District will provide to parents a list of foods and beverages that meet Smart Snacks nutrition standards.

Rewards and incentives. The District will provide teachers and other relevant school staff a list of alternative ways to reward children. Foods and beverages will not be used as a reward, or withheld as punishment for any reason, such as for performance or behavior.

Fundraising

Foods and beverages that meet or exceed the USDA Smart Snacks in Schools nutrition standards may be sold through fundraisers on the school campus during the school day. The District will make available to parents and teachers a list of healthy fundraising ideas or similar resources.

Nutrition Promotion

Nutrition promotion and education positively influence lifelong eating behaviors by using evidence-based techniques and nutrition messages, and by creating food environments that encourage healthy nutrition choices and encourage participation in school meal programs. Students and staff will receive consistent nutrition messages throughout schools, classrooms, gymnasiums, and cafeterias. Nutrition promotion also includes marketing and advertising nutritious foods and beverages to students and is most effective when implemented consistently through a comprehensive and multi-channel approach by school staff, teachers, parents, students and the community.

The District will promote healthy food and beverage choices for all students throughout the school campus, as well as encourage participation in school meal programs. This promotion will occur through at least:

Implementing at least ten or more evidence-based healthy food promotion techniques through the school meal programs using Smarter Lunchroom techniques; and
Ensuring 100% of foods and beverages promoted to students meet the USDA Smart Snacks in School nutrition standards.

Nutrition Education

The District will teach, model, encourage and support healthy eating by all students. Schools will provide nutrition education and engage in nutrition promotion that:

- Is designed to provide students with the knowledge and skills necessary to promote and protect their health;
- Is part of not only health education classes, but also integrated into other classroom instruction through subjects such as math, science, language arts, social sciences and elective subjects;

- Includes enjoyable, developmentally-appropriate, culturally-relevant and participatory activities, such as cooking demonstrations or lessons, promotions, taste-testing, farm visits and school gardens;

The District is committed to providing a school environment that ensures opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. The District strives to teach students how to make informed choices about nutrition, health and physical activity. These efforts will be weakened if students are subjected to advertising on District property that contains messages inconsistent with the health information the District is imparting through nutrition education and health promotion efforts. It is the intent of the District to protect and promote student's health by permitting advertising and marketing for only those foods and beverages that are permitted to be sold on the school campus, consistent with the District's wellness policy.

Any foods and beverages marketed or promoted to students on the school campus during the school day will meet or exceed the USDA Smart Snacks in School nutrition standards or, if stronger, "state nutrition standards," such that only those foods that comply with or exceed those nutrition standards are permitted to be marketed or promoted to students.

Food and beverage marketing is defined as advertising and other promotions in schools. Food and beverage marketing often includes an oral, written, or graphic statements made for the purpose of promoting the sale of a food or beverage product made by the producer, manufacturer, seller or any other entity with a commercial interest in the product. This term includes, but is not limited to the following:

- Brand names, trademarks, logos or tags, except when placed on a physically present food or beverage product or its container.
- Displays, such as on vending machine exteriors
- Corporate brand, logo, name or trademark on school equipment, such as marquees, message boards, scoreboards or backboards (Note: immediate replacement of these items are not required; however, districts will replace or update scoreboards or other durable equipment when existing contracts are up for renewal or to the extent that is in financially possible over time so that items are in compliance with the marketing policy.)
- Corporate brand, logo, name or trademark on cups used for beverage dispensing, menu boards, coolers, trash cans and other food service equipment; as well as on posters, book covers, pupil assignment books or school supplies displayed, distributed, offered or sold by the District.
- Advertisements in school publications or school mailings.
- Free product samples, taste tests or coupons of a product, or free samples displaying advertising of a product.

As the District/school nutrition services/Athletics Department/PTA/PTO reviews existing contracts and considers new contracts, equipment and product purchasing (and replacement) decisions should reflect the applicable marketing guidelines established by the District wellness policy.

4. Physical Activity

Children and adolescents should participate in at least 60 minutes of physical activity every day. A substantial percentage of students' physical activity can be provided through a comprehensive school physical activity program (CSPAP). A CSPAP reflects strong coordination and synergy across all of the components: quality physical education as the foundation; physical activity before, during and after school; staff involvement and family and community engagement and the district is committed to providing these opportunities. Schools will ensure that these varied physical activity opportunities are in addition to, and not as a substitute for, physical education (addressed in "Physical Education" subsection). All schools in the district will be encouraged to participate in Let's Move! Active Schools (www.letsmoveschools.org) in order to successfully address all CSPAP areas.

Physical activity during the school day (including but not limited to recess, classroom physical activity breaks or physical education) will not be withheld as punishment. The District will provide teachers and other school staff with a list of ideas for alternative ways to discipline students.

To the extent practicable, the District will ensure that its grounds and facilities are safe and that equipment is available to students to be active. The District will conduct necessary inspections and repairs.

Physical Education

The District will provide students with physical education, using an age-appropriate, sequential physical education curriculum consistent with national and state standards for physical education. The physical education curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts (discussed in the "Essential Physical Activity Topics in Health Education" subsection). The curriculum will support the essential components of physical education.

All students will be provided equal opportunity to participate in physical education classes. The District will make appropriate accommodations to allow for equitable participation for all students and will adapt physical education classes and equipment as necessary.

All District elementary students in each grade will receive physical education for at least 60-89 minutes per week throughout the school year.

All District secondary students (middle and high school) are required to take the equivalent of one academic year of physical education.

The District physical education program will promote student physical fitness through individualized fitness and activity assessments (via the Presidential Youth Fitness Program or other appropriate assessment tool) and will use criterion-based reporting for each student.

Essential Physical Activity Topics in Health Education

Health education will be required in all grades (elementary) and the district will require middle and high school students to take and pass at least one health education course. The District will include in the health education curriculum a minimum of 12 the following essential topics on physical activity:

- The physical, psychological, or social benefits of physical activity
- How physical activity can contribute to a healthy weight
- How physical activity can contribute to the academic learning process
- How an inactive lifestyle contributes to chronic disease
- Health-related fitness, that is, cardiovascular endurance, muscular endurance, muscular strength, flexibility, and body composition
- Differences between physical activity, exercise and fitness
- Phases of an exercise session, that is, warm up, workout and cool down
- Overcoming barriers to physical activity
- Decreasing sedentary activities, such as TV watching
- Opportunities for physical activity in the community
- Preventing injury during physical activity
- Weather-related safety, for example, avoiding heat stroke, hypothermia and sunburn while being physically active
- How much physical activity is enough, that is, determining frequency, intensity, time and type of physical activity
- Developing an individualized physical activity and fitness plan
- Monitoring progress toward reaching goals in an individualized physical activity plan
- Dangers of using performance-enhancing drugs, such as steroids
- Social influences on physical activity, including media, family, peers and culture
- How to find valid information or services related to physical activity and fitness
- How to influence, support, or advocate for others to engage in physical activity
- How to resist peer pressure that discourages physical activity.

Recess (Elementary)

All elementary schools will offer at least 20 minutes of recess on all days during the school year. This policy may be waived on early dismissal or late arrival days. If recess is offered before lunch, schools will have appropriate hand-washing facilities and/or hand-sanitizing mechanisms located just inside/outside the cafeteria to ensure proper hygiene prior to eating and students are required to use these mechanisms before eating. Hand-washing time, as well as time to put away coats/hats/gloves, will be built in to the recess transition period/timeframe before students enter the cafeteria.

Outdoor recess will be offered when weather and conditions are feasible for outdoor play. In the event of indoor recess, teachers and staff will follow the indoor recess guidelines that promote physical activity for students, to the extent practicable.

Recess will complement, not substitute, physical education class. Recess monitors or teachers will encourage students to be active, and will serve as role models by being physically active alongside the students whenever feasible.

Classroom Physical Activity Breaks (Elementary and Secondary)

The District recognizes that students are more attentive and ready to learn if provided with periodic breaks when they can be physically active or stretch. Thus, students will be offered periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. The District recommends teachers provide short (3-5-minute) physical activity breaks to students during and between classroom time at least three days per week. These physical activity breaks will complement, not substitute, for physical education class, recess, and class transition periods.

The District will provide resources and links to resources, tools, and technology with ideas for classroom physical activity breaks. Resources and ideas are available through USDA and the Alliance for a Healthier Generation.

Active Academics

Teachers will incorporate movement and kinesthetic learning approaches into “core” subject instruction when possible (e.g., science, math, language arts, social studies and others) and do their part to limit sedentary behavior during the school day.

The District will support classroom teachers incorporating physical activity and employing kinesthetic learning approaches into core subjects by providing annual professional development opportunities and resources, including information on leading activities, activity options, as well as making available background material on the connections between learning and movement.

Teachers will serve as role models by being physically active alongside the students whenever feasible.

Before and After School Activities

The District offers opportunities for students to participate in physical activity either before and/or after the school day through a variety of methods. The District will encourage students to be physically active before and after school by offering options such as physical activity clubs, physical activity in aftercare, intramurals or interscholastic sports.

Active Transport

The District will support active transport to and from school, such as walking or biking. The District will encourage this behavior by specifically selecting and engaging in six or more of the activities below or others as added by the District:

- Designate safe or preferred routes to school
- Promote activities such as participation in International Walk to School Week, National Walk and Bike to School Week
- Secure storage facilities for bicycles and helmets (e.g., shed, cage, fenced area)
- Instruction on walking/bicycling safety provided to students
- Promote safe routes program to students, staff, and parents via newsletters, websites, local newspaper
- Use crossing guards
- Use crosswalks on streets leading to schools
- Use walking school buses
- Document the number of children walking and or biking to and from school
- Create and distribute maps of school environment (e.g., sidewalks, crosswalks, roads, pathways, bike racks, etc.)

5. Other Activities that Promote Student Wellness

The District will integrate wellness activities across the entire school setting, not just in the cafeteria, other food and beverage venues and physical activity facilities. The District will coordinate and integrate other initiatives related to physical activity, physical education, nutrition and other wellness components so all efforts are complementary, not duplicative, and work towards the same set of goals and objectives promoting student well-being, optimal development and strong educational outcomes.

Schools in the District are encouraged to coordinate content across curricular areas that promote student health, such as teaching nutrition concepts in mathematics, with consultation provided by either the school or the District's curriculum experts.

All efforts related to obtaining federal, state or association recognition for efforts, or grants/funding opportunities for healthy school environments will be coordinated with and complementary of the wellness policy, including but not limited to ensuring the involvement of the DWC.

All school-sponsored events will adhere to the wellness policy guidelines. All school-sponsored wellness events will include physical activity and healthy eating opportunities when appropriate.

Community Partnerships

The District will develop, enhance, or continue relationships with community partners (e.g., hospitals, universities/colleges, local businesses, SNAP-Ed providers and coordinators, etc.) in support of this wellness policy's implementation. Existing and new community partnerships and sponsorships will be evaluated to ensure that they are consistent with the wellness policy and its goals.

Community Health Promotion and Family Engagement

The District will promote to parents/caregivers, families, and the general community the benefits of and approaches for healthy eating and physical activity throughout the school year. Families will be informed and invited to participate in school-sponsored activities and will receive information about health promotion efforts.

As described in the "Community Involvement, Outreach, and Communications" subsection, the District will use electronic mechanisms (e.g., email or displaying notices on the district's website), as well as non-electronic mechanisms, (e.g., newsletters, presentations to parents or sending information home to parents), to ensure that all families are actively notified of opportunities to participate in school-sponsored activities and receive information about health promotion efforts.

Staff Wellness and Health Promotion

The DWC will have a staff wellness subcommittee that focuses on staff wellness issues, identifies and disseminates wellness resources and performs other functions that support staff wellness in coordination with human resources staff.

Schools in the District will implement strategies to support staff in actively promoting and modeling healthy eating and physical activity behaviors and may provide examples of specific actions staff members can take. The District promotes staff member participation in health promotion programs and will support programs for staff members on healthy eating/weight management that are accessible and free or low-cost.

Professional Learning

When feasible, the District will offer annual professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school (e.g., increasing the use of kinesthetic teaching approaches or incorporating nutrition lessons into math class). Professional learning will help District staff understand the connections between academics and health and the ways in which health and wellness are integrated into ongoing district reform or academic improvement plans/efforts.

508.15 - CONCUSSION AWARENESS

Training to recognize the symptoms of concussions and brain injuries and how to seek their proper medical treatment shall be made available to coaches of the district's athletic teams.

The district will provide information on concussions and brain injuries to athletes and their parents or guardians prior to the beginning of practice or competition including at least:

1. The signs and symptoms of concussions;
2. The risks posed by sustaining a concussion; and
3. The actions a student should take in response to sustaining a concussion including the notification of coaches.

A student participating on a school athletic team shall be removed from a practice or game when reasonably suspected of having sustained a concussion or brain injury in that activity after observation by a coach or a licensed health care professional who is professionally affiliated with or contracted by the school.

The injured student shall not be permitted to participate in any school supervised team athletic activities involving physical exertion, including, but not limited to, practices or games, until the student;

1. has been evaluated by a licensed health care professional;
2. has received written and signed clearance to resume participation in athletic activities from the licensed health care professional;
3. has submitted the written and signed clearance to resume participation in athletic activities to the school accompanied by written permission to resume participation from the student's parent or guardian.

If a student is reasonably suspected after observation of having sustained a concussion or brain injury and is removed from an athletic activity as required above, the parent or guardian of the student shall be notified by the school of the date and approximate time of the injury suffered by the student, the signs and symptoms of a concussion or brain injury that were observed, and any actions taken to treat the student.

The district shall establish a return to learn protocol for students that have sustained a concussion. The return to learn protocol shall recognize that students who have sustained a concussion and returned to school may need informal or formal accommodations, modifications of curriculum, and monitoring by medical or academic staff until the student is fully recovered.

508.17 - SEIZURE SAFE SCHOOLS

Each school building will have a “seizure action plan” if the following criteria are met: (1) at least one student in that building has been identified as having a seizure disorder; and (2) that student’s parent or guardian and health care provider have worked with the school to develop a seizure action plan.

Every building with a seizure action plan will have at least one employee who has met the training requirements necessary to administer or assist with the self-administration of a seizure rescue medication or medication prescribed to treat seizure disorder symptoms.

In accordance with state law, except in the case of an emergency, prior to the administration of a seizure rescue medication or medication prescribed to treat seizure disorder symptoms by a school employee, a student's parent or guardian must:

1. Provide the school with a written authorization to administer the medication at school;
2. Provide a written statement from the student's health care practitioner containing the following information:
 - a. The student's name;
 - b. The name and purpose of the medication;
 - c. The prescribed dosage;
 - d. The route of administration;
 - e. The frequency that the medication may be administered; and
 - f. The circumstances under which the medication may be administered.
3. Provide the medication to the school in its unopened, sealed package with the intact label affixed by the dispensing pharmacy; and
4. Collaborate with school employees to create a seizure action plan.

If permitted by the student's seizure action plan, a student shall be allowed to possess the supplies, equipment, and medication necessary to treat a seizure disorder in accordance with such seizure action plan.

508.20 - HEAD LICE AND OTHER PARASITIC INSECTS

This policy is intended to provide clarity for students, staff, and families regarding head lice and other parasitic insects.

1. Initial Identification and Parent/Guardian Notification

Upon identification of a student with live head lice and/or nits, the parent/guardian will be immediately notified. The student will be discreetly and respectfully sent home with detailed instructions on appropriate treatment protocols. Whether the student is sent home at the end of the day or earlier will be at the discretion of the school nurse, based on the severity and risk of transmission to other students and staff.

It is expected that the child will miss no more than one day of school due to head lice/nits. The responsibility of treatment rests with the parents/guardians.

2. Treatment Verification and School Re-Entry

Prior to returning to school, the parent/guardian must treat the student and remove nits. Upon the student's return, a school nurse or designated qualified individual will inspect the student for live lice. If live lice are present, the student will be sent home. In cases where nits are found but no live lice, parents will be advised to continue nit removal and combing. Regular follow-up checks may be conducted to ensure effective lice management.

3. Recurrent Infestations

In cases where a student experiences two instances of live lice within a single semester, they will be sent home until they are free from both live lice and nits. School personnel may also notify DHHS or other public health agencies to increase the likelihood of additional support being available to families with recurrent infestations.

4. Additional Screening Procedures

Members of the same household as the affected student may also be checked for lice/nits.

Whole classroom screenings will only be conducted if deemed necessary by the school nurse and/or building principal.

5. Classroom Environment Management

The affected classroom and upholstered furniture will be vacuumed by the custodian. Stuffed animals and similar items will be either bagged for two weeks or washed and dried at high temperatures. Environmental pesticide treatments may also be utilized as necessary.

Students will be encouraged not to share personal items that may facilitate the spread of lice.

6. Notification Procedures

Notifications of head lice cases will be handled on an individual basis. Classroom notifications will be issued for the grade level of the student with an active case.

In instances of multiple cases across different grades, notifications will be extended to all parents/guardians of students in the building, as determined by the school nurse or principal.

7. Exclusion and Re-Entry for Chronic or Severe Cases

In rare instances of chronic or severe head lice infestation, the school nurse will assess the situation. If exclusion is considered, the nurse will consult with the administrator, documenting repeated unsuccessful management attempts.

Re-entry of the student post-exclusion will depend on a head check showing progress in lice management, evidenced by the absence of live lice and a reduction in nits.

The school nurse may monitor progress over time, with the aim of supporting the family in eradicating head lice.

This policy is subject to the professional judgment of the school nurse and/or building principal, who may implement additional measures in extraordinary circumstances. The primary objective of this policy is to ensure the health and well-being of all students while minimizing disruptions to the educational process.

8. Other Parasitic Insects

The school nurse and principal will apply similar procedures, subject to their professional judgment, for other parasitic insects, such as bedbugs, scabies, or fleas.

509.03 - STUDENT AND STAFF MEMORIALS

The Board recognizes that when a school experiences the sudden death of a student or staff member, it is important to acknowledge the event. Additionally, certain traumatic events occurring outside the school community may also require acknowledgment through appropriate activities. Requests for remembering or memorializing a person or event shall be approved by the Superintendent, subject to this policy. Major school ceremonies such as graduation, awards, and scholarship events are not appropriate for significant memorial activities. School-wide recognition of anniversary dates will not occur. District counseling services may be made available to provide support.

The Board recognizes that memorials of flowers, personal messages and mementoes are often created at lockers, student gathering spaces and other areas on district property upon such losses or events. Memorials may be permitted at the discretion of the building principal. Administrators will consult with the family of the deceased, as appropriate. The display of all remembrances will be temporary in nature, removed in a timely manner and offered to the family. Temporary memorial symbols displayed on school grounds will be limited to a maximum of one month past the occurrence being memorialized. Gifts or donations to the District Foundation for scholarships are encouraged for a more lasting remembrance.

Requests may be made to memorialize an individual or event in the school yearbook or one edition of the school newspaper/newsletter. Information may be included on a "Memorial Page," but should be limited to the name, photo, dates of birth/death, and school activities in which the student or staff member participated. It is not appropriate to list cause of death in the publication.

In considering memorial activity requests, the administration will balance memorializing or commemorating the individual or event on the one hand, while not creating an atmosphere that may glamorize, romanticize or stigmatize a traumatic event. In the event the board approves a memorial to be placed on school grounds, it is strongly recommended that such memorials be in the form of a living memorial, such as a tree. Individuals must realize that in the future the memorial may experience demolition when tree has died or been damaged, or modifications for any other reason if the board determines that the memorial should be moved or removed.

The district may receive items for the school as a memorial to a student or person having special significance to the students of that school. Items received as memorials become the property of the district. Donors must have the Superintendent's prior approval to donate any such item to the district. The Superintendent may establish guidelines for the acceptance of such memorials.

Memorial or funeral services shall not be conducted on district property. No "sport jersey number" will be retired as a dedication or memorial of a deceased student. Assigned jersey numbers of a deceased student will not be used until the next sports season. Any monetary

donations to the school in memory of a deceased student will be directed toward the Hemingford Scholarship Foundation.

The crisis handbook developed by the counselors and crisis committee, and approved as part of the district's administrative guidelines shall be used to direct and guide the school. It shall be presented annually to the board by the counselors for the board's continuing approval.

Existing memorials established prior to the implementation of this policy will be handled on an individual basis.

When deemed appropriate by the Superintendent, schools may observe a moment of silence in memory of the individual or in recognition of certain events. Otherwise, student, staff or community deaths will not be announced or memorialized over the intercom or on reader boards. School will not be cancelled, delayed or dismissed early on the day of a memorial service without Superintendent approval. Flags may be lowered only in accordance with state and federal law.

The superintendent shall be responsible for curriculum development and for determining the most effective way of conducting research of the school district's curriculum needs and a long-range curriculum development program. In making recommendations to the board, the superintendent shall propose a curriculum that will:

- fulfill the philosophy of the school district;
- reflect the educational and operational needs assessment of the school district;
- articulate courses of study from kindergarten through grade twelve;
- identify minimum objectives for each course and, at the elementary level, for each grade;
- provide for the evaluation of the procedures and methods for attaining the objectives;

The above mentioned standards include the English Language Arts Standards, Mathematics Standards, Science Standards, Social Studies Standards, and all other curricular areas offered by Hemingford School, as approved by NDE.

Any local changes from the specific standards as approved by NDE in those four areas specifically mentioned above will be attached to this policy.

605.03 - PROGRAM FOR HIGH ABILITY LEARNERS

High Ability Learner Program

The Hemingford Board of Education recognizes that the student population includes students with exceptional academic abilities. These students have a need for educational services which are consistent with their ability levels and learning characteristics such as thinking abstractly, having the ability to study a topic in depth, and learning rapidly. These students shall be provided appropriately challenging curricula and instruction which are congruent with their learning abilities and styles.

Referral, Identification and Placement of Students

Efforts to refer and identify students for the high ability learner program will be made at each grade level. Multiple criteria shall be used for identification purposes and identification efforts shall be inclusionary. Outstanding abilities are present in students from all cultural groups and across all economic strata. Students will be placed in the high ability learner program congruent with their identified needs.

Referral, Identification and Placement Criteria

A. Referral Process

A student may be referred by parent/guardian, staff member, community member, peer or by self-nomination. A student may be referred for consideration based on any of the following:

1. Student products of high quality
2. Evidence of outstanding performance
3. Evidence of high ability, as determined by use of differentiated checklists
4. Standardized group aptitude test scores in the 90th percentile
5. Standardized achievement test scores in the 90th percentile

B. Data Gathering Team, Building Based

A data gathering team will be established, consisting of a building administrator, classroom teacher(s) and others. The makeup of this group may change depending on the students who are being considered. It will be the responsibility of this team to facilitate the referral and identification of potential high ability learners in the building. This team will analyze the school standardized test scores within the first thirty days of each year to make a list of students who meet the following criteria.

C. Referral Criteria

The criteria to be followed by the data gathering team for identification of students who may be eligible for placement in the high ability learner program are:

Meet district criterion on at least one of the following:

1. A composite score of a school standardized achievement test at the 90th percentile score or above in one of the core areas, such as Language Arts/Reading, Science, Math and Social Studies;
2. Student products or evidence of outstanding performance with supporting data, submitted by staff, parent/guardian, peers, self and/or community members;
3. Outstanding records of past performance (e.g., grades, performance in class);
4. Evidence of ability as indicated on the differentiated characteristics checklists; or
5. Score at the 98th percentile or above on an approved individual psychological test or other appropriate test provided by the parent, as follows:
 - a. Stanford-Binet V, full scale score of 130 or above
 - b. or Wechsler IV, full scale or general ability index score of 130 or above
 - c. or Verbal Comprehension Index score of 130 and a full scale or general ability index score of 120 or above
 - d. or a Perceptual Reasoning Index score of 130 and a full scale score of 120 or above

D. Identification and Placement Criteria for High Ability Learners

The criteria used for identification/placement of high ability learners in the program is:

1. A composite score of a school standardized achievement test at the 95th percentile score or above in one of the core areas, such as Language Arts/Reading, Science, Math and Social Studies on two consecutive testing occasions;
2. Score three standard deviations above the norm on an approved individual psychological test provided by the parents as follows:

 - b. or Wechsler IV, full scale or general ability index score of 145 or above
 - c. or Verbal Comprehension Index score of 145 or above
 - d. or Perceptual Reasoning Index score of 145 or above.

Identified students who enroll from out of district will be provided high ability learner services. To remain identified as a High Ability Learner the student must score at or above the 90th percentile in one core area, or be recommended to remain identified by a current Enrichment Team member.

E. Identification by Steering Committee (Enrichment Team)

If a student does not meet the specified criteria for identification and services under the high ability learner program seem warranted, then staff members, the student, and/or parents/guardians may submit data to the Steering Committee.

The Steering Committee for High Ability Learner Program will consider the following information on which to base decisions for providing program services:

- Demonstrated accomplishment(s)
- Expert testimony or reports
- Outstanding scores on objective tests
- Other evidence

F. Facilitating School Experiences for Students with High Ability and Low Achievement
Students who have abilities that would qualify them for the program and who achieve at a low level will be referred to the data gathering team who, working with parents/guardians, will determine the school experiences that best meet the student's needs. Student progress will be reviewed annually by the data gathering team.

Communications with Students in the High Ability Learners Program and Their Parents about Referral, Identification and Placement Criteria and Procedures

At the beginning of each school year, the district will provide written information to parents/guardians about high ability learner program referrals, identification, and procedures, including ways parents/guardians or students may facilitate the referral and identification process.

In addition, information regarding the functions of the Steering Committee, the alternate criteria for identifying students and the appeal process will be made available to parents/guardians.

At the beginning of each year and/or when a student enrolls, the principal/designee will provide to parents/guardians with a brochure or school newsletter, information describing the school's high ability learner program, program referral, identification, and procedures, including ways parents/guardians or students may facilitate the referral and the identification process.

Differentiated Curriculum and Instruction

605.05 - RELIGIOUS-BASED EXCLUSION FROM A SCHOOL PROGRAM

Parents who wish to have their child excluded from a school program because of religious beliefs must inform the superintendent. The board authorizes the administration to allow the exclusion if it is not disruptive to the education program and it does not infringe on a compelling state or educational interest. Further, the exclusion must not interfere with other school district operations.

In notifying the principal, the parents shall abide by the following:

1. The notice shall be in writing;
2. The objection shall be based on religious beliefs;
3. The objection shall state which activities or studies violate their religious beliefs;
4. The objection shall state why these activities or studies violate their religious beliefs; and
5. The objection shall state a proposed alternate activity or study.

The superintendent shall have discretion to make this determination. The factors the superintendent shall consider when a student requests to be excluded from a program or activity because of religious beliefs include, but are not limited to, staff available to supervise a student who wishes to be excluded, space to house the student while the student is excluded, available principal-approved alternative course of study or activity while the student is excluded, number of students who wish to be excluded, whether allowing the exclusion places the school in a position of supporting a particular religion, and whether the program or activity is required for promotion to the next grade level or for graduation.

Students who are allowed to be excluded from a program or activity which violates their religious beliefs may be required to do an alternate supervised activity or study.

605.06 - ENGLISH AS A SECOND LANGUAGE

The School Board recognizes the need to provide equal educational opportunities for all students in the district. Therefore, if the inability to speak and understand the English language due to national origin or non-English speaking environments excludes a student from effective participation in the educational programs offered by the district, the district shall take appropriate action to rectify the English language deficiency in order to provide the student equal access to its programs. The board directs the administration to develop and implement procedures which:

- Appropriately identify and evaluate students with limited English proficiency (LEP). Limited English proficient students are those whose native/home language is a language other than English and whose English language skills of listening, speaking, reading and writing are not developed to a level at which they can achieve challenging performance standards in a regular classroom.
- Determine the appropriate instructional environment for LEP students.
- Monitor progress of students receiving English as a Second Language (ESL) or bilingual instruction in order to determine their readiness for the mainstream classroom environment.
- Establish professional standards for staff members who teach bilingual or English as a Second Language programs and provide development opportunities for staff members when needed.

Where feasible, the district may provide support for the student's use of the native language while developing English language skills.

605.07 - FULL-TIME AND PART-TIME ENROLLMENT

Full-Time Enrollment

Students must be enrolled in Hemingford Public Schools on a full-time basis. Full-time basis is defined as attending classes for the full instructional day within the public school system.

Exceptions are permitted only for:

1. enrolled students attending another state accredited institution such as a vocational-technical school or a college or university for school credit;
2. enrolled students taking the limited number of credits needed to graduate in the school year;
3. enrolled students in need of modified school attendance as an accommodation for a disability or similar unique circumstance;
4. enrolled students receiving special education services where the student's IEP requires a modified schedule, or non-enrolled students receiving special education services or other legally mandated services required to be provided to eligible resident children under state and federal laws and regulations;
5. students from other school districts participating in programs offered by the District pursuant to an interlocal agreement or other arrangement approved by the School Board; and
6. non-public school students in accordance with the policies and procedures set forth in this policy.

Part-Time Enrollment of Non-Public School Students

The School Board shall allow the part-time enrollment of students who are residents of the school district and who are also enrolled in a private, denominational, or parochial school or in a school which elects pursuant to section 79-1601 not to meet accreditation or approval requirements. Such students are referred to herein as "non-public school students."

The School Board establishes the following guiding principles for enrollment of non-public school students:

1. The primary school for a non-public school student is the student's private, denominational, parochial or home school.
2. Enrollment of a non-public school student in Hemingford Public Schools is allowed for the purpose of providing enhanced educational opportunities not otherwise available to the non-public school student. It is not to supplant programming of the student's primary school.
3. Non-public school students are not to be given priority over full-time students.

4. Non-public school students are to be enrolled only in programs or courses that are educationally appropriate for the student.
5. Enrollment of non-public school students is not to negatively affect the educational services to be provided to full-time students.

The School Board establishes the following specific policies and procedures for enrollment of non-public school students. In the event the specific policies and procedures require interpretation or do not fully resolve an issue, the above established guiding principles are to be considered.

A. Non-Public School Student Enrollment Application Procedures.

1. Application. Parent or guardian must submit an Application of Non-Public School Student for Part-Time Enrollment to the principal of the school the student desires to attend.
2. Deadline for Applications. The application must be received by August 1st preceding the school year the student wishes to enroll.
 - a. Change of Residence Exception: The application deadline for a student who becomes a resident of the District after the school year has commenced is: 20 calendar days after the student becomes a resident of the District. The principal may delay enrollment until the next following quarter or semester starts, or at such other time as determined to be educationally appropriate.
 - b. High School Course Exception: The application deadline for a student who desires to enroll in a second semester high school course is December 1st.
3. Action on Applications. The principal will review the application and will notify the parent of the approval or denial of the application within 2 weeks of receipt of the application or 2 weeks prior to the start of school or 2 weeks prior to the start of the next semester, whichever is later.
4. Appeals. The parent or guardian may appeal the principal's action to deny their application. Any such appeal must be submitted to the Superintendent within 14 calendar days from the date of the principal's action. The appeal shall be in writing and shall be decided on the basis of the written submission. The Superintendent may request the parent or guardian to provide further explanation or information and the appeal may be denied in the event the parent or guardian fails to fully respond on a timely basis. The Superintendent shall decide the appeal within 10 calendar days of the submission of the appeal. The Superintendent may make a decision later than the 10 days in the event good reason for delay exists. Good reason! includes but is not limited to the Superintendent being unable to gather the information the Superintendent determines necessary to make the decision within the decision period.
5. Annual Applications. Part-time enrollment is determined annually. Application must be made each school year. There will be no guarantee that enrollment will be continued from one year to the next.

B. Non-Public School Student Admission

1. **Admission Requirements.** Students must meet the normal admission requirements. This include the requirements that the student: be a resident of the District, be of school attendance age and not have graduated or have received a GED.
2. **Admission Process.** Students must complete the normal enrollment process and forms required by the District and/or the building for enrollment of all children. This includes the requirements relating to: birth certificates, immunizations, physical examinations, and visual evaluations.

C. Non-Public School Student Enrollment Standards

1. **Maximum Enrollment.** Students may not enroll in more than 2 middle school or high school courses during any one semester. Elementary students may not enroll in programming of greater than 90 minutes of instruction each day. A student who is attending an exempt school and who is enrolled on a part-time basis in the District's middle school or high school will be permitted to enroll in 20 semester credit hours of classes in the event the student has an interest in participating in extracurricular activities.
2. **Capacity Limits.** Enrollment will ordinarily be subject to capacity limits. Any grade level, program, or course which has been determined to be at capacity for option enrollment purposes will not ordinarily be available for non-public school students.
3. **Integrated Courses.** Students must meet prerequisite requirements to be enrolled in a course by appropriate credits earned through an accredited program. The principal may on a discretionary basis allow prerequisite requirements to be satisfied where the student provides reasonable indications that the academic criteria have been met, such as results from achievement tests or other indications of adequate preparation.
4. **Educationally Appropriate Programs and Courses.** Students will not be allowed to enroll in programs or courses which the school administration determine to not be educationally appropriate for the student. Determination of whether a program or course is educationally appropriate will be made based on the standards the District uses for making academic placement decisions.
5. **Selection of Courses.** Subject to Paragraphs 1 through 4 of this Paragraph C, and all other applicable provisions of this Policy, non-public school students may select their courses.

D. Non-Public School Student Policies

General Standard. Non-public school students who are enrolled part-time are to be subject to the same standards as full-time enrolled students except where appropriate to reflect their part-time status.

Building assignment. Students must enroll in the attendance center that serves the student's residence, provided that the administration reserves the authority to make a different attendance center assignment. A student may request assignment to an attendance center other than that of the student's residence under the intra-district transfer procedures.

No Partial Part-Time Enrollment. Students must apply for enrollment and attend the entire school year for which enrollment is made or, for high school courses, for the full length of the course. Once enrolled, part-time students will be required to participate in all activities, programs, and tests related to the program or course for which the student is enrolled, including as applicable State or District wide assessments, as full-time students.

Student Conduct Policies. Students enrolled on a part-time basis shall be required to follow all school policies that apply to other students at any time the part-time student is present on school grounds or at a school sponsored activity or athletic event. This includes the District's student conduct policies. Students enrolled on a part-time basis shall be subject to discipline, including suspension or expulsion, for violation of student conduct rules.

Attendance. Students enrolled on a part-time basis are not exempt from the compulsory attendance laws or from the District's attendance policies. Students who engage in excessive absenteeism as defined in Board policy are to be reported under the truancy laws.

Presence on School Grounds. Students enrolled on a part-time basis are to be present on school grounds during the school day only at the times required for their attendance in the program or course in which they are enrolled. Exceptions may be made in the discretion of the principal or the principal's designee. Students must sign in and out of the school by following the building level procedure. Students are responsible for being aware of any changes in the school schedule during inclement weather or for other reasons.

Transportation. Students enrolled on a part-time basis are not entitled to transportation or transportation reimbursement unless otherwise required by the law. Full-time students will be given first consideration for parking on the high school campus.

Academic Honors. Students enrolled on a part-time basis will not be eligible to graduate or receive a diploma from the District or receive academic honors (for example, class rank and honor roll) except to the extent the student meets all requirements of the District's policies for such, including attainment of minimum credits and semesters of attendance.

Extracurricular Activities. Any student who is a resident of the District and who is enrolled in a school which elects pursuant to section 79-1601 not to meet accreditation or approval requirements may participate in any of the District's extracurricular activity programs to the

same extent and subject to the same requirements, conditions, and procedures as a full-time student in the District. The District's Activities Director will coordinate with the student's parent or guardian to secure assurances of compliance with these expectations. Any student covered by this subsection must enroll in five credit hours through the District in any semester. There shall be no preference given to any student participating in any extracurricular activity based off their status as a full-time or part-time student. Part-time students will be expected to comply with the same or similar expectations as full-time students to participate in any activity, including team rules. Participation in activities that are subject to the bylaws of the Nebraska School Activities Association (NSAA) will be limited to those students who meet the NSAA bylaws.

606.06 - ACCEPTABLE USE OF COMPUTERS, TECHNOLOGY AND THE INTERNET

The Board supports the use of computers, technology and the Internet in the District's instructional program as a resource to educate and inform. The use of these resources shall be consistent with the curriculum adopted by the School District and shall be employed in an appropriate and responsible manner to meet the varied instructional needs, learning styles, abilities and developmental levels of students.

Procedures and Guidelines

The Superintendent shall develop and implement appropriate procedures to provide guidance for computer use and Internet access. Guidelines shall address teacher supervision of computer use, ethical use of electronic media, and the District's ownership and right of administrative review of electronic files and communications. The term "electronic media" includes, but is not limited to, the Internet, e-mail and other technological resources.

The guidelines shall prohibit utilization of networks for inappropriate or illegal activities, the intentional spreading of imbedded messages (viruses) or the use of other programs with the potential of damaging or destroying programs, data or equipment. The guidelines will describe the District's limitation of liability and will establish that the use of computers, technology and the Internet is a privilege, not a right. Violation of the procedures and guidelines will result in cancellation of those privileges and appropriate disciplinary action.

Technology Protection Measure

The District will implement a technology protection measure that will block or filter Internet access to visual depictions that are obscene, pornographic or of a harmful nature to minors. Operation of this measure will be monitored and enforced during use of computers by minors.

Audit of Use

Users with network access shall not utilize District resources to establish electronic mail accounts through third-party providers or any other nonstandard electronic mail system. Participation in chat rooms is prohibited without specific prior approval by the system administrator. The Superintendent shall establish a process to determine whether the District's education technology is being used for purposes prohibited by law or for accessing prohibited materials. The process may include, but not be limited to:

1. Utilizing blocking/filtering software.
2. Turning off the "auto load images" feature of the Internet browser.

3. Using a proxy server to control accessible websites.

Appropriate Internet Behavior On Social Websites

The district recognizes its responsibility to educate students regarding appropriate behavior on social networking and chat room sites about cyberbullying. Therefore, students shall be provided instruction about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms and cyberbullying awareness and response.

Student Use

A written parental permission and agreement form will be required prior to the student being granted access to electronic media involving District technological resources. The form will specify acceptable uses, rules of on-line behavior, access privileges and penalties for procedural violations. It must be signed by the parent or legal guardian of minor students (under age 18) and by the student. This document will be kept on file as a legal, binding document. In order to rescind the agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Superintendent with a written request.

Staff Use

A written staff agreement form will be required for all employees having access to electronic media. Staff shall confine e-mail use to work-related purposes and a reasonable, appropriate and limited personal use that does not interfere with their district duties. The agreement form will refer to the procedures and guidelines for use of computers and the Internet, describe prohibitions and limitations on the use of these resources and state the employee's responsibility for the security of individual passwords.

Community Use

On recommendation of the Superintendent, the Board will determine the conditions and limits under which equipment and services will be made available to the community. Upon request to the Building Principal, community members may have access to electronic resources and programs available through the District, provided they attend any required training and abide by the rules of usage established by the Superintendent. A written agreement form will be required for all community members having access to these resources indemnifying the District from claims by community users.

Disregard of Rules

Individuals who refuse to sign required acceptable use documents or who violate District rules governing the use of District technology shall be subject to loss or restriction of the privilege of using computers, technology or the Internet and related resources.

Responsibility for Damages

Individuals shall reimburse the Board for repair or replacement of District property lost, stolen, damaged, or vandalized while under their care.

Responding to Concerns

School officials shall apply the same criterion of educational suitability used to review other educational resources when questions arise concerning access to specific databases or other electronic media.

606.07 - DISTRICT WEB SITE

The board supports and encourages the publication of a district web site to improve community relations, to foster creativity and to demonstrate student learning. It is a means of providing information to the community about school events and classroom activities, and provides an effective line of communication between the community, staff and students.

The superintendent is directed to develop written web site regulations that pursue the benefits of maintaining a web site while protecting the school and community from its potential misuse. The superintendent will designate a staff member (herein called the Computer Coordinator) to implement the web site regulations and to review all materials published on the web site. All web pages on the web site will conform to this policy and the corresponding regulations.

Staff Web Pages

Staff may create web pages to use in class activities or to provide a resource for other staff members. Staff web pages must reflect the educational goals and objectives of the district. District employees, board members or guests may not establish personal web pages using district resources.

School or Class Web Pages

Schools or classes may establish web pages that present information about the school or class activities. The Building Principal will designate an individual to be responsible for managing the school web site under the supervision of the computer coordinator. Teachers will be responsible for maintaining their class pages.

Extracurricular Organization Web Pages

Extracurricular organizations may establish web pages with the approval of the organization sponsor and the computer coordinator. Material presented on the organization web page must relate specifically to organization activities and will include only student-produced material.

Student Web Pages

Students may establish personal web pages with staff sponsorship and approval by the computer coordinator. Material presented in the student's web pages must be related to the student's educational and career preparation activities.

Other Web Pages

The district may allow other organizations such as parent-teacher groups, booster clubs, school foundations, etc. to publish web pages providing they conform to this policy and the corresponding administrative regulations.

Written Permission

Written permission from both the parent/guardian and the student must be obtained prior to placing any student photographs, artwork, writing or other projects on the web site. No personal contact information about the child, such as home address, phone number, or e-mail address will be given. The work will appear with a copyright notice prohibiting the copying of such work without express written permission. In the event that anyone requests such permission, those requests will be forwarded to the parent or guardian. All such work may be removed from the web site at the end of the current school year.

606.08 - REPRODUCTION OF COPYRIGHTED MATERIALS

It is the intent of the Board to abide by the provisions of current copyright and intellectual property laws as they affect the school district and its employees. The district shall educate staff and students regarding the harms of copyright piracy.

Copyrighted materials, whether they are print or nonprint, will not be duplicated, reproduced, distributed or displayed for district-sponsored activities or by using district equipment except in accordance with law.

While the district encourages its staff to enrich learning programs by making proper use of supplementary materials, it is the responsibility of district staff to abide by the district's copying procedures and obey the requirements of the law. In no circumstances shall it be necessary for district staff to violate copyright requirements in order to perform their duties properly. The district cannot be responsible for any violations of the copyright law by its staff.

Any staff member who is uncertain as to whether reproducing or using copyrighted material complies with district procedures or is permissible under the law, should consult the superintendent. The superintendent will assist staff in obtaining proper authorization to copy or use protected materials, when such authorization is required.

The superintendent is responsible for implementing this policy and creating procedures to guide employees in following copyright compliance.

606.08R1 - COPYRIGHT COMPLIANCE PROCEDURES

Severe penalties may be imposed for unauthorized copying or using of audiovisual or printed materials and computer software, unless the copying or using conforms to the "fair use" doctrine.

Under the "fair use" doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship or research. If duplicating or changing a product is to fall within the bounds of fair use, these four standards must all be met for any of the foregoing purposes:

1. The Purpose And Character Of The Use.

The use must be for such purposes as teaching or scholarship; and

2. The Nature Of The Copyrighted Work.

Staff may make single copies of: book chapters for use in research; instruction or preparation for teaching; articles from periodicals or newspapers; short stories, essays or poems; and charts, graphs, diagrams, drawings, cartoons or pictures from books, periodicals, or newspapers in accordance with these guidelines; and

3. The Amount And Substantiality Of The Portion Used.

Copying the whole of a work cannot be considered fair use; copying a small portion may be if these guidelines are followed; and

4. The Effect Of The Use Upon The Potential Market For Or Value Of The Copyrighted Work.

If resulting economic loss to the copyright holder can be shown, even making a single copy of certain materials may be an infringement, and making multiple copies presents the danger of greater penalties.

Authorized Reproduction and Use of Copyrighted Material in Print

The staff may make multiple copies, not exceeding more than one (1) per student, for classroom use if the copying meets the tests of "brevity, spontaneity and cumulative effect" set by the following guidelines. Each copy must include a notice of copyright.

1. Brevity

- a. A complete poem, if less than 250 words and two pages long, may be copied; excerpts from longer poems cannot exceed 250 words.
- b. Complete articles, stories or essays of less than 2500 words or excerpts from prose works less than 1000 words or 10% of the work, whichever is less, may be copied; in any event, the minimum is 500 words. (Each numerical limit may be expanded to permit the completion of an unfinished line of a poem or prose paragraph.)

- c. One chart, graph, diagram, drawing, cartoon, or picture per book or periodical issue may be copied. "Special" works cannot be reproduced in full; this includes children's books combining poetry, prose, or poetic prose.
2. Spontaneity. Should be at the "instance and inspiration" of the individual teacher.
3. Cumulative Effect. The staff is limited to using copied material for only one (1) course in the school in which copies are made. No more than one (1) short poem, article, story or two (2) excerpts from the same author may be copied, and no more than three (3) works can be copied from a collective work or periodical issue during one (1) class term. The staff is limited to nine (9) instances of multiple copying for one (1) course during one (1) class term. Limitations do not apply to current news periodicals, newspapers, and current news sections of other periodicals.

Performances by the staff or students of copyrighted dramatic works without authorization from the copyright owner are permitted as part of a teaching activity in a classroom or instructional setting. All other performances require permission from the copyright owner.

The copyright law prohibits using copies to replace or substitute for anthologies, consumable works, compilations, or collective works. "Consumable" works include: workbooks, exercises, standardized tests, test booklets, and answer sheets. The staff cannot substitute copies for the purchase of books, publishers' reprints or periodicals, nor can they repeatedly copy the same item from term-to-term. Copying cannot be directed by a "higher authority," and students cannot be charged more than actual cost of photocopying. The staff may use copyrighted materials in overhead or opaque projectors for instructional purposes.

Authorized Reproduction and Use of Copyrighted Materials in the Library

A library may make a single copy of an unpublished work which is in its collection; and a published work in order to replace it because it is damaged, deteriorated, lost or stolen, provided the unused replacement cannot be obtained at a fair price.

A library may provide a single copy of copyrighted material to a student or staff member at no more than the actual cost of photocopying. The copy must be limited to one (1) article of a periodical issue or a small part of other material, unless the library finds that the copyrighted work cannot be obtained elsewhere at a fair price. In the latter circumstance, the entire work may be copied. In any case, the copy shall contain the notice of copyright, and the student or staff member shall be notified that the copy is to be used only for private study, scholarship, or research. Any other use may subject the person to liability for copyright infringement.

At the request of a staff member, copies may be made for reserve use. The same limits apply as for single or multiple copies designated in "Authorized Reproduction and Use of Copyrighted Material in Print."

Authorized Reproduction and Use of Copyrighted Music

A staff member may make a single copy of a song, movement, or short section from a printed musical work that is unavailable except in a larger work, for purposes of preparing for instruction.

A staff member may make multiple copies for classroom use of an excerpt of not more than 10% of a printed musical work if it is to be used for academic purposes other than performance, provided that the excerpt does not comprise a part of the whole musical work which would constitute a performable unit such as a complete section, movement, or song.

In an emergency, a staff member may make and use replacement copies of printed music for an imminent musical performance, when the purchased copies have been lost, destroyed, or are otherwise not available.

- AI tools should be used solely for educational purposes, including but not limited to research, learning assistance, and project development. Students may use AI as permitted and instructed by their teachers.

b. Respect for Privacy:

- Students must respect the privacy of others when using AI tools. They should not collect, share, or use personal information of fellow students or school staff.

c. Ethical Use:

- Students must use AI tools in an ethical manner, refraining from engaging in activities such as cheating, plagiarism, or manipulation of AI-generated content.
- Students must be transparent; citing AI text and images properly when they are used in any way.

d. Accountability and Attribution:

- Students are accountable for the content generated or produced through the use of AI tools. Proper credit must be given to AI-generated content in accordance with academic integrity standards.
- When using AI, students must fact-check the content generated and explore potential plagiarism issues.

e. Fairness and Bias Mitigation:

- Students should be aware of biases that may exist within AI algorithms and strive to mitigate their impact. They should critically evaluate AI-generated results and seek diverse perspectives when necessary.

3. Supervision and Oversight:

- Teachers will declare in their syllabus and/or classroom policies if AI is permitted, partially permitted, or not permitted. They should provide guidance and support to students to foster responsible AI usage. If students are unaware of a teacher's policy regarding AI, they should ask the teacher before using it.
 - permitted - AI technology's usage is allowed in most course assignments and tasks, with exceptions only for rare, explicitly announced contexts like in-class exams. This still does not mean that "anything goes" and that will be explained by the teacher.
 - partially permitted - AI technology's usage is allowed in some course assignments and tasks, but not others, and usage is carefully defined and the parameters are announced for use and non-use.
 - not permitted - AI technology's usage is not allowed in any course assignments and tasks, unless specifically and explicitly identified for a very limited context such as a particular in-class illustrative experiment.

4. Reporting Misuse:

Students who observe or suspect misuse of AI tools by their peers should report such incidents to a teacher or school administrator promptly.

Introduction:

Artificial intelligence (AI) has the potential to be a valuable tool in enhancing the K-12 learning experience at Hemingford Public Schools (HPS). This policy outlines the responsible use of AI by staff at HPS to ensure student safety, academic integrity, and ethical implementation.

1. Guidelines for AI Use:

- a. **Student Learning:** AI tools should be used to supplement and support teachers, not replace them. The focus should remain on fostering critical thinking, creativity, and problem-solving skills in students. Staff should declare in their syllabus and/or classroom

policies how students are allowed to use AI in their courses. We recommend staff use one of the following terms when doing so: permitted, partially permitted, not permitted.

- permitted - AI technology's usage is allowed in most course assignments and tasks, with exceptions only for rare, explicitly announced contexts like in-class exams. This still does not mean that "anything goes" and that will be explained by the teacher.
 - partially permitted - AI technology's usage is allowed in some course assignments and tasks, but not others, and usage is carefully defined and the parameters are announced for use and non-use.
 - not permitted - AI technology's usage is not allowed in any course assignments and tasks, unless specifically and explicitly identified for a very limited context such as a particular in-class illustrative experiment.
- b. **Academic Integrity:** AI tools should not be used for plagiarism or cheating. Students should be taught responsible use of AI and proper citation methods.
- c. **Data Privacy:** Any AI tool collecting student data must comply with all federal and state student data privacy laws (e.g., FERPA).
- d. **Bias Awareness:** AI tools can perpetuate biases. Staff must be aware of potential biases in AI tools and mitigate their impact on student learning and decision-making.
- e. **Transparency:** Staff using AI tools should be transparent with students about the purpose and limitations of the tool.

2. Guidelines for Staff

- a. **Staff Training:** AI training will be provided periodically by the HPS Technology Committee or Technology Coordinator. Staff intending to use AI should attend such training.
- b. **Pre-approval:** Staff planning to use new AI tools for instructional purposes must seek pre-approval from the designated HPS Technology Committee or Technology Coordinator. They will assess the tool's alignment with curriculum and data privacy practices.
- c. **Documentation:** Staff using AI tools should document their use, including the purpose and tool selection rationale.
- d. **Reporting Misuse:** Staff with concerns about AI use or potential misuse should report them to the school administration promptly.

The person bringing the animal must furnish transportation for the animal brought to school. Animals will not be allowed to travel to and from the student's attendance center on the school bus without prior approval from the principal.

It shall be the responsibility of the principal to determine appropriate supervision of animals in the classroom.

607.05 - STUDENT FIELD TRIPS AND EXCURSIONS

The principal may authorize field trips and excursions when such events contribute to the achievement of education goals of the school district. The school district will provide transportation for field trips and excursions. Excursions are defined as brief educational trips beyond the boundaries of the school grounds beginning and ending in a single class period.

In authorizing field trips and excursions, the principal shall consider the financial condition of the school district, the educational benefit of the activity, the inherent risks or dangers of the activity, and other factors deemed relevant by the superintendent. Written parental permission will be required prior to the student's participation in field trips.

Field trips and excursions are to be arranged with the principal well in advance. A detailed schedule and budget must be submitted by the employee. The school district will be responsible for obtaining a substitute teacher if one is needed. Following field trips and excursions, the teacher may be required to submit a written summary of the event.

Free Appropriate Public Education (Fape) Related Field Trips

The school district recognizes that school administrators, teachers, and staff have a responsibility under Section 504 and Title II to include students with disabilities on all field trips which are determined to be necessary to provide the student with a free, appropriate public education.

1. Decisions about the inclusion of a student with disabilities must be made in a nondiscriminatory manner by a group of individuals who are knowledgeable about the student and the nature of the student's disability or disabilities. Such a group may include, but is not limited to, the student's individualized educational program ("IEP") team, or Section 504 committee.
2. The determination whether a student with a medical or behavioral disability will participate in FAPE-related field trips shall be identified in the student's IEP or Section 504 Plan, or by the educational or behavioral benchmarks which the student should meet in order for the FAPE-related field trip to be appropriate. The team or committee will also determine the appropriate accommodations, if any.
3. Any decision to exclude a student with a disability from a FAPE-related field trip due to factors that are, or may be, related to the student's disability must be made on the basis of current evaluative data about the nature and manifestation of the student's disability.
4. The school district will provide behavioral support from a qualified adult at no cost to the parent if such support is needed to facilitate a student's participation in a FAPE-related field trip, including travel.

5. The school district may request that a parent accompany the student but may not require the parent to do so as a condition of the student's participation.

607.07 - PLANNING AND RECORD-KEEPING BY TEACHERS

Quality lesson planning is necessary to help ensure the teacher that key elements of an effective lesson are presented. Lesson plans aid the principal, supervisor and substitute teachers in understanding the regular classroom teacher's plan for teaching the course of study as adopted by the School Board. Lesson plans should also be prepared by teachers whose assignment may vary from regular classroom work in order that their scheduled activities may be observed with understanding or replicated by a substitute teacher. Generally, teachers will prepare lesson plans on a weekly basis although they are expected to have general plans which cover the length of the course. Plans will be kept by the classroom teacher in a place known to and accessible to the building administrators. The principal may further require teachers to provide copies of lesson plans to the school office at reasonable times and intervals as determined by the principal.

The lesson plan should be of sufficient length and substance to allow a substitute teacher to carry on the course of study and to provide a means by which principals and supervisors may monitor instruction to assure that the educational program in a particular class or activity is related to the district-approved course of study.

Although the district will provide lesson plan books, principals may request another system or format for the presentation of lesson plans provided it meets the purpose of planning. Principals may also require more detail or specific plans to assist individual teachers, or they may minimize the use of lesson plans when such action will not compromise the stated purpose of lesson planning.

It is recognized that provision for flexibility is essential within the lesson plan to allow for unexpected changes and varying learning rates.

607.09 - SERVICE ANIMALS AND THERAPY DOGS

The Board recognizes that service animals may be used to provide assistance to some persons with disabilities. This policy governs the presence of service animals in the schools, on school property, including school buses, and at school activities.

A service animal is a dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals are not service animals for the purposes of this definition, though miniature horses are entitled to similar treatment in certain circumstances.

The service animal must perform tasks or do work for the individual with a disability. The work or tasks performed by a service animal must be directly related to the individual's disability, such as:

- Assisting individuals who are blind or have low vision with navigation and other tasks,
- Alerting individuals who are deaf or hard of hearing to the presence of people or sounds,
- Providing non-violent protection or rescue work,
- Pulling a wheelchair,
- Assisting an individual during a seizure,
- Alerting individuals to the presence of allergens,
- Retrieving items such as medicine or the telephone,
- Providing physical support and assistance with balance and stability to individuals with mobility disabilities, and
- Helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

Excluded from the lists of acceptable tasks or work performed by a service animal are:

- The crime deterrent effects of an animal's presence, or
- The provision of emotional support, well-being, comfort, or companionship.

When determining whether an animal qualifies as a service animal, school officials may ask the individual with a disability only two questions:

1. Whether the animal is required because of a disability; and
2. What task or work the animal has been trained to do.

These questions may not be asked if it is readily apparent that the individual has a disability or that the animal is trained to do work or perform tasks for the individual with a disability. School officials may not ask about the nature or extent of a person's disability, nor can a request be made to produce a certificate establishing the dog's qualification as a service animal.

The service animal must remain well-behaved and under control at all times at school. The service animal must have a harness, leash or other tether unless it cannot be used by the person in control because of a disability or if it would interfere with the service animal's

performance. In either case, the animal must still be under control by way of voice controls, signals or other means.

Individuals with disabilities are permitted to be accompanied by a service animal in all areas of the district's facilities where members of the public, participants in services, programs, or activities are normally allowed to go. If the service animal has a separate handler, that individual shall also be allowed access to facilities. At events for which an attendance fee is charged, there shall be no additional fee for the service animal.

The district may remove or exclude a service animal from district facilities if:

1. The animal is out of control and the animal's handler does not take effective action to control it;
2. The animal is not housebroken;
3. The presence of the animal poses a direct threat to the health or safety of others; or
4. The presence of an animal would require a fundamental alteration to the service, program or activity of the district.

In the case of removal of a service animal from the premises, the individual with a disability shall still be provided with the opportunity to participate in the service, program, or activity without the service animal.

The person in control of the service animal, and not the school district, is responsible for caring for the dog's needs. This includes any feeding, exercising, and clean up. The district may charge for any property damage caused by the service animal provided the district normally charges individuals for damage they cause.

Therapy Dogs

A therapy dog is one that is used to provide emotional support, well-being, comfort, or companionship to students. Such dogs are generally not intended for the personal use of district students or employees and will only be approved at the discretion of district administration and counselors for their intended purpose. Prior to the consideration of the use of a therapy dog by an individual student, administration and counselors shall consult with the student's parent/guardian and the student's health care provider.

In the case of considering the routine use of a therapy dog by an individual student, the limitations stated above for service animals will also apply to therapy dogs. In addition the school will require that the therapy dog's owner must provide to the district a proof of vaccinations received by the therapy dog as determined by and signed by a veterinarian, for the district's files. These records shall be maintained in the district's files. The therapy dog must be spayed or neutered. The therapy dog must show no aggression toward people or other animals and must not bark or make other distracting noises while in school. The therapy dog may not interfere with the educational process of any student.

The district may also require that the therapy dog has been obedience tested and certified as Canine Good Citizens by the American Kennel Club ("AKC") and certified for temperament as a

therapy dog with a specific handler by the AKC and supply supporting documentation of such certification satisfactory to the superintendent. The district shall maintain copies of current certifications in its files.

610.02 - TEST OR ASSESSMENT ADMINISTRATION

1. State Assessments.

The district has adopted an assessment plan and has aligned the curriculum with the state approved content standards. The assessment plan includes a schedule and procedures for assessing success in achieving state standards.

Teachers are to clearly articulate the learning targets and align instruction to the learning targets within each of the content standards. Teachers are to give students instruction on the content prior to students being assessed on each content standard in order to provide learning opportunities for all students.

The assessments are to be conducted in accordance with the assessment plan schedule. Teachers are to conduct the assessments in a manner that assures it accurately assesses whether or not students are meeting the targets outlined by the content standards.

Assessment results are to be reported by the teachers in the manner and within the time directed by the administration or designee. The assessment data is to be used to meet state standards, to provide students and parents with information about student progress, to enhance school improvement planning, and to improve instruction. The assessment data is to be evaluated by teachers to monitor student learning and to improve instruction or terminate ineffective teaching practices to ensure students are being given the opportunity to meet the standards.

The superintendent, in directing the assessment system, shall hold administrators and staff accountable to:

- A. follow appropriate security procedures;
- B. use the assessments identified within applicable curriculum guides;
- C. use assessment data to monitor student learning;
- D. use assessment data to differentiate instruction where appropriate;
- E. provide students and parents with information about student progress;
- F. use assessment data for school improvement planning; and
- G. use assessment data to adjust, improve, or terminate ineffective teaching practices.

2. Achieving Valid Assessments.

Educators are responsible for maintaining the integrity of the assessments to ensure that assessments provide a valid measure of student progress and accomplishments. Educators are not to engage in any practice that may result in assessment results that do not reflect student learning, knowledge, skills or abilities in the area assessed.

For purposes of this policy, student assessments include both “standardized assessments” (including state assessments, norm referenced tests, and evaluations conducted for special education eligibility) and “coursework assessments” (e.g., classroom tests, quizzes, and other evaluative tools used to assign grades).

The following specific assessment expectations and rules apply:

- A. **Integrity of the Assessment Instrument.** The integrity of the assessment instrument is to be maintained. Administrators shall establish and monitor the chain of custody, limiting and recording who has custody of the testing materials and ensuring they are kept in a secure location when not being administered.
 - a. **Standardized Assessments.** Standardized assessment instruments are not to be made available to students at any time before the student takes the assessment. The assessment instrument is to be maintained in a secure manner.
 - b. **Coursework Assessments.** Coursework assessment instruments are to be periodically modified to keep the assessments current and prevent students from effectively using “test banks.” For coursework assessments that are given on a repeat basis to students at different times (e.g., a test that is given to students throughout the school day), the educator is to remind students to not share the content of the assessment with students who will be taking the assessment later.

B. Teaching for Success on Assessments.

It is appropriate for educators to prepare students to do well on assessments. This is to be accomplished in a manner that assures the assessment accurately reflects the student’s knowledge, and not simply test preparation.

- a. **Teach the Content.** Educators are to prepare students to do well on assessments by teaching the subject content. Educators are not to “teach to the test” by teaching based solely on the content of the assessment. The content is to be taught to the students over an appropriate amount of time prior to the assessment. “Cramming” assessment content just before the assessment is to be taken is not appropriate. Review of content previously taught is appropriate.
- b. **Practice Tests.** Educators are to prepare students by teaching test taking skills independent of the subject matter being assessed. Educators are not to conduct reviews (drills) using earlier (no longer published) versions of the same test, using alternate (parallel) forms of the same published test, or using actual items from the current form of a standardized test that will be administered to students. Educators are not to conduct reviews (drills) using items of identical format (for example, multiple choice) to the exclusion of other formats.

C. Conditions for Successful Assessments.

- a. **Communications.** Educators are to communicate to students and parents when assessments will be administered, the purpose of the assessment and how the assessment results will be used. Educators are to motivate students to do their best on assessments. Educators are to read and be familiar with assessment administration directions in advance and communicate the rules to students accurately and clearly.
- b. **Climate.** Educators are to have sufficient assessment materials available (e.g., No. 2 pencils, if needed). The classroom is to be arranged to allow comfortable seating. Distractions are to be eliminated. Educators in nearby classrooms are to be informed that the assessment is to be administered so noises from neighboring classrooms are kept at a minimum. Activities or arrangements are to be made for students who finish early so such students do not cause a distraction to other students still taking the assessment.
- c. **Security.** Educators are to monitor students while administering assessments to ensure students are complying with standards of academic integrity. Students who violate standards of academic integrity are to be reported to the administration.

D. **Full Participation.** Educators are to make efforts to have all eligible students take the assessments. The educator should develop a list of students who will be exempted from assessment and the reason for the exemption and submit the list for review and approval by the Principal.

E. Assistance During Assessments.

Standardized Assessments. Educators are not to provide assistance to students while a standardized assessment is being administered except as provided for in a student's 504 Plan or IEP. Educators are expected to follow best professional practices in administering the assessment to prevent testing irregularities. This includes giving "hints," giving extra time, reading the tests to students or defining or pronouncing words for students, allowing students access to instructional material related to the content of the assessment (e.g., displaying a map during a social studies assessment) or allowing students access to mechanical aids (e.g., calculators).

Coursework Assessments. For coursework assessments, students may be allowed access to instructional materials or mechanical aids only when all students being given the assessment are given the aids and use of the aids does not hinder the students from learning the content of the lesson.

- F. **Student Answers.** Assessments are to reflect the students' work as submitted by the students. During the assessments, educators are to monitor students to make sure directions are being followed (e.g., students are using a No. 2 pencil on all "bubble" sheet assessments and completely erase mistaken answers and extra marks on "bubble" sheet assessments). Educators are not to change answers on a student's assessment sheet or otherwise participate in the submission of false or misleading assessment results.

Violations of the rules and expectations set forth in this policy will be considered to be a breach of the District's standard of ethics and may result in disciplinary consequences. Educators are to report suspected violations of the expectation to the administration. The administration is to investigate and appropriately respond to violations of the expectations.

A staff member found to have committed testing irregularities shall be subject to discipline in accordance with law and Board policy. If the individual is a certified staff member, the Superintendent shall make a timely report to the Nebraska Professional Practices Commission.

611.02 - STUDENT PROMOTION, RETENTION OR ACCELERATION

Students will be promoted to the next grade level at the end of each school year based on the student's achievement, age, maturity, emotional stability, and social adjustment.

Students will normally progress annually from grade to grade. Exceptions may be made when, in the judgement of the teachers and the principal, such exceptions are in the best educational interest of the students involved. Exceptions will always be made after prior notification and explanation to the student's parents, but the final decision will rest with school authorities.

When it becomes apparent a secondary student will be unable to meet the minimum credit requirements for the year, both the student and parents will be informed. Students who cannot demonstrate proficiency at their grade levels will also be considered for retention. Teachers must notify the principal of these students, make a recommendation to the principal concerning their promotion or retention, and hold a conference with parents.

The principal may require remediation at the parents' expense as a condition of promotion to the next grade level. The parents will be requested to indicate in writing their agreement or disagreement with the recommendation for retention. The final decision will rest with the school administration. Parents may request retention if they believe it to be in the best interest of their student. The principal will confer with the teachers and parents to determine appropriate action.

More than one retention during the elementary school years will receive special consideration and require the approval of the superintendent based on the recommendation of the principal, teacher and parent or guardian.

If a parent or guardian would like their student to retake a grade level, the parent or guardian must meet with the Superintendent or designee to discuss the student repeating a grade. At that meeting, the parent or guardian must provide evidence of academic needs, illness, or excessive absenteeism that would warrant the student to repeat the grade. A student in kindergarten through fourth grade may be retained due to academic needs, illness, or excessive absenteeism. The official grade point average (GPA) of graduating students is based on all high school credit hours in order to allow students sufficient opportunity to demonstrate achievement. Temporary GPA's will be sent to colleges and universities who request information for admission.

The official GPA will be furnished to post-secondary institutions upon request.

Hemingford High School will use the cum laude system to recognize academic excellence at graduation with the following GPA standards for levels of achievement and recognition.

97% and above = Summa Cum Laude (gold medallion)

95-96% = Magna Cum Laude (silver medallion)

93-94% = Cum Laude (bronze medallion)

Beginning with the 2027 graduating class, valedictorian and salutatorian will no longer be determined or recognized.

Students may wear honor cords and other regalia as approved by the high school principal. As a general guideline, honor cords will only be recognized when associated with school-sponsored programs. Donations made to the District Foundation will need final approval from the Foundation Board after receiving the approval of the superintendent.

In the event this policy conflicts or is otherwise inconsistent with mandatory provisions of the UGG, EDGAR or other applicable federal law, the mandatory provisions of the laws shall control.

The District will also comply with the requirements of the public lettings laws (Neb. Rev. Stat. §§ 73-101 through 73-106) when the contemplated expenditure for the complete project exceeds \$100,000, the Political Subdivisions Construction Alternatives Act (Neb. Rev. II. All projects undertaken pursuant to this policy will be subject to the following bond requirements

- A. A bid guarantee from each bidder equivalent to five percent of the bid price. The "bid guarantee" must consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of the bid, execute such contractual documents as may be required within the time specified.

A. Methods of Bidding/Soliciting Quotations or Estimates

The type of procedures required depends on the anticipated cost of the project.

Micro-purchase means a purchase of supplies or services using simplified acquisition procedures, the annual aggregate amount of which does not exceed \$10,000. Micro-purchases may be made or awarded without soliciting competitive quotations, to the extent district staff determine that the cost of the purchase is reasonable. For purposes of this policy “reasonable” means the purchase is comparable to market prices for the geographic area.

To the extent practicable, the District distributes micro-purchases equitably among qualified suppliers. The District will follow its standard policy on purchasing.

4. The contract will be awarded to the lowest responsive and responsible bidder.

 - b. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of.
 - c. Any or all bids may be rejected if there is a sound documented reason.
5. The board shall have discretion in determining which bidders are responsible and responsive and shall award the contract to the lowest, responsible, and responsive bidder whose bid meets the bid specifications. This means that the board will select the bid that offers the best value and award a contract based upon the amount of the bid and the bidder's ability and capacity to carry on the work, its equipment and facilities, honesty, integrity, skills, business judgment, experience, equipment, facilities, financial stability, past performance, and other relevant factors.

2. The bid documents shall also provide that such bids shall be opened simultaneously in the presence of the bidders or their representatives.
3. Bids received after the date and time specified in the bid documents shall be returned to the bidder unopened.
4. If bids are being opened on more than one contract, the board, in its discretion, may award each contract as the bids are opened.
5. Sealed bids will be opened in a place and at the specific time stated in the bid solicitation. Bidders shall be notified of the opening and invited to be present.
6. Bids will be reviewed by the Superintendent and/or designee and submitted to the board for approval.
7. The board shall have discretion in determining which bidders are responsible and responsive and shall award the contract to the lowest, responsible, and responsive bidder whose bid meets the bid specifications. This means that the board will select the bid that offers the best value and award a contract based upon the amount of the bid and the bidder's ability and capacity to carry on the work, its equipment and facilities, honesty, integrity, skills, business judgment, experience, equipment, facilities, financial stability, past performance, and other relevant factors.

8. The board will generally complete its review of bids and select a vendor within 30 days of bid submission.

Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

The District may not subcontract with or award subgrants to any person or company who is debarred or suspended. For all contracts over \$25,000 the District verifies that the vendor with whom the District intends to do business with is not excluded or disqualified. 2 C.F.R. Part 200, Appendix II(1) and 2 C.F.R. §§ 180.220 and 180.300.

The District will verify debarment or suspension by revising the excluded parties list on SAM.gov, collecting a certification through the bidding process, and/or by including a debarment and suspension provision in the bid and contract documents. The Superintendent or his/her designee shall be responsible for such verification.

E. Settlements of Issues Arising Out of Contract

The District alone is responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. A. Responsibility for Purchasing

The authority to make purchases shall be governed by the District's purchasing policy, which can be found elsewhere in this section. Except as otherwise provided in the District's purchasing policy, the acquisition of services, equipment, and supplies shall be centralized in the administration office under the supervision of the superintendent of schools, who shall be responsible for developing and administering the purchasing program of the school district. Purchases or commitments of district funds that are not authorized by this policy will be the responsibility of the person making the commitment.

B. Methods of Purchasing

The type of purchase procedures required depends on the cost of the item(s) being purchased.

1. Purchases up to \$10,000 (Micro-Purchases)

Micro-purchase means a purchase of supplies or services using simplified acquisition procedures, the annual aggregate amount of which does not exceed \$10,000. Micro-purchases may be made or awarded without soliciting competitive quotations, to the extent district staff determine that the cost of the purchase is reasonable. For purposes of this policy “reasonable” means the purchase is comparable to market prices for the geographic area.

To the extent practicable, the District distributes micro-purchases equitably among qualified suppliers. The District will follow its standard policy on purchasing, which can be found earlier in this subsection.

2. Purchases between \$10,000 and \$250,000 (Small Purchase Procedures)

Small purchases are purchases that, in the aggregate amount, is more than \$10,000 and less than \$250,000 annually. For small purchases, price or rate quotes shall be obtained in advance from a reasonable number of qualified sources as detailed in the district’s standard policies on purchasing and on bid letting and contracts, which can be found earlier in this subsection.

3. Purchases Over \$250,000

a) Sealed Bids (Formal Advertising)

For purchases over \$250,000, the district will generally follow the bidding process outlined in the board’s policy on Bidding for Construction, Remodeling, Repair or Site Improvement.

b) Contract/Price Analysis

The District performs a cost or price analysis in connection with every procurement action in excess of \$250,000, including contract modifications. The district will make an independent estimate of costs prior to receiving bids or proposals.

4. Noncompetitive Proposals (Sole Sourcing)

a) Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source and may be used only when one or more of the following circumstances apply:

1. The item is available only from a single source;
2. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;
3. The federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the District; or

4. After solicitation of a number of sources, competition is determined inadequate.
- b) Noncompetitive proposals may only be solicited with the approval of the superintendent or the board. Sufficient and appropriate documentation that justifies the sole sourcing decision must be maintained by the superintendent or designee.
- c) A cost or price analysis will be performed for noncompetitive proposals when the price exceeds \$250,000.

C. Use of Purchase (Debit & Credit) Cards

District use of purchase cards is subject to the policy on purchase cards which can be found elsewhere in this subsection.

D. Federal Procurement System Standards

The district's procurement transactions will be conducted in a manner providing full and open competition consistent with 2 C.F.R §200.319.

The District will maintain and follow general procurement standards consistent with 2 C.F.R. §200.318.

E. Debarment and Suspension

The District awards contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

The District may not subcontract with or award subgrants to any person or company who is debarred or suspended. For all contracts over \$25,000 the District verifies that the vendor with whom the District intends to do business with is not excluded or disqualified. 2 C.F.R. Part 200, Appendix II(1) and 2 C.F.R. §§ 180.220 and 180.300.

The District will verify debarment or suspension by revising the excluded parties list on SAM.gov, collecting a certification through the bidding process, and/or by including a debarment and suspension provision in the bid and contract documents. The Superintendent or his/her designee shall be responsible for such verification.

F. Settlements of Issues Arising Out of Procurements

The District alone is responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the District of any contractual responsibilities under its contracts. Violations of law will be referred to the local, state, or federal authority having proper jurisdiction.

III. Conflict of Interest and Code of Conduct

- A. Board and staff member conflicts of interest are governed by the district's conflict of interest policies.
- B. Purchases covered by this policy are subject to the following additional provisions.
 - 1. Employees, officers, and agents engaged in the selection, award, and/or administration of district contracts which are prohibited from engaging in such actions if a real or apparent conflict of interest is present.
 - 2. Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract.
 - 3. The board may determine at its discretion that a financial interest is not substantial enough to give rise to a conflict of interest.

C. Favors and Gifts

The officers, employees, and agents of the District may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts, with the limited exception of unsolicited items of nominal value.

D. Enforcement

Disciplinary Actions will be applied for violations of such standards by officers, employees, or agents of the District at the board's discretion.

IV. Property Management Systems

A. Property Classifications

- 1. Equipment means tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition

cost which equals or exceeds the lesser of the capitalization level established by the District for financial statement purposes, or \$5,000.

2. Supplies means all tangible personal property other than those described in §200.33 Equipment. A computing device is a supply if the acquisition cost is less than the lesser of the capitalization level established by the District for financial statement purposes or \$5,000, regardless of the length of its useful life. 2 C.F.R. §200.94.
3. Computing Devices means machines used to acquire, store, analyze, process, and publish data and other information electronically, including accessories (or “peripherals”) for printing, transmitting and receiving, or storing electronic information. 2 C.F.R. §200.20.

10. Location, use and condition of the property; and
11. Any ultimate disposition data including the date of disposal and sale price of the property.

The inventory list shall be adjusted by the superintendent of schools or his/her designee for property that is sold, lost, stolen, cannot be repaired, or that cannot be located.

D. Physical Inventory

1. A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.
2. The Superintendent or his/her designee will ensure that the physical inventory is performed. The physical inventory will generally occur during the months of June or July, but may be conducted during other time periods with the approval of the superintendent.

E. Maintenance

H. Disposal of Equipment

When it is determined that original or replacement equipment acquired under a federal award is no longer needed for the original project or program or for other activities currently or previously supported by a federal awarding agency, the Superintendent or his/her designee will contact the awarding agency (or pass-through for a state-administered grant) for disposition instructions.

If the item has a current FMV of \$5,000 or less, it may be retained, sold, or otherwise disposed of with no further obligation to the federal awarding agency.

V. Other Contract Matters.

A. Required Terms

The non-Federal entity's contracts must contain the applicable provisions required by section 200.326 and described in Appendix II to Part 200—Contract Provisions for non-Federal Entity Contracts Under Federal Awards.

Consequently, the District shall retain records for a minimum of six (6) years from the date on which the final Financial Status Report is submitted, unless otherwise notified in writing to extend the retention period by the awarding agency, cognizant agency for audit, oversight agency for audit, or cognizant agency for indirect costs. However, if any litigation, claim, or audit is started before the expiration of the record retention period, the records will be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. 2 C.F.R. § 200.333.

- b) Retention of procurement records shall be in accordance with applicable law and Board policy.

D. Privacy

The District has protections in place to ensure that the personal information of both students and employees is protected. These include the use of passwords that are changed on a regular basis; staff training on the requirements of the Family Educational Rights and Privacy Act (FERPA) and State confidentiality requirements; and training on identifying whether an individual requesting access to records has the right to the documentation.

706 - Expenditure

706.01 - PURCHASING PROCEDURES

The Board recognizes the importance of a sound fiscal management program and expects the district to maintain an efficient and consistent procedure in purchasing materials and services for the school district.

All purchasing for the district will adhere to an approved purchase process that clearly establishes the contractual arrangement between the supplier and the school district.

Requests for equipment, materials, books, supplies, reimbursement claims and subsidiary accounts shall be made through the principal to the superintendent. No payment of a bill will be made without proper purchase documentation. The board may enter into multi-year contracts for periods not to exceed seven years, for the provision of utility services, refuse disposal, transportation services, maintenance services, financial services, insurance, security services, and instructional materials, supplies, and equipment.

The superintendent shall have the authority to authorize purchases costing under \$10,000 without prior board approval. When it is reasonable and practical to do so, the superintendent will request competitive bids for goods and services to ensure the best use of the district's financial resources. Competitive sealed bids are required in many instances for construction, remodeling or repair of school-owned buildings or site improvements that cost \$100,000 or more.

When obtaining competitive bids, the purchase will be made from the lowest responsible bidder based upon total cost considerations including, but not limited to, the cost of the goods and services being purchased, availability of service and/or repair, delivery date, the targeted small business procurement goal and other factors deemed relevant by the board.

The district will follow NDE guidelines and applicable state statutes for any purchases made through the Nebraska Department of Administrative Services.

The construction of facilities which may exceed an expenditure of \$100,000, and an amount as periodically adjusted by state statute, shall be advertised and submitted for bid in the manner required by law. This limit does not apply to the acquisition of existing buildings, purchase of new sites or site expansions by the district. Other purchases or contractual services may be advertised and submitted for bid as directed by the Board or when, in the opinion of the superintendent, the welfare of the district will be served. All bids must be submitted in sealed envelopes, addressed to the Board and plainly marked with the name of the bid and the time of the bid opening. Bids shall be opened and examined publicly.

The Board reserves the right to reject any or all bids or any part of any bid and accept that bid which appears to be in the best interest of the school district. The Board reserves the right to waive any informalities in any bid. Any bid may be withdrawn prior to the scheduled time for the opening of bids. Any bid received after the time and date specified shall not be considered. All bids will be required to have a current date as part of the bid.

When bids are needed for small vehicle replacement and other similar purchases, an ad will be placed in the local paper as well as inviting area merchants to participate.

Furthermore, the invoice must have been issued in response to an approved purchase order. The superintendent shall audit all claims, and shall submit the same to the Board of Education for approval and authorization for payment.

801.01 - Student Transportation

The school district will provide free transportation, partially provide free transportation, or pay an allowance for transportation in lieu of free transportation on each day school is in session to the students who reside in the district and qualify for transportation according to the district's transportation plan. The families of students who will not be provided transportation pursuant to the district's plan or who must drive students to a pick-up point will be reimbursed according to statute if they qualify for such reimbursement. Parents seeking mileage reimbursement must submit requests to the district on forms which may be obtained from the office of the Superintendent of Schools.

801.03 - BUS SCHEDULING AND ROUTING

School bus stops and routes will be initially determined by the transportation director and will be based upon efficiency, safety, board policy and applicable state and federal laws and rules.

The superintendent will:

1. Annually review and assess school bus routes, stops and loading zones for safety, changing student population and supervision of students;
2. Advise parents of any changes in transportation policy affecting their students as early as possible and be responsive to parents' calls for assistance in seeking alternatives to busing; and
3. Work with cities, the county and other appropriate governmental agencies on a continuing basis regarding transportation issues.

The superintendent is authorized to approve additional/alternative stops at rural school district residences (such as homes of grandparents or other caregivers) to be alternative route stops when those residents have supervisory responsibilities for school district students, regardless of the residency of the students.

As a general rule, requests for transportation to such residences may not require a larger vehicle, a significant deviation from established routes, nor significantly jeopardize the time remaining for the rest of the scheduled route. The use of alternative stops is not to be used for transportation for personal events such as student sleepovers, birthday parties, or similar student social events.

Requests for transportation should be submitted in writing on a form to be provided by the superintendent 48 hours prior to any requested deviations from the regular schedule.

Guidelines must also cover how the district will handle situations where children eligible for reduced price meals do not have money in their accounts to cover the cost of their meal at the

time of service. Households must be notified of all payment methods used by the district, including any fees. At least one payment method must be free of charge. The district cannot solely require the use of an online payment system; another option must be available.

Confidentiality

The information provided by families on the free and reduced price application will be used only for determining eligibility for meal or milk benefits and verification of eligibility. Only staff members and organizations carrying out the activities of the School Lunch Act shall have access to this information.

The district should use methods of lunch payment systems such as pre-payment to avoid openly identifying children who qualify for free or reduced meals. Meal cards, tickets, tokens or other methods of payment must not be coded or colored to identify such status.

803.01 - PHOTOCOPYING SERVICES

Among the facilities available to teachers in carrying out their educational assignments are a variety of machines for reproducing the written and spoken word, either in single or multiple copies.

Infringement on copyrighted material, whether prose, poetry, graphic images, music, audio tape, video or computer-programmed materials, is a serious offense against federal law and contrary to the ethical standards required of staff and students alike.

Violations may result in criminal or civil suits.

Employees shall follow policy and guidelines of policy 606.08 Reproduction of Copyrighted Materials.

803.02 - MAIL AND DELIVERY SERVICE

The interschool mail service is established for school-related purposes. It provides a central mailing service to expedite the distribution of materials and professional communications among schools and staff members.

To avoid overburdening the service, employees will not be allowed to use interschool mail for the delivery of personal letters, notes and materials to other employees.

The recognized collective bargaining unit(s) will be permitted to use the service in accordance with the terms of their contracts, board policy on the use of school facilities and current postal regulations.

803.03 - TELEPHONE SERVICE

Cell Phones

The board recognizes that the use of cellular telephones may be appropriate to provide for the effective and efficient operation of the district and to help ensure safety and security of district property, staff and others while on district property or engaged in district-sponsored activities. To this end, the board authorizes the purchase and employee use of cellular telephones, as deemed appropriate by the superintendent.

District-owned cellular telephones shall be used for authorized district business purposes, consistent with the district's mission and goals. Personal use of such equipment that exceeds the minimum cost each month is discouraged. Any expenses incurred for such personal use shall be reimbursed to the district.

Use of cellular telephones in violation of board policies, administrative regulations and/or state and federal law will result in discipline up to and including dismissal and/or referral to law enforcement officials, as appropriate.

The superintendent is directed to develop administrative regulations for the implementation of this policy, including a uniform and controlled system for identifying employee cellular telephone needs, monitoring use and reimbursement. Provisions may also be included for staff use of privately-owned cellular telephones for authorized district business.

804.01 - COMPUTER AND DATA SECURITY

The district will implement and maintain practices regarding physical, technical and administrative safeguards for both paper and electronic records. Access to records including computer data stored within all computer systems will be strictly controlled for security.

The computer systems administrator is responsible for maintaining security through procedures developed by the superintendent. These procedures will determine who may have various degrees of access to the system and will state requirements for monitoring the continued proper educational use of the system.

These procedures will also describe:

1. Proper methods of disposal of reports containing confidential or financial information at the end of their use.
2. Methods to ensure system security after change of job status of employees having access to system passwords.
3. Methods to provide backup access in the event of the extended absence of the system administrator.

The Superintendent will direct and monitor a process to identify the following elements of computer and data security:

1. What information is considered restricted.
2. Where it currently resides.
3. How it is protected.
4. Who is responsible for providing each level of security for each type of restricted information.
5. Measures to control or reduce district liability in the event of a breach of security including insurable coverage for costs associated with such a breach.

Employees will promptly report to the Superintendent any breach of the district's computerized data that compromises the security, confidentiality or integrity of personal information maintained by the district. The Superintendent will immediately inform the Board of such a breach of information.

Breaches of Security

The Superintendent shall ensure that the district attempts to provide notice of any system security breach, following discovery, to any person whose unencrypted and unredacted personal information was or is reasonably believed to have been accessed and acquired by an unauthorized person. Such attempts to provide notice shall be made with reasonable promptness, except when a law enforcement agency determines and advises the district in writing that the notification would impede a criminal or civil investigation, or the district must take necessary measures to determine the scope of the breach and to restore the reasonable integrity of the data system. The district will also provide notice of the breach if the encrypted

information is accessed and acquired in an unencrypted form, if the security breach is linked to a breach of security of the encryption, or if the security breach involves a person with access to the encryption key.

Definitions

Breach of system security - unauthorized access and acquisition of computerized data that materially compromises the security or confidentiality of personal information maintained by the district as part of the database of personal information regarding multiple individuals and that the district reasonably believes has caused or will cause loss or injury to any state resident. Good faith acquisition of personal information by an employee or agent of the school district for the purpose of the district is not a breach of the security of the system if the personal information is not used for a purpose other than the lawful purpose of the district and is not subject to further unauthorized disclosure.

Person - means any natural person, not an entity or company.

Personal information - includes an individual's first initial and last name in combination with and linked to any one or more of the following, when not encrypted or redacted:

1. Social security number.
2. Driver's license number or state identification card number issued instead of a driver's license.
3. Financial account number, credit or debit card number, in combination with any required security code, access code or password that would permit access to an individual's financial account.

Personal information does not include publicly available information that is lawfully made available to the general public from federal, state or local government records.

Records - means any material, regardless of its physical form, on which information is recorded or preserved by any means, including written or spoken words, graphically depicted, printed or electromagnetically transmitted. This term does not include publicly available directories containing information that an individual has voluntarily consented to have publicly disseminated or listed, such as name, address or telephone number.

804.03 - RECORDS MANAGEMENT AND E-MAIL RETENTION

1. General Standards. Records should generally be organized, managed, retained and disposed of in accordance with law and the Secretary of State's schedules for retention and disposition of public records.
2. Records Officer. The Superintendent is hereby designed as the records officer of the school district for purposes of this policy. Any questions about the type of category of a record or the required retention period for it should be addressed to the records officer.
3. Electronic Messages. Electronic messages are communications using an electronic system for the conduct of school district business internally, between other state and local government agencies, and with parents, students, patrons and other in the outside world.

These messages may be in the form of e-mail, electronic document exchange (electronic fax), and electronic data interchange (BIN). In this policy, the terms electronic messages and e-mail are used, depending on the context, to mean the same thing. The school district's electronic system in which records are collected, organized, and categorized to facilitate preservation, retrieval, use, and disposition is as follows:

- a. End-User Management. End-user means anyone who creates or receives electronic messages on the school district's electronic system. Electronic messages are to be managed at the end-user's desktop rather than from a central point. Each end-user is responsible for organizing, managing and disposing of records that are part of his or her desktop computer.
- b. Categories for Retention. Electronic messages fall within three categories: (1) transitory messages; (2) records with a less than permanent retention period; and (3) records with a permanent retention period. End-users are to organize, store, retain and dispose of electronic messages according to these three categories. This means determining which electronic messages require long-term retention, determining who is responsible for making this decision, and establishing storage and disposition requirements for electronic messages.
 - i. Transitory messages. Transitory messages include copies posted to several persons and casual and routine communications similar to telephone conversations. For example, as determined on an individual case-by-case basis by the end-user, transitory messages include certain embryonic materials, notes or drafts; unwanted and unneeded "junk" mail; "personal" mail for employees not related to school business; unsolicited sectarian, religious, partisan, political or commercial messages, or political advertising or advertisements promoting particular personal or religious beliefs, a specific ballot question, or controversial topics or positions. There is no retention requirement for transitory messages.

- Employees sending or receiving such communications may delete them immediately without obtaining approval.
- ii. Less than permanent retention records. These records are governed by the retention period for equivalent hard copy records as specified in the approved records retention and disposition schedules. These records should be converted to hard copy (printed) or an electronic format which can be retrieved and interpreted (downloaded) for the legal retention period. Employees creating or receiving such communications may delete or destroy the records only according to the applicable retention schedule. Questions relating to the retention or destruction of these records should be referred to the records officer.
 - iii. Permanent/archival retention records. These are records scheduled for transfer to the Nebraska State Historical Society (NSHS). Decisions relating to such records should be made by the records officer in consultation with NSHS, and the state Records Administrator about either transferring the records or maintaining them in the agency of origin. If the transfer decision is made, the method, frequency and format of the transfer should be determined cooperatively by the records officer, the NSHS, and the State Records Administrator.
- c. Electronic Storage limitations. The district's computer systems have storage limitations. E-mails are deleted by computer system within 60 to 90 days to avoid operational problems. End-users are instructed that electronic messages that are required to be maintained past that time period should be converted to hard copy(printed) or an electronic format which can be retrieved and interpreted (downloaded) for the legal retention period. The retention period for the particular record is the best indicator of which storage medium or format to choose.
- d. Proper Use of Electronic Messages.
- i. Non-Discrimination. Electronic messaging is not permitted to be used to promote discrimination on the basis of race, color, national origin, age, marital status, sex, political affiliation, religion, disability or sexual preference; promote sexual harassment; or to promote personal, political, or religious business or beliefs.
 - ii. Permissible Use. Electronic messaging is to be used only for purposes that are consistent with the mission of the school district. Electronic messaging is not permitted to be used for personal purposes except for: incidental, intermittent or occasional use which does not interfere with performance of duties as determined by the administration, use that is authorized pursuant to an individual use agreement, and use that represents a form of the employee's compensation. Electronic messaging is not permitted to be used for personal financial gain or for the purpose of campaigning for or against the nomination or election of a candidate or the qualification, passage, or defeat of a ballot question. Electronic messaging is not permitted to be used for purposes of assisting a non-profit organization except when and to the extent such use serves a school purpose or facilitates school district business.

- iii. Conduct. Employees shall not read electronic messages received by another employee when there is no school purpose for doing so, send electronic messages under another employee's name without the employee's consent or administrative authorization, or change or alter any portion of a previously sent electronic message without administrative authorization.
- iv. Other Regulations. Electronic messaging is subject to all requirements of the school district's "Acceptable Use of Computers, Network, Internet and Websites" policy and may be monitored and accessed at any time without prior notice. The school district has complete authority to regulate all electronic messaging. Electronic messaging is a privilege and not a property right and is not a public forum. Electronic messaging is made available subject to all board policy and regulations, these regulations, building guidelines, use agreements, handbook provisions, and all administrative orders or directives as issued from time to time.

4. Litigation Holds

When litigation against the District or its employees is filed or threatened, the District will take all reasonable action to preserve all documents and records that pertain to the issue. Such action will in particular be taken when the litigation may be filed in federal court or otherwise subject to federal rules of discovery.

As soon as the District or its employees is filed or threatened, litigation, a litigation hold directive will be issued by the records officer or designee. The directive will be given to all persons suspected of having records that may pertain to the litigation issue.

The litigation hold directive overrides any records retention schedule that may otherwise call for the disposition or destruction of the records until the litigation hold has been lifted. E-mail and computer accounts of separated employees that have been placed on litigation hold will be maintained by the records officer until the hold is released.

Employees who receive notice of a litigation hold are to preserve all records that pertain to the litigation issue. This includes preserving electronic messages that would otherwise be deleted by the computer system; such messages are to be converted by the recipients of the litigation hold to hard copy (printed) or electronic format which can be retrieved and interpreted (downloaded) for the duration of the litigation hold.

No employee who has been notified of a litigation hold may alter or delete an electronic or other record that falls within the scope of the hold. Violation of the litigation hold may subject the employee to disciplinary actions, up to and including dismissal, as well as personal liability for civil and/or criminal sanctions by the courts or law enforcement agencies.

805.01 - INSURANCE

The board will maintain a comprehensive insurance program to provide adequate coverage against major types of risk, loss, or damage, as well as legal liability. The board will purchase insurance at replacement values, when possible, after reviewing the costs and availability of such insurance. The comprehensive insurance program shall be reviewed periodically.

The school district will assume the risk of property damage, legal liability, and dishonesty in cases in which the exposure is so small or dispersed that a loss does not significantly affect the operation of the education program or financial condition of the school district.

Insurance of buildings, structures, or property in the open will not generally be purchased to cover loss exposures below \$500 unless such insurance is required by statute or contract. The school district will make every effort to obtain property, vehicle, and liability insurance at the most economical cost, consistent with required service, by obtaining quotes or by negotiation, using whichever method is advantageous to the district.

Administration of the insurance program, making recommendations for additional insurance coverage, placing the insurance coverage and loss prevention activities shall be the responsibility of the superintendent.

Blanket building and equipment insurance will cover replacement costs with an agreed amount endorsement and with a deductible determined by the superintendent to provide the lowest possible premium costs consistent with adequate protection from unanticipated expenditures.

General and personal liability insurance will cover district Board members and employees only while acting in their official capacity.

The district will provide liability coverage for all district-owned or leased vehicles.

The district will establish and provide the opportunity for students to purchase student accident insurance. The district will not carry student accident insurance other than liability insurance.

The district will not be liable for theft and damage of personal property of students that is not a requirement for attendance or participation. Additionally, the district will not be liable for theft and damage of personal property of staff.

901.00 - OBJECTIVES OF BUILDINGS & SITES

This series of the board policy manual sets forth the board objectives and goals for the school district's buildings and sites. It shall be the goal of the board to provide sufficient school district buildings and sites for the education program. The board shall strive to provide an environment which will encourage and support learning.

In providing this environment the school district buildings and sites will accommodate the organizational and instructional patterns that support the education program. The board shall have final authority to determine what is necessary to meet the needs of the education program.

It shall be the responsibility of the superintendent to oversee the day-to-day operations of the school buildings and sites and to notify the board of areas in need of improvement.

902.02 - CONSTRUCTION PLANS AND SPECIFICATIONS

The board may engage the services of consultants or other personnel to study the needs of the school district's buildings and sites in providing the education program. The results of these services will be considered in planning the education program and in making decisions about the improvement and acquisition of additional buildings and sites.

In any construction involving architecture or engineering with a cost contemplated to exceed \$118,000, and an amount as periodically adjusted by state statute, the board shall engage an architect, a professional engineer, or a person or persons under the direct supervision of an architect or professional engineer to prepare the plans, specifications and estimates for the construction.

It shall be the responsibility of the superintendent to make a recommendation to the board regarding the need for such services and who should perform such services for the board.

Buildings considered for purchase or construction by the board or currently owned by the school district and used for the education program must meet, or upon improvement be able to meet, the specifications set by the board. The board shall make this determination.

Prior to construction or renovation of buildings and sites the board shall make a determination of the method by which it will obtain construction services. If the board elects by a seventy-five percent affirmative vote to use the Construction Management at Risk or Design-Build methods rather than the traditional Design-Bid-Build method, policies for that respective method must be established prior to selecting the construction services provider.

Prior to remodeling or other construction of buildings and sites, the board may appoint a committee of consultants, employees, citizens, or others to assist the board in developing the specifications for the new or improved buildings and sites. These specifications shall be consistent with the education program, and they shall provide the architect with the information necessary to determine what is expected from the facility. It shall be within the discretion of the board to determine whether a committee shall be appointed.

It shall be the responsibility of the superintendent to make a recommendation to the board regarding the specifications of buildings and sites.

902.04 - BIDS AND AWARDS FOR CONSTRUCTION CONTRACTS

Public, competitive sealed bids are required for construction projects, including renovation and repair, with a cost exceeding \$109,000 and an amount as periodically adjusted by state statute. This does not apply to the acquisition of existing buildings, purchase of new sites or site expansions by the district. The sealed bids shall be opened in public on the date and hour as advertised.

The award of construction contracts will, generally, be made to the lowest responsible bidder. The board, in its discretion, after considering factors relating to the construction, including, but not limited to, the cost of the construction, availability of service and/or repair, completion date, and any other factors deemed relevant by the board, may choose a bid other than the lowest bid. Resident bidders of the state of Nebraska may be given preference over nonresident bidders in some instances according to state statutes. The board shall have the right to reject any or all bids, or any part of the bids, to waive informalities, and to enter into the contract or contracts deemed to be in the best interests of the school district.

It shall be the responsibility of the superintendent to make a recommendation accompanied by supportive reasoning to the board for construction contract bids.

902.05 - CONSTRUCTION MANAGEMENT AT RISK

This policy is adopted pursuant to the Political Subdivisions Construction Alternatives Act (NEB. REV. STAT. § 13-2901 through § 13-2914).

The board shall adopt a resolution by a two-thirds affirmative vote selecting the construction management at risk contract delivery system prior to proceeding with any of the steps involved with solicitation or execution of any construction contract. For a project authorized under subsection (3) of section 13-2914, the resolution shall include a statement that the political subdivision has made a determination that the construction management at risk contract delivery system is in the public interest based, at a minimum, on one of the following criteria: (a) Savings in cost or time or (b) requirement of specialized or complex construction methods suitable for the construction management at risk contract delivery system.

Definitions. For purposes of this policy:

1. Construction management at risk contract means a contract by which a construction manager (a) assumes the legal responsibility to deliver a construction project within a contracted price to the school district, (b) acts as a construction consultant to the school district during the design development phase of the project when the school district's architect or engineer designs the project, and (c) is the builder during the construction phase of the project;
2. Construction manager means the legal entity which proposes to enter into a construction management at risk contract pursuant to the Act;
3. Proposal means an offer in response to a request for proposals by a construction manager to enter into a construction management at risk contract for a project pursuant to the act;
4. Request for proposals means the documentation by which a school district solicits proposals; and
5. School district means Hemingford Public Schools.

Procedures.

1. Procedures for the preparation and content of requests for proposals shall include the following:
 - A. At least thirty days prior to the deadline for receiving and opening proposals, notice of the request for proposals shall be published in a newspaper of general circulation within the school district and filed with the State Department of

Education. The request for proposals shall contain, at a minimum, the following elements:

1. The identity of the school district for which the project will be built and the school district that will execute the contract;
 2. Policies adopted by the school district pursuant to the Act;
 3. The proposed terms and conditions of the contract, including any terms and conditions which are subject to further negotiation. The proposed general terms and conditions shall be consistent with nationally recognized model general terms and conditions which are standard in the design and construction industry in Nebraska. The proposed terms and conditions may set forth an initial determination of the manner by which the construction manager selects any subcontractor and may require that any work subcontracted be awarded by competitive bidding;
 4. Any bonds and insurance required by law or as may be additionally required by the school district;
 5. General information about the project which will assist the school district in its selection of the construction manager, including a project statement which contains information about the scope and nature of the project, the project site, the schedule, and the estimated budget;
 6. The criteria for evaluation of proposals and the relative weight of each criterion; and
 7. A description of any other information which the school district chooses to require.
2. Procedures for the preparation and submission of proposals by the construction manager shall be determined on a project-by-project basis and included within the requests for proposals.
 3. Procedures for evaluating requests for proposals submitted to the school district by a construction manager shall include the following:
 - A. The school district shall refer the proposals for recommendation to a selection committee. The selection committee shall be a group of at least five persons designated by the school district. Members of the selection committee shall include (1) members of the school board, (2) members of the school

administration or staff, (3) the school's architect or engineer (4) any person having special expertise relevant to selection of a construction manager under the Act, and (5) a resident of the school district other than an individual included in subdivisions (1) through (4) of this subsection. A member of the selection committee designated under subdivision (4) or (5) of this subsection shall not be employed by or have a financial or other interest in a construction manager who has a proposal being evaluated and shall not be employed by the school district or the school's architect or engineer.

B. The selection committee and the school district shall evaluate proposals taking into consideration the criteria enumerated in subdivisions (1) through (7) of this subsection with the maximum percentage of total points for evaluation which may be assigned to each criterion set forth following the criterion. The following criteria shall be evaluated, when applicable:

- (1) The financial resources of the construction manager to complete the project (five percent);
- (2) The ability of the proposed personnel of the construction manager to perform (twenty-five percent);
- (3) The character, integrity, reputation, judgment, experience, and efficiency of the construction manager (twenty-five percent);
- (4) The quality of performance on previous projects (twenty-five percent);
- (5) The ability of the construction manager to perform within the time specified (ten percent);
- (6) The previous and existing compliance of the construction manager with laws relating to the contract (five percent); and
- (7) Such other information as may be secured having a bearing on the selection (five percent).

The records of the selection committee in evaluating proposals and making recommendations shall be considered public records for purposes of NEB. REV. STAT. § 84 712.01.

C. The school district shall then evaluate and rank each proposal on the basis of best meeting the criteria in the request for proposals and taking into consideration the recommendation of the selection committee.

4. Procedures for negotiations between the school district and the construction managers submitting proposals prior to the acceptance of a proposal if any such negotiations are contemplated shall include the following:
 - A. The school district may attempt to negotiate a construction management at risk contract with the highest ranked construction manager and may enter into a construction management at risk contract after negotiations.
 - B. The negotiations shall include a final determination of the manner by which the construction manager selects a subcontractor.
 - C. If the school district is unable to negotiate a satisfactory contract with the highest ranked construction manager, the school district may terminate negotiations with that construction manager. The school district may then undertake negotiations with the second highest ranked construction manager and may enter into a construction management at risk contract after negotiations.
 - D. If the school district is unable to negotiate a satisfactory contract with the second highest ranked construction manager, the school district may undertake negotiations with the third highest ranked construction manager, if any, and may enter into a construction management at risk contract after negotiations.
 - E. If the school district is unable to negotiate a satisfactory contract with any of the ranked construction managers, the school district may either revise the request for proposals and solicit new proposals or cancel the construction management at risk process under the act.
 - F. If the school district is able to negotiate a satisfactory contract with a construction manager, the school district shall file a copy of all construction management at risk contract documents with the State Department of Education within thirty days after their full execution. Within thirty days after completion of the project, the construction manager shall file a copy of all contract modifications and change orders with the State Department of Education.

5. Procedures for filing and acting on formal protests relating to the solicitation or execution of construction management at risk contracts shall include the following:
 - A. Definitions.
 - (1) Interested party shall mean an actual or prospective bidder whose direct economic interest would be affected by the award of a contract by the school district to another party or by the failure of the school district to award a contract to such actual or prospective bidder.
 - (2) Protest shall mean a written objection by an interested party on any phase of the bidding process, including specification, preparation, bid solicitation, and intent to award.

B. Right to Protest. An interested party may protest to the Superintendent. The protest shall be submitted in writing on company letterhead within five working days after public notice of the bid. Protests based on alleged apparent improprieties in a solicitation or other request for proposals must be filed before bid opening or the closing date for receipt of proposals. In all other cases, the protest must be filed within five working days following the selection of the construction manager. To expedite handling of protests, the envelope containing the protest should be clearly labeled "Protest". The written protest shall include as a minimum the following:

- (1) The name and address of the interested party;
- (2) Appropriate identification of the relevant solicitation, and if a bid has been opened, its number, and date of opening;
- (3) A detailed statement of reasons for the protest;
- (4) Supporting exhibits, evidence, or documents to substantiate any claims unless not available within the filing time, in which case the expected availability date shall be indicated; and a list of all persons who have knowledge of facts relevant to the protest; and
- (5) The action(s) the protestor desires the school district to take to resolve the protest.

The Superintendent will immediately decide upon receipt of the protest whether or not the award of a contract shall be delayed, or if the protest is timely received after the award, whether the performance of the contract should be suspended. The school district shall not proceed further with the solicitation or with the award of the contract and shall suspend performance under the contract, if awarded, unless the Superintendent makes a written determination that the protest is clearly without merit or that award of the contract without delay is necessary to protect the substantial interests of the school district.

C. Authority to Resolve Protests. Prior to the commencement of an administrative review by the Board concerning any protest, the Superintendent shall attempt to resolve any protest filed by an interested party concerning any solicitation. If the protest is not resolved by mutual agreement, the Superintendent shall create and deliver a Decision to the protestor within a reasonable time after the written protest was received. The Decision shall include a written summary of the Superintendent's investigation and a recommendation regarding the outcome of the protest. The Decision shall (1) state the reasons for the action taken, and (2)

inform the interested party of their right to the administrative review by the Board. A copy of the Decision shall be mailed or otherwise furnished immediately to the interested party and any other party intervening protester and all other bidders. If not satisfied with the decision of the Superintendent, any interested party protester may appeal to the Board, but the decision shall be final unless the interested party protester files a timely appeal with the Board.

- D. Board Appeal Procedures. Any interested party protester, within five working days of receipt of a decision of the Superintendent, may file with the Superintendent a written notice of appeal for an administrative review before the Board. The Notice of Appeal must clearly state the action protested and the basis of appeal. The Board will conduct an administrative review at its next regularly scheduled meeting or at a special meeting. The school district board of education shall consider the Decision of the Superintendent and shall make the final decision on the protest. The school district board of education's decision shall be final.
6. A construction management at risk contract may be conditioned upon later refinements in scope and price and may permit the school district in agreement with the construction manager to make changes in the project without invalidating the contract. Later refinements shall not exceed the scope of the project statement contained in the request for proposals.

902.06 - DESIGN-BUILD SCHOOL CONSTRUCTION ALTERNATIVE

The school district adopts this policy in the event it resolves to use the design-build construction process. Prior to using the design-build process on a specific construction project, the school district shall review information on file with the State Department of Education, and may consult legal counsel, to assist the board in determining the current eligibility of the proposed project under limitations established by the Nebraska Schools Construction Alternatives Act. The board shall then adopt such a resolution by a seventy-five percent affirmative vote.

The board shall utilize this policy to evaluate, select and contract with a design-build firm for the delivery of design and construction services.

Definitions

1. Design-build contract means a contract which is subject to qualification-based selection between a school district and a design-builder to furnish (a) architectural, engineering, and related design services for a project under this policy and (b) labor, materials, supplies, equipment, and construction services for a project under this policy;
2. Designbuilder means the legal entity which proposes to enter into a design-build contract which is subject to qualification-based selection under this policy;
3. Letter of interest means a statement indicating interest to enter into a designbuild contract for a project under this policy;
4. Performancecriteria developer means any person licensed or any organization issued a certificate of authorization to practice architecture or engineering pursuant to the Engineers and Architects Regulation Act who is selected by a school district to assist the school district in the development of project performance criteria, requests for proposals, evaluation of proposals, evaluation of the construction under a designbuild contract to determine adherence to the performance criteria, and any additional services requested by the school district to represent its interests in relation to a project;
5. Project performance criteria means the performance requirements of the project suitable to allow the designbuilder to make a proposal. Performance requirements include the following, if required by the project: Capacity, durability, standards, ingress and egress requirements, description of the site, surveys, soil and environmental information concerning the site, interior space requirements, material quality standards, design and construction schedules, site development requirements, provisions for utilities, storm water retention and disposal, parking requirements, applicable governmental code requirements, and other criteria for the intended use of the project;
6. Proposal means an offer in response to a request for proposals by a designbuilder to enter into a designbuild contract for a project pursuant under this policy;
7. Qualificationbased selection process means a process of selecting a designbuilder based first on the qualifications of the designbuilder and then on the designbuilder's proposed approach to the design and construction of the project;

8. Request for letters of interest means the documentation or publication by which the school district solicits letters of interest;
9. Request for proposals means the documentation by which the school district solicits proposals.

Procedural Regulations

The board directs the superintendent to promulgate regulations detailing the following procedures:

1. Procedures for selecting and hiring on its behalf a performancecriteria developer when soliciting and executing a designbuild contract. The procedures shall be consistent with the Nebraska Consultants' Competitive Negotiation Act and shall provide that the performancecriteria developer is ineligible to be included as a provider of any services in a proposal for the project on which it has acted as performancecriteria developer and is not employed by or does not have a financial or other interest in a designbuilder or construction manager who will submit a proposal;
2. Procedures and standards to be used to prequalify designbuilders. The procedures and standards shall provide that the school district will evaluate prospective designbuilders based on the information submitted to the school district in response to a request for letters of interest and will select designbuilders who are prequalified and consequently eligible to respond to the request for proposals;
3. Procedures for the preparation and content of requests for proposals;
4. Procedures for preparing and submitting proposals;
5. Procedures for evaluating proposals;
6. Procedures for negotiations between the school district and the designbuilders submitting proposals prior to the acceptance of a proposal if any such negotiations are contemplated;
7. Procedures for filing and acting on formal protests relating to the solicitation or execution of designbuild contracts; and
8. Procedures for the evaluation of construction under a designbuild contract by the performancecriteria developer to determine adherence to the performance criteria.

Letters of Interest

The school district shall prepare a request for letters of interest for designbuild proposals and shall prequalify designbuilders in accordance with this policy. The request for letters of interest shall describe the project in sufficient detail to permit a designbuilder to submit a letter of interest.

The request for letters of interest shall be (a) published in a newspaper of general circulation within the school district at least thirty days prior to the deadline for receiving letters of interest and (b) sent by firstclass mail to any designbuilder upon request.

Letters of interest shall be reviewed by the school district in consultation with the performancecriteria developer. The school district shall select prospective designbuilders in accordance with the procedures of this policy. The school district shall select at least three prospective designbuilders except that if only two designbuilders have submitted letters of interest, the school district shall select at least two prospective designbuilders. The selected designbuilders shall then be considered prequalified and eligible to receive requests for proposals.

Requests for Proposals

The school district shall prepare a request for proposals for each designbuild contract. Notice of the request for proposals shall be published in a newspaper of general circulation within the school district and filed with the State Department of Education at least thirty days prior to the deadline for receiving and opening proposals.

The request for proposals shall be sent only to the designbuilders selected under the prequalification procedures of this policy.

The request for proposals shall contain, at a minimum, the following elements:

1. The identity of the school district for which the project will be built and the school district that will execute the designbuild contract;
2. Policies adopted by the school district governing the design-build process;
3. The proposed terms and conditions of the design-build contract, including any terms and conditions which are subject to further negotiation. The proposed terms and conditions may set forth an initial determination of the manner by which the design-builder selects any subcontractor and may require that any work subcontracted be awarded by competitive bidding. The proposed general terms and conditions shall be consistent with the standard model general terms and conditions issued by one of the following:
 - a. The American Institute of Architects (AIA);
 - b. The Engineer's Joint Contract Documents Committee (EJCOC);
 - c. The Association of General Contractors of America (AGC); or
 - d. The Design-Build Institute of America (DBIA).
4. A project statement which contains information about the scope and nature of the project;
5. Project performance criteria
6. Budget parameters for the project;
7. Any bonds and insurance required by law or as may be additionally required by the school district;
8. The criteria for evaluation of proposals and the relative weight of each criterion;
9. A requirement that the designbuilder provide a written statement of the designbuilder's proposed approach to the design and construction of the project, which may include graphic materials illustrating the proposed approach to design and construction but shall not include price proposals;
10. A requirement that the designbuilder agree to the following conditions:

- a. An architect or engineer licensed to practice in Nebraska will participate substantially in those aspects of the offering which involve architectural or engineering services;
 - b. At the time of the designbuild offering, the designbuilder will furnish to the school board a written statement identifying the architect or engineer who will perform the architectural or engineering work for the designbuild project;
 - c. The architect or engineer engaged by the designbuilder to perform the architectural or engineering work with respect to the designbuild project will have direct supervision of such work and may not be removed by the designbuilder prior to the completion of the project without the written consent of the school board;
 - d. A designbuilder offering designbuild services with its own employees who are design professionals licensed to practice in Nebraska will (i) comply with the Engineers and Architects Regulation Act by procuring a certificate of authorization to practice architecture or engineering and (ii) submit proof of sufficient professional liability insurance; and
 - e. The rendering of architectural or engineering services by a licensed architect or engineer employed by the designbuilder will conform to the Engineers and Architects Regulation Act and the Nebraska Schools Construction Alternatives Act; and
11. Other information which the school district chooses to require.

Receiving and Evaluating Proposals

Designbuilders shall submit proposals as required by the request for proposals. The school district may only proceed to negotiate and enter into a designbuild contract if there are at least two proposals from prequalified designbuilders.

Proposals shall be sealed and shall not be opened until expiration of the time established for making proposals as set forth in the request for proposals.

Proposals may be withdrawn at any time prior to acceptance. The school district shall have the right to reject any and all proposals except for the purpose of evading the provisions and policies of the Nebraska Schools Construction Alternatives Act. The school district may then solicit new proposals using the same or different project performance criteria.

The school district shall rank in order of preference the designbuilders pursuant to the criteria in the request for proposals and taking into consideration the recommendation of the selection committee.

Selection Committee

In evaluating proposals, the district shall refer the proposals for recommendation to a selection committee. The selection committee shall be a group of at least five persons designated by the board and shall include the following:

1. members of the school board;
2. members of the school administration or staff;
3. the performancecriteria developer;
4. any person chosen by the board for providing special expertise relevant to selection of a designbuilder under the Nebraska Schools Construction Alternatives Act; and
5. a resident of the school district not included in the four preceding subdivisions.

A member of the selection committee designated under subdivision (4) or (5) of this subsection shall not be employed by or have a financial or other interest in a designbuilder who has a proposal being evaluated and shall not be employed by the school district or the performancecriteria developer.

The selection committee and the board shall evaluate proposals taking into consideration the criteria enumerated below when applicable, with the maximum percentage of total points for evaluation which may be assigned to each as shown:

1. The financial resources of the designbuilder to complete the project, ten percent;
2. The ability of the proposed personnel of the designbuilder to perform, thirty percent;
3. The character, integrity, reputation, judgment, experience, and efficiency of the designbuilder, thirty percent;
4. The quality of performance on previous projects, thirty percent;
5. The ability of the designbuilder to perform within the time specified, thirty percent;
6. The previous and existing compliance of the designbuilder with laws relating to the contract, ten percent; and
7. Such other information as may be secured having a bearing on the selection, twenty percent.

The board shall assign a specific relative weight for each criterion. The same set of criteria and associated relative weights shall be used by both the selection committee and the board in the evaluation process.

The selection committee shall keep and maintain permanent records of the committee proceedings including, but not limited to, records of the minutes of meetings, and documentation received or disclosed in open session of the meetings.

The committee shall appoint a board member or district employee to keep the minutes of the committee meetings. The minutes of each meeting shall include as a minimum the following items: a record of the date, time, place, members present, action taken and the vote of each member. The records of the committee shall be placed on public file with the central administration office.

903.01 - SECURITY

The Board encourages cooperation with local law enforcement and fire authorities and insurance company personnel in planning and carrying out proper security measures to preserve and protect the district's investment in its physical plant.

Buildings constitute one of the greatest capital investments of the district and should be protected. Security includes minimizing fire or other safety hazards, reducing the probability of faulty equipment, and keeping records and funds in a safe place. Security also includes having available floor plans of buildings and site plans showing campus boundaries and access points.

A key control system shall be established and maintained limiting building access to district personnel thus safeguarding against potential entry by unauthorized persons.

Protective devices designed as safeguards against illegal entry and vandalism shall be installed where appropriate.

The superintendent is directed to establish regulations as may be needed to provide for security of buildings and grounds.

Incidents of illegal entry, theft of school property, vandalism or damage to school property from any cause shall be reported by phone to the office of the superintendent and to the appropriate law enforcement agency as soon as discovered. A written report of the incident shall be made within one business day of discovery and forwarded to the superintendent's office.

Each principal, with the superintendent's approval, will develop regulations designed to control the use of building keys and to ensure that buildings are adequately closed and locked when no authorized personnel are present. Staff or students who fail to obey such regulations may be disciplined, suspended or dismissed.

During regular school hours, flow of traffic into and out of buildings shall be closely monitored and limited to certain doors. Visitors shall be required to check in to show proper identification and reason for being at the school and shall wear name tags identifying them as visitors. This will not apply when parents/guardians have been invited to a classroom or assembly program.

Access to school buildings and grounds outside of regular school hours shall be limited to personnel whose work requires it and to sponsors of approved student activities.

Within the limitations described below, individuals may broadcast or videotape public school district events, including open board meetings, as long as it does not interfere with or disrupt the school district event and it does not create an undue burden in adapting the buildings and sites to accommodate the request.

It shall be within the discretion of the superintendent to determine whether the request is unduly burdensome and whether the broadcast or videotaping will interfere with or disrupt the school district event.

In addition to limitations on recording or transmitting image or sound in policy 504.12 referenced below, anyone recording or transmitting any sound or image of any person (including themselves) must have the prior consent of the person or persons being recorded or whose image or sound is being transmitted. This requirement applies to all persons, including staff, students, volunteers, and community members, at district facilities or attending district sponsored events. This policy does not apply to District-sponsored athletic events or activities where the focus of the recording or transmission is on the student performances or activity. Nothing in this policy shall prohibit the recording of an Individualized Education Program meeting when necessary to implement parental rights as guaranteed by the Individuals with Disabilities Education Act or in conducting meetings to implement Section 504.

1005.01- PUBLIC COMPLAINTS

The board recognizes that concerns regarding the operation of the school district will arise. The board further believes constructive criticism can assist in improving the quality of the education program and in meeting individual student needs more effectively. The board also places trust in its employees and desires to support their actions in a manner that frees them from unnecessary or unwarranted criticism and complaints.

Procedures for dealing with complaints concerning programs or practices should be governed by the following principles:

- where action/investigation is desired by the complainant, or where it seems appropriate, the matter should be handled as near the source as possible;
- complaints should both be investigated and, if possible, resolved expeditiously;
- complaints should be dealt with courteously and in a constructive manner; and,
- individuals directly affected by the complaint should have an opportunity to respond.

The board, consistent with its board policy-making role, will review the action taken to resolve complaints concerning specific schools, programs or procedures only after the usual channels have been exhausted. Complaints regarding employees or complaints by students will follow the more specific policies 403.05 and 504.01 respectively.

When a complaint requiring attention is received by the board or a board member it will be referred to the superintendent. After all of the channels have been exhausted, the complainant may appeal to the board by requesting a place on the board agenda. If the complainant appeals to the board, the appeal shall be in writing, signed and explain the process followed by the complainant prior to the appeal to the board.

However, the board will only directly consider appeals dealing with policies, procedures and programs. Any appeals involving employee issues will be passed on to the board's legal counsel to determine whether district policies and procedures were followed by the administrator in attempting to resolve the conflict.

1005.02 - PARENT RELATIONS GOALS

It is the general goal of the district to foster relationships with parents which encourage cooperation between the home and school in establishing and achieving common educational goals for students. The board believes parents should be active participants in education by demonstrating interest in and support for their school and the district, by becoming informed about their role as partners in education, and by becoming involved in the education of their children.

While parents are individually responsible for their children, the district provides direct services of education and indirect services of child care for students during the time when they are within the supervision of school personnel. Consistent with these shared responsibilities and as appropriate to the maturity of the student, members of the school staff will consult with parents regarding student progress and achievement, methods to enhance student development, and matters of correction.

Additionally, parental involvement in the schools is encouraged through regular communication with the school principal and staff, the parent/teacher organizations, the school volunteer program, and other opportunities for participation in school activities and district programs. It is assumed that the relationship described in the general goal is fostered if the district will:

- consult with and encourage parents to share in school planning, in setting objectives, and evaluating programs;
- help parents understand the education process and their role in promoting this process;
- provide for parent understanding of school operations;
- provide opportunities for parents to be informed of their child's development and the criteria for its measurement; and
- help parents improve in their role as parents.

Hemingford Public Schools intends to follow the Title I Parent and Family Engagement Policy guidelines in accordance with federal law, Section 1116(a -f) ESSA, (Every Student Succeeds Act) of 2015.

In General

The written District parent and family engagement policy has been developed jointly with, updated periodically and distributed to parents and family members of participating children and the local community in an understandable and uniform format. This policy agreed on by such parents describes the means for carrying out the requirements as listed below.

- Parents and family members of all students are welcomed and encouraged to become involved with their child's school and education; this includes parents and family members that have limited English proficiency, limited literacy, are economically disadvantaged, have disabilities, racial or ethnic minority background or are migratory children. Information related to school and parent programs, meetings, school reports and other activities are sent to the parents of participating children in a format, and to the extent practicable, in a language the parents can understand.

 - Annual Title I Parent Meeting
 - Parent-Teacher Conferences

- Parents are involved in the planning, review, evaluation, and improvement of the Title I program, Parent and Family Engagement Policy and the School-Parent Compact at an annual parent meeting scheduled at a convenient time. This would include the planning and implementation of effective parent and family involvement activities.

- Conduct, with meaningful parent and family involvement, an annual evaluation of the content and effectiveness of the Parent and Family Engagement Policy. Use the evaluation findings to design evidence-based strategies for more effective parental involvement, and to revise the Parent and Family Engagement Policy.

- Opportunities are provided for parents and family members to participate in decisions related to the education of their child/children. The school and local educational agency shall provide other reasonable support for parental involvement activities.
 - Parent and Community Surveys
 - Annual Title I parent meeting
 - Development of the School Improvement Plan

- School Advisory Meetings
- Parents of participating children will be provided timely information about programs under this part, a description and explanation of the curriculum in use, the forms of academic assessment used to measure student progress and the achievement levels of the challenging State academic standards. The school will provide assistance, opportunities, and/or materials and training to help parents work with their children to improve their children's academic achievement in a format, and when feasible, in a language the parents and family members can understand.
 - Student handbook
 - Parent-Teacher Conferences
 - Standardized Tests results
 - Progress reports & report cards
- Educate teachers, specialized instructional support personnel, principals, and other school leaders, with the assistance of parents, in the value and utility of contributions of parents, how to reach out to, communicate with and work with parents as equal partners.
- Coordinate and integrate parental involvement programs and activities with other Federal, State and Local programs, including preschool programs that encourage and support parents in more fully participating in the education of their children.

1005.04 - COMMUNITY RELATIONS GOALS

The school community relations program is a responsibility of both the Board of Education and the total school staff. Within the bounds of legal and ethical responsibilities to pupils, the school district will attempt to keep the community well informed about the operations and needs of the school district. The school district recognizes the necessity of involving citizens in the work of the schools and of two-way communications with the schools' internal and external publics.

The board will work closely with school district-community groups, including, but not limited to, the booster club and parent-teacher organizations. The Board expects all district staff to demonstrate commitment to the involvement of parents and community members in education.

Prior to any purchase of, or fund raising for, goods or services for the school district, the group shall confer with the superintendent to assist the group in purchasing goods or services to meet the school district's needs.

Funds raised by these groups for the school district may be kept as part of the accounts of the school district.

It shall be the responsibility of the building principal to be the liaison with the school district-community groups affiliated with the building principal's attendance center.

1005.05 - COMMUNITY INVOLVEMENT IN DECISION MAKING

The Board endorses the concept that community participation in school affairs is essential if the school system and the community are to maintain mutual confidence and respect and work together to improve the quality of education for students. It therefore intends to exert every effort to identify the community's desires and to be responsive, through its actions, to those desires.

All district citizens will be encouraged to express their ideas, concerns and judgments about the schools through such means as:

1. written suggestion(s) or proposal(s);
2. presentations at hearings;
3. responses to surveys made through interviews, written instruments or other means;
4. comments at Board meetings; and
5. service on citizens' advisory committees and school improvement teams.

The public advice will be given careful consideration. In evaluating such advice, the first concern will be for the educational program as it affects students. The Board's final decisions may depart from public advice when, in the judgment of staff and the Board, such advice is not consistent with goals adopted by the Board or with good educational practice or within available financial resources.

When possible and in concert with the education program, members of the school district community may be asked to make presentations to the students or to assist employees in duties other than teaching. The school district may officially recognize the contributions made by volunteers.

1005.07 - VISITORS TO SCHOOL

The Board encourages parents and other district citizens to visit the school and classrooms at any time to observe the work of students, teachers and other employees. All visitors, which includes persons other than employees or students, must notify the principal of their presence in the facility upon arrival and request authorization to visit elsewhere in the building.

Persons who wish to visit a classroom while school is in session are asked to notify the principal and obtain approval from the principal prior to the visit so appropriate arrangements can be made and so class disruption can be minimized. Teachers and other employees shall not take time from their duties to discuss matters with visitors.

Visitors shall conduct themselves in a manner fitting to their age level and maturity and with mutual respect and consideration for the rights of others while attending school events. Visitors failing to conduct themselves accordingly may be asked to leave the premises. The board and administration will not tolerate any person or persons whose presence disturbs classes or school activities or hinders the instructional process. Children who wish to visit school must be accompanied by a parent or responsible adult.

It shall be the responsibility of employees to report inappropriate conduct. It shall be the responsibility of the superintendent and principals to take the action necessary to cease the inappropriate conduct. If the superintendent or principals are not available, a school district employee shall act to cease the inappropriate conduct.

The Board discourages using the school as a site for parents without custody to visit their children. The principal may deny the parent without custody the opportunity to deliver packages, gifts, messages, etc., to the child and/or to see the child during the school day without the approval of the custodial parent or legal guardian. In this paragraph, "without custody" means the parent lacks joint legal custody under Nebraska law.

The district may restrict the use of its buildings and grounds or restrict access to school property by issuing no trespassing commands and/or stay away/no trespassing letters when deemed necessary by the superintendent when any individual or group:

1. is determined to present a risk to the safety of others,
2. presents a disruption to the learning environment,
3. fails to follow proper check-in and identification procedures, or
4. does not have a legitimate purpose to be present on school grounds or activities.

In the event a person prohibited by this or other board policies is on district property or is attending a district-sponsored event, the superintendent or building principal will tell the person he or she must leave and will notify the person they are not permitted back on district property, except if their presence is required by the district. The superintendent or building principal may

contact the proper legal authorities if necessary to enforce this policy and may file a report or sign a complaint on behalf of the district.

1005.08 - PUBLIC CONDUCT ON SCHOOL PREMISES

No person on district property will:

- Injure or threaten to injure another;
- Damage the property of another or of the district;
- Violate parking regulations;
- Drive a vehicle in an unsafe manner;
- Impede, delay or otherwise interfere with the orderly conduct of the district's educational program or any other activity taking place on district property which has been authorized by the Board, superintendent, principal or other authorized administrator;
- Enter any portion of district premises at any time for purposes other than those which are lawful and authorized by district officials;
- Possess an unauthorized loaded or unloaded firearm or any other instrument used as a dangerous or deadly weapon as defined in law and Board policy;
- Consume, sell, give or deliver unlawful drugs including drug paraphernalia and alcoholic beverages;
- Smoke or use tobacco products;
- Wear, possess, use, distribute, display or sell any clothing, jewelry, emblem, badge, symbol, sign or other things which are evidence of membership or affiliation in any gang. Use speech or commit any act or omission in furtherance of the interests of any gang or gang activity. A "gang" is defined as a group that identifies itself through the use of a name, unique appearance or language including hand signs, claiming of geographical territory or the espousing of a distinctive belief system that frequently results in criminal activity;
- Willfully violate other district rules and regulations designed to maintain public order on school property.

Spectators are permitted to attend extracurricular activities only as guests of the school district, and, accordingly as a condition of such permission, they must comply with the school district's rules and policies. Spectators will not be allowed to interfere with the enjoyment of the students participating, other spectators or with the performance of employees and officials supervising the extracurricular activity. Spectators, like the student participants, are expected to display mature behavior and sportsmanship. The failure of spectators to do so is not only disruptive but embarrassing to the students, the school district and the entire community.

To protect the rights of students to participate without fear of interference, and to permit the sponsors and officials of extracurricular activities to perform their duties without interference, the following provisions are in effect:

- Abusive, verbal or physical conduct of spectators directed at participants, officials or sponsors of extracurricular activities or at other spectators will not be tolerated.

- Verbal or physical conduct of spectators that interferes with the performance of students, officials or sponsors of extracurricular activities will not be tolerated.
- The use of vulgar or obscene language directed at students, officials or sponsors participating in an extracurricular activity or at other spectators will not be tolerated.

If a spectator at an extracurricular activity becomes physically or verbally abusive, uses vulgar or obscene language, or in any way impedes the performance of an activity, the spectator may be removed from the event by the individual in charge of the event and the superintendent may recommend the exclusion of the spectator at future extracurricular activities.

Upon recommendation of the superintendent, the board shall cause a notice of exclusion from extracurricular activities to be sent to the spectator involved. The notice shall advise the spectator of the school district's right to exclude the individual from school district activities and events and the duration of the exclusion. If the spectator disobeys the school district's order, law enforcement authorities will be contacted and asked to remove the spectator. If a spectator has been notified of exclusion and thereafter attends an extracurricular activity, the spectator shall be advised that his/her attendance will result in prosecution.

Persons having no legitimate purpose or business on district property or violating or threatening to violate the above rules may be ejected from the premises and/or referred to law enforcement officials.

1005.10 - DISTRIBUTION OR POSTING OF MATERIALS

The board recognizes that students, employees, parents or citizens may want to distribute materials within the school district that are noncurricular. Noncurricular materials to be distributed must be approved by the building principal and meet certain standards prior to their distribution.

It shall be the responsibility of the superintendent, in conjunction with the building principals to draft administrative regulations regarding this policy.

Materials shall be reviewed based on legitimate educational concerns. Such concerns include: the material is or may be defamatory; the material is inappropriate based on the age, grade level and/or maturity of the reading audience; the material is poorly written, inadequately researched, biased or prejudiced; the material contains information that is not factual; the material is not free of racial, ethnic, religious or sexual bias; or the material contains advertising that violates public school laws, rules and/or policy, is deemed inappropriate for students or that the public might reasonably perceive to bear the sanction or approval of the district.

The superintendent or designee shall determine distribution procedures for noncurricular materials. Such procedures may include:

1. Distribution to each student before or after class if materials are not directly related to the instructional goals;
2. Notification to students or parents of the availability of the materials in a specified location if this procedure is deemed less disruptive to the educational process; or
3. Solicitation of school-related groups such as parent organizations to distribute materials.

The practice of distributing pamphlets, booklets, flyers, brochures and other similar materials shall be periodically reviewed to ensure that the mere volume of requests has not become an interruption to the educational process.

The facilities, the staff or the students of the district shall not be used in any manner to advertise or promote commercial, cultural, organizational or other nonschool interests except that the district may:

1. Utilize films and other instructional aids furnished by private sources when the advertising content is reasonable in the judgment of the building principal;
2. Cooperate through announcements and distribution of program material with nonprofit community organizations that supplement the school program when such cooperation will not interfere with the school program;
3. Permit participation on a student option basis in essay, art, science and similar contests sponsored by outside interests when such activities parallel the curriculum and contribute to the educational program;

4. Release promotional material for nonschool athletic and cultural events only through appropriate school departments;
5. Accept limited advertising on extracurricular activity schedules and programs at the discretion of the principal of the school involved;
6. Permit other exceptions when, in the judgment of the superintendent, students of the district will benefit. The superintendent may, at his/her option, refer specific cases to the board for decision.

Signs and Banners: Signs and banners will be allowed in or upon buildings and other district facilities only with the prior written approval of the administration with consideration for the health, safety and welfare of staff and students.

The following guidelines shall be applied in considering requests to display signs or banners:

1. Signs and banners on sticks require special authorization;
2. Signs and banners fastened to any structure of a building or structures immediately adjacent to an open space shall not be allowed without specific prior written permission;
3. Signs and banners presenting recognizable health or safety hazards are prohibited;
4. Signs and banners presenting false information shall be prohibited.
5. Signs and banners may be removed at the discretion of the administration.

1008.01 - SEX OFFENDERS

The safety of the students attending school is very important to the board of education. School employees, parents, and students should be aware of dangers posed by sex offenders living within the school district, and should be vigilant in providing protection against these dangers.

The board does not generally permit registered sex offenders on school grounds, at any school sponsored activity, or on any property under the control of the school district. The superintendent or his/her designee is hereby empowered to notify sex offenders of this policy and to grant limited permission to attend certain activities on a case-by-case basis.
